Examines African American literature from its earliest origins through the rise of antislavery literature in the decades leading into the Civil War to the modern development of contemporary African American cultural media, literary aesthetics, and political ideologies. Addresses the latest critical and scholarly approaches to African American literature. Features essays by leading established literary scholars as well as newer voices.

Masculinities and the Law Frank Rudy Cooper, Ann C. McGinley, 2012-08-27 According to masculinities theory, masculinity is not a biological imperative but a social construction. Men engage in a constant struggle with other men to prove their masculinity. *Masculinities and the Law* develops a multidimensional approach. It sees categories of identity including various forms of raced, classed, and sex-oriented masculinities as operating simultaneously and creating different effects in different contexts. By applying multidimensional masculinities theory to law, this cutting-edge collection both expands the field of masculinities and develops new thinking about important issues in feminist and critical race theories. The topics covered include how norms of masculinity influence the behavior of policemen, firefighters, and international soldiers on television and in the real world; employment discrimination against masculine cocktail waitresses and all transgendered employees; the legal treatment of fathers in the U.S. and the ways unauthorized migrant fathers use the dangers of border crossing to boost their masculine esteem; how Title IX fails to curtail the masculinity of sport; the racist assumptions behind the prison rape debate; the surprising roots of homophobia in Jamaican dancehall music; and the contradictions of the legal debate over women veiling in Turkey. Ultimately, the book argues that multidimensional masculinities theory can change how law is interpreted and applied.

Womanist Forefathers Gary L. Lemons, 2009-09-10 Traces a lineage of pro feminist black men to two early radical proponents of female equality

The Man Question Nancy E. Dowd, 2010-09-20 Among the many important tools feminist legal theorists have given scholars is that of anti essentialism all women are not created equal and privilege varies greatly by circumstances particularly that of race and class Yet at the same time feminist legal theory tends to view men through an essentialist lens in which men are created equal The study of masculinities inspired by feminist theory to explore the construction of manhood and masculinity questions the real circumstances of men not in order to deny men's privilege but to explore in particular how privilege is constructed and what price is paid for it In this groundbreaking work feminist legal theorist Nancy E Dowd exhorts readers to apply the anti essentialist model so dominant in feminist jurisprudence to the study of masculinities She demonstrates how men's treatment by the law and society in general varies by race economic position sexuality and other factors She applies these insights to both boys and men examining how masculinities analysis exposes both privilege and subordination She examines men's experience of fatherhood and sexual abuse and boys experience in the contexts of education and juvenile justice Ultimately Dowd calls for a more inclusive feminist theory which by acknowledging the study of masculinities can broaden our understanding of privilege and subordination

Black Masculinity and Hip-Hop Music Xinling Li, 2018-12-06 This book offers an interdisciplinary study of hip hop music written and performed by rappers who happen to be out black gay men It examines the storytelling mechanisms of gay themed lyrics and how these form protests and become enabling tools for black gay men to discuss issues such as living on the down low and HIV AIDS It considers how the biased promotion of feminised gay male artists characters in mainstream entertainment industry has rendered masculinity an exclusively male heterosexual property providing a representational framework for men to identify with a form of homosexual masculinity one that is constructed without having to either victimise anything feminine or necessarily convert to femininity The book makes a strong case that it is possible for individuals like gay rappers to perform masculinity against masculinity and open up a new way of striving for gender equality

Straights James Joseph Dean, 2014-08 Based on 60 in depth interviews with a diverse group of straight men and women

Straights explores how straight Americans make sense of their sexual and gendered selves in this new landscape particularly with an understanding of how race does and does not play a role in these conceptions Dean provides a historical understanding of heterosexuality and how it was first established then moves on to examine the changing nature of masculinity and femininity and most importantly the emergence of a new kind of heterosexuality notably for men the metrosexual and for women the emergence of a more fluid sexuality The book also documents the way heterosexuals interact and form relationships with their LGBTQ family members friends acquaintances and coworkers Although homophobia persists among straight individuals Dean shows that being gay friendly or against homophobic expressions is also increasingly common among straight Americans

Racism Albert J. Wheeler, 2005 Of all mankind's vices racism is one of the most pervasive and stubborn Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul This bibliography brings together the literature

When We Imagine Grace Simone C. Drake, 2016-08-08 Simone C Drake spent the first several decades of her life learning how to love and protect herself a black woman from the systems designed to facilitate her harm and marginalization But when she gave birth to the first of her three sons she quickly learned that black boys would need protection from these very same systems systems dead set on the static homogenous representations of black masculinity perpetuated in the media and our cultural discourse In *When We Imagine Grace* Drake borrows from Toni Morrison's *Beloved* to bring imagination to the center of black masculinity studies allowing individual black men to exempt themselves and their fates from a hateful ignorant society and open themselves up as active agents at the center of their own stories Against a backdrop of crisis Drake brings forth the narratives of black men who have imagined grace for themselves We meet African American cowboy Nat Love and Drake's own grandfather who served in the first black military unit to fight in World War II Synthesizing black feminist and black masculinity studies Drake analyzes black fathers and daughters the valorization of black criminals the black entrepreneurial pursuits of Marcus Garvey Berry Gordy and Jay Z and the denigration and celebration of gay black men Cornelius Eady Antoine Dodson and Kehinde Wiley With a powerful command of its subjects and a passionate dedication to hope *When We Imagine Grace* gives us a new way of seeing and knowing black masculinity sophisticated in concept and bracingly vivid in telling
