Rottman, 2011-12-20 The M16 was first introduced in 1958 and was revolutionary for its time as it was made of lightweight materials including special aluminum and plastics It was first adopted by US Special Forces and airborne troops in 1962 before it was issued to Army and Marine units serving in Vietnam Its use spread throughout the following decades and a number of variants including submachine and carbine versions were also fielded As a result it is now amongst the three most used combat cartridges in the world while over 10 million M16s and variants have been produced making it one of the most successful American handheld weapons in history But despite its undeniable success the M16 is not without its detractors Indeed the black rifle as it is known is one of the most controversial rifles ever introduced with a long history of design

**American Shooter** Gerry Souter,2012-02-01 Gun ownership has long been a hot button topic in the United States and the National Rifle Association has the reputation of being an organization of primarily politically conservative members American Shooter provides a unique look at gun ownership handgun bans shooting sports and the controversy over how to interpret the Second Amendment from the point of view of a liberal gun owner and enthusiast Gerry Souter examines the history of firearms in the United States from the settlers who carried matchlock muskets ashore at Jamestown to the citizens who purchase guns in record numbers today Recent Supreme Court decisions that uphold the right to bear arms have galvanized citizens on both sides of the debate making the gun issue hotter than ever To provide a personal view Souter weaves in tales of his own experiences with guns including sport shooting as a young man hunting and bonding with his father and facing the smoking end of a muzzle as an international photojournalist

American Shooter is both a history and a personal journey that traces the path of American gun ownership culture from the Revolution to today. It recounts how the country has lived with guns from the flintlock hung over the fireplace to the concealed carry laser sighted Glock semiautomatic pistol tucked away in the hidden pocket of a mom's purse.
