Black Power In Chicago Harold Washington And The Crisis Of The Black Middle:

Harold Washington and the Crisis of Black Power in Chicago Gerald A. McWorter, Abdul Alkalimat, 1989 Looks at the election of mayor Harold Washington and race relations in Chicago

The Harvard Guide to African-American History Evelyn Brooks Higginbotham, 2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America

The Politics of Black Empowerment James Jennings, 2000-01-08 The Politics of Black Empowerment uses the experiences of grassroots activists to develop various conceptualizations and explanations of Black political behavior today In analyzing Black politics since the late 1960s James Jennings focuses on both the behavioral aspects such as individual and group characteristics of voting and nonvoting and elections as well as more fundamental philosophical and cultural questions regarding Black politics This study examines how the traditional face of Black politics and electoral activism interacts with a growing progressive face of Black politics While traditional Black political activists seek access or political incorporation another group aims for power sharing The traditional approach is sometimes satisfied with merely replacing white politicians with Blacks but the progressive constituency focuses on fundamentally changing the whole economic and political pie Activists desirous of Black empowerment are pursuing a political and economic orientation that goes beyond programs based on access to American institutional arrangements and attempting to change or alter given political arrangements and social relations between Blacks and whites on the basis of changing the social structure and the distribution of wealth and power Based on interviews with Black and Latino activists in several big cities as well as on a review of the literature and the Black newspapers around the country The Politics of Black Empowerment describes the characteristics of Black empowerment activism in America

African-American Mayors David R. Colburn, Jeffrey S. Adler, 2001 On November 7 1967 the voters of Cleveland Ohio and Gary Indiana elected the nation's first African American mayors to govern their cities Ten years later more than two hundred black mayors held office and by 1993 sixty seven major urban centers most with majority white populations were headed by African Americans Once in office African American mayors faced vexing challenges In large and small cities from the Sunbelt to the Rustbelt black mayors assumed office during economic downturns and confronted the intractable problems of decaying inner cities white flight a dwindling tax base violent crime and diminishing federal support for social programs Many encountered hostility from their own parties city councils and police departments others worked against long established power structures dominated by local business owners or politicians Still others while trying to respond to multiple demands from a diverse constituency were viewed as traitors by blacks expecting special attention from a leader of their own race All struggled with the contradictory mandate of meeting the increasing needs of poor inner city residents while keeping white businesses from fleeing to the suburbs This is the first comprehensive treatment of the complex phenomenon of African American mayors in the nation's major urban

centers Offering a diverse portrait of leadership conflict and almost insurmountable obstacles this volume assesses the political alliances that brought black mayors to office as well as their accomplishments notably increased minority hiring and funding for minority businesses and the challenges that marked their careers Mayors profiled include Carl B Stokes Cleveland Richard G Hatcher Gary Dutch Morial New Orleans Harold Washington Chicago Tom Bradley Los Angeles Marion Barry Washington D C David Dinkins New York City Coleman Young Detroit and a succession of black mayors in Atlanta Maynard Jackson Andrew Young and Bill Campbell Probing the elusive economic dimension of black power African American Mayors demonstrates how the same circumstances that set the stage for the victories of black mayors exaggerated the obstacles they faced *Black Power Versus Racism* Gerald A. McWorter, 1983 From Edward Brooke to Barack Obama Dennis S. Nordin, 2012-06-25 In 2008 American history was forever changed with the election of Barack Obama the United States first African American president However Obama was far from the first African American to run for a public office or to face the complexities of race in a political campaign For over a century offices ranging from city mayor to state senator have been filled by African Americans making race a factor in many elections In *From Edward Brooke to Barack Obama* Dennis S Nordin navigates the history of biracial elections by examining the experiences of a variety of African American politicians from across the country revealing how voters both black and white respond to the issue of race in an election The idea to compare the African American political experience across several levels of office first occurred to Nordin as he was researching Arthur W Mitchell s 1934 congressional campaign The question of white voter support was of particular significance as was whether the continuation of that support depended upon his avoiding minority issues in office To begin answering these questions and others Nordin compares the experiences of eleven African American politicians Taken from across the country to ensure a wide sample and accurate depiction of the subject the case studies examined include Tom Bradley mayor of Los Angeles David Dinkins mayor of New York Freeman Bosley Jr mayor of St Louis Senator Edward Brooke of Massachusetts Senator Carol Moseley Braun of Illinois Governor L Douglas Wilder of Virginia and Representative J C Watts Jr of Oklahoma among others As Nordin analyzes these individuals and their contribution to the whole he concludes that biracial elections in the United States have yet to progress beyond race *From Edward Brooke to Barack Obama* investigates the implications of race in politics a highly relevant topic in today s American society It offers readers a chronological overview of the progress made over the last several decades as well as shows where there is room for growth in the political arena By taking a pertinent topic for the era and placing it in the context of history Nordin successfully chronicles the roles of race and race relations in American politics **The Crisis**, 1986-05 The Crisis founded by W E B Du Bois as the official publication of the NAACP is a journal of civil rights history politics and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color For nearly 100 years The Crisis has been the magazine of opinion and thought leaders decision makers peacemakers and justice seekers It

has chronicled informed educated entertained and in many instances set the economic political and social agenda for our nation and its multi ethnic citizens *Off the Books* Sudhir Alladi Venkatesh,2009-02-01 Venkatesh takes us into Maquis Park a poor black neighborhood on Chicago s Southside to explore the desperate and remarkable ways in which a community survives The result is a dramatic narrative of individuals at work a rich portrait of a community and a devastating critique of the entrenched poverty that we so often ignore in America *The Black Professional Middle Class* Eric S. Brown,2013-11-07 Through an in depth case study of the black professional middle class in Oakland this book provides an analysis of the experiences of black professionals in the workplace community and local politics Brown shows how overlapping dynamics of class formation and racial formation have produced historically powerful processes of what he terms racialized class formation resulting in a distinct and internally differentiated entity not merely a subset of a larger professional middle class

Index to Black Periodicals, 1988 G K HALL,G. K. Hall and Co. Staff,1989-12 **Biblical Strategies for a Community in Crisis** Colleen Birchett,1995-04 Through inspirational messages and warnings 11 leading Christian thinkers share with readers the major challenges facing the African American community and its church Readers are given biblical strategies for facing these challenges 12 lessons Leader s Guide also available **Activists in City Hall** Pierre Clavel,2013-02-15 In 1983 Boston and Chicago elected progressive mayors with deep roots among community activists Taking office as the Reagan administration was withdrawing federal aid from local governments Boston s Raymond Flynn and Chicago s Harold Washington implemented major policies that would outlast them More than reforming governments they changed the substance of what the government was trying to do above all to effect a measure of redistribution of resources to the cities poor and working classes and away from hollow goals of growth as measured by the accumulation of skyscrapers In Boston Flynn moderated an office development boom while securing millions of dollars for affordable housing In Chicago Washington implemented concrete measures to save manufacturing jobs against the tide of national policy and trends

Activists in City Hall examines how both mayors achieved their objectives by incorporating neighborhood activists as a new organizational force in devising debating implementing and shaping policy Based in extensive archival research enriched by details and insights gleaned from hours of interviews with key figures in each administration and each city s activist community Pierre Clavel argues that key to the success of each mayor were numerous factors productive contacts between city hall and neighborhood activists strong social bases for their agendas administrative innovations and alternative visions of the city Comparing the experiences of Boston and Chicago with those of other contemporary progressive cities Hartford Berkeley Madison Santa Cruz Santa Monica Burlington and San Francisco *Activists in City Hall* provides a new account of progressive urban politics during the Reagan era and offers many valuable lessons for policymakers city planners and progressive political activists **Racism in the United States** Meyer Weinberg,1990-05-21 This volume represents the most comprehensive book length bibliography on the subject of racism available in the United States Compiler Meyer

Weinberg has surveyed a wide ranging group of material and classified it under 87 subject headings drawing on articles books congressional hearings and reports theses and dissertations research reports and investigative journalism Historical references cover the long history of racism while the heightened awareness and activity of the recent past is also addressed in detail In addition to works that fit the narrow definition of racism as a mode of oppression or group denial of rights based on color Weinberg includes references dealing with sexism antisemitism economic exploitation and similar forms of dehumanization References are grouped under a series of subject headings that include Civil Rights Desegregation Housing Socialism and Racism Unemployment and Violence against Minorities Items which do not have self explanatory titles are annotated and virtually every section is thoroughly cross referenced Also included is one section of carefully selected references on racism in countries other than the United States Unlike the remainder of the book this section is not comprehensive but rather provides an opportunity to view racism comparatively The volume concludes with an author index This work will be a significant addition to both academic and public libraries as well as an important resource for courses in racism sociology and black history

Critical Perspectives on Black Education Noelle Witherspoon-Arnold, Melanie C. Brooks, Bruce Makoto Arnold, 2014-06-01 While nation engages in debates concerning central issues of religion and religious diversity in education the historic saliency of religion and spirituality in the Black community and in the education of its children continues to be largely ignored Historically religion and spirituality were foundational to the development and understanding of social justice issues including but not limited to issues of protest community up lift notions of care and anti oppression Taking into account the historical significance of religion and spirituality in the Black community it is essential for education scholars to cultivate these long standing connections as a means for advancing contemporary struggles for social justice religiosity in education and counter hegemonic praxis The purpose of this book is to expand our understanding of spirituality and religion as related to the p 20 schooling of Blacks students Educational scholarship continues to explore the workings of social justice to ameliorate inequities for those who have not been well served in schools Although the concept of social justice remains a somewhat inchoate term in educational literature this book seeks to explore the historicity of religion and spirituality while

offering a scaffold that links ordinary everyday acts of justice religion and spirituality in education to a culture that systematically and institutionally assaults the worth of Black students It is important to note that this book is grounded in a broad concept of religion and spirituality and the editors seek to be inclusive of all types styles and traditions of religiosity and spirituality

Block by Block Amanda I. Seligman, 2005-05-10 In the decades following World War II cities across the United States saw an influx of African American families into otherwise homogeneously white areas This racial transformation of urban neighborhoods led many whites to migrate to the suburbs producing the phenomenon commonly known as white flight In *Block by Block* Amanda I Seligman draws on the surprisingly understudied West Side communities of Chicago to shed new light on this story of postwar urban America Seligman's study reveals that the responses of white West Siders to racial changes occurring in their neighborhoods were both multifaceted and extensive She shows that despite rehabilitation efforts deterioration in these areas began long before the color of their inhabitants changed from white to black And ultimately the riots that erupted on Chicago's West Side and across the country in the mid 1960s stemmed not only from the tribulations specific to blacks in urban centers but also from the legacy of accumulated neglect after decades of white occupancy Seligman's careful and evenhanded account will be essential to understanding that the flight of whites to the suburbs was the eventual result of a series of responses to transformations in Chicago's physical and social landscape occurring one block at a time
