Black Sects And Cults:

Black Sects and Cults Joseph R. Washington, 1973 *Black Sects and Cults* Joseph F. Washington, 1972 **Peoples Temple and Black Religion in America** Rebecca Moore, Anthony B. Pinn, Mary R. Sawyer, 2004-03-11 The Peoples Temple movement ended on November 18 1978 when more than 900 men women and children died in a ritual of murder and suicide in their utopianist community of Jonestown Guyana Only a handful lived to tell their story As is well known Jim Jones the leader of Peoples Temple was white but most of his followers were black Despite that little has been written about Peoples Temple in the context of black religion in America In 10 essays writers from various disciplines address this gap in the scholarship Twenty five years after the tragedy at Jonestown they assess the impact of the black religious experience on Peoples Temple *Ebony*, 1973-01 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine **The New Black Gods** Edward E. Curtis IV, Danielle Brune Sigler, 2009-04-23 Taking the influential work of Arthur Huff Fauset as a starting point to break down the false dichotomy that exists between mainstream and marginal a new generation of scholars offers fresh ideas for understanding the religious expressions of African Americans in the United States Fauset s 1944 classic *Black Gods of the Metropolis* launched original methods and theories for thinking about African American religions as modern cosmopolitan and democratic The essays in this collection show the diversity of African American religion in the wake of the Great Migration and consider the full field of African American religion from Pentecostalism to Black Judaism Black Islam and Father Divine s Peace Mission Movement As a whole they create a dynamic humanistic and thoroughly interdisciplinary understanding of African American religious history and life This book is essential reading for anyone who studies the African American experience **African American Religious Thought** Cornel West, Eddie S. Glaude, 2003-01-01 Believing that African American religious studies has reached a crossroads Cornel West and Eddie Glaude seek in this landmark anthology to steer the discipline into the future Arguing that the complexity of beliefs choices and actions of African Americans need not be reduced to expressions of black religion West and Glaude call for more careful reflection on the complex relationships of African American religious studies to conceptions of class gender sexual orientation race empire and other values that continue to challenge our democratic ideals **Black Religion in the Madhouse** Judith Weisenfeld, 2025-04-29 How white psychiatrists pathologized African American religions In the decades after the end of slavery African Americans were committed to southern state mental hospitals at higher rates as white psychiatrists listed religious excitement among the most frequent causes of insanity for Black patients At the same time American popular culture and political discourse framed African American modes of spiritual power as fetishism and superstition cast embodied worship as excessive or fanatical and labeled new religious movements cults unworthy of respect As Judith Weisenfeld argues in *Black Religion in the Madhouse* psychiatrists notions of race and religion became inextricably intertwined in the decades after the end of slavery and into the

twentieth century and had profound impacts on the diagnosis care and treatment of Black patients This book charts how racialized medical understandings of mental normalcy pathologized a range of Black religious beliefs spiritual sensibilities practices and social organizations and framed them as manifestations of innate racial traits Importantly these characterizations were marshaled to help to limit the possibilities for Black self determination with white psychiatrists theories about African American religion and mental health being used to promote claims of Black people s unfitness for freedom Drawing on extensive archival research *Black Religion in the Madhouse* is the first book to expose how racist views of Black religion in slavery s wake shaped the rise of psychiatry as an established and powerful profession [Watch This!](#)

Jonathan L. Walton,2009-02 Through their constant television broadcasts mass video distributions and printed publications African American religious broadcasters have a seemingly ubiquitous presence in popular culture They are on par with popular entertainers and athletes in the African American community as cultural icons even as they are criticized by others for taking advantage of the devout in order to subsidize their lavish lifestyles *Watch This* seeks to move beyond such polarizing debates by critically delving into the dominant messages and aesthetic styles of African American televangelists and evaluating their ethical implications from publisher description *African American Communication & Identities* Ronald L. Jackson,2004 Boldly contending that culture can and should be a central organizing principle in studies pertaining to human interaction *African American Communication and Identities Essential Readings* is the first anthology to examine a wide range of communication studies specific to African American communicative experiences including linguistic rhetorical and relational styles In this compelling anthology editor Ronald L Jackson II explores constitutive aspects of African American communication behaviors as they relate to how African Americans define themselves culturally Readers benefit from a plethora of research on African Americans related to almost every area of communication inquiry including theory and identity language performance and rhetoric interpersonal relationships gendered contexts organizational and instructional contexts and mass mediated contexts Creating a space for African American centered research and broadening the scope of the Communication discipline this volume includes Must read classic and contemporary studies of African American communication illuminating the history and development of research and writing in this often overlooked area Explorations of several conceptual innovations that add to the body of communication literature such as Afrocentricity Complicity Theory Cultural Contracts Theory and Black Masculine Identity Theory Section opening introductions situate readings for students and end of chapter discussion questions provoke discussion and critical thought Insightful analyses of the relational dimensions of African Americans and provocative conceptions of African American gendered identities Endowing the field with an intellectual legacy of issues challenges needs and paradigms *African American Communication and Identities* is ideal for undergraduate and graduate students in Communication Studies and African American Studies courses This volume is also an excellent reader for advanced courses in intercultural communication cross cultural communication race relations

and interethnic communication To Know the Soul of a People Jamil W. Drake, 2022 To Know the Soul of a People is a history of religion and race in the agricultural South before the Civil Rights era Jamil W Drake chronicles a cadre of social scientists who studied the living conditions of black rural communities revealing the abject poverty of the Jim Crow south These university affiliated social scientists documented shotgun houses unsanitary privies and contaminated water scaly hands enlarged stomachs and malnourished bodies However they also turned their attention to the spiritual possessions chanted sermons ecstatic singing conjuration dreams and visions fortune telling taboos and other religious cultures of these communities These scholars aimed to illuminate the impoverished conditions of their subjects for philanthropic and governmental organizations as well as the broader American public in the first half of the 20th century especially during the Great Depression Religion was integral to their efforts to chart the long economic depression across the South From 1924 to 1941 Charles Johnson Guy Johnson Allison Davis Lewis Jones and other social scientists framed the religious and cultural practices of the black communities as folk practices aiming to reform them and the broader South Drawing on their correspondence fieldnotes and monographs Drake shows that social scientists use of folk reveals the religion was an important site for highlighting the supposed mental moral and cultural deficits of America s so called folk population Moreover these social scientists did not just pioneer rural social science and reform but used their study of religion to plant the seeds of the concept that would become known as the culture of poverty in the latter half of the twentieth century To Know the Soul of a People is an exciting intellectual history that invites us to explore the knowledge that animated the earnest yet shortsighted liberal efforts to reform black and impoverished communities **Catalog of Copyright Entries.**

Third Series Library of Congress. Copyright Office, 1974 **Contemporary American Theologies** Deane W. Ferm, 2004-04-15 An up to date book that surveys almost all of the contemporary schools of Christian thought in America well structured and methodically developed clearly written and easy to read Ferm does an excellent job of pointing out all the differences among the leading thinkers of each camp Ferm s greatest asset is his uncanny ability to synthesize these diverse theologies into a larger conceptual whole without diminishing their distinctiveness A landmark of clarity Richard Quebedeaux in The Christian Century Contemporary American Theologies assesses the most significant writers and books that make up evangelical black Roman Catholic feminist and liberation theologies Equally useful as an introduction or as a review Marianne Sawicki in Commonweal Hope on the Brink Lewis Brogdon, 2013-05-29 African Americans have always wrestled with hopelessness Yet in the face of hopelessness African Americans fought for hope that America can be a land of equality opportunity and justice The fight for hope has been difficult and has taken a toll on African Americans Today the signs of hopelessness abound in black communities across the nation as an increasing number of leaders express concern about a pervasive problem that they could not identify Beyond the continuing injustices and inequities linked to systemic racism they recognize a growing internal apathy in African Americans This internal apathy is nihilism the embrace of

nothingness meaninglessness and internalized oppression Nihilism has been slowly emerging since the 1980s and is the reason there is an increasing number of blacks who turn to defeating and destructive behaviors that only worsen their plight In nihilism s wake leaders and communities are left trying to help people who have turned on themselves and abandoned hope that things can get better The first step toward hope requires an understanding of hopelessness Only then can we step into a world that pushes people to the brink and hope to make a difference Hope on the Brink offers an exploration into this hopelessness

Women Preachers and Prophets through Two Millennia of Christianity Beverly Mayne

Kienzle,Pamela J. Walker,2023-09-01 For nearly two millennia despite repeated prohibitions Christian women have preached Some have preached in official settings others have found alternative routes for expression Prophecy teaching writing and song have all filled a broad definition of preaching This anthology with essays by an international group of scholars from several disciplines investigates the diverse voices of Christian women who claimed the authority to preach and prophesy The contributors examine the centuries of arguments grounded in Pauline injunctions against women s public speech and the different ways women from the early years of the church through the twentieth century have nonetheless exercised religious leadership in their communities Some of them based their authority solely on divine inspiration others were authorized by independent minded communities a few were even recognized by the church hierarchy With its lively accounts of women preachers and prophets in the Christian tradition this exceptionally well documented collection will interest scholars and general readers alike For nearly two millennia despite repeated prohibitions Christian women have preached Some have preached in official settings others have found alternative routes for expression Prophecy teaching writing and song have all filled a broad definition

The Life and Times of Elijah Muhammad Claude Andrew Clegg,2014 Life and Times of Elijah

Muhammad *Gender and Religion* William H. Swatos. Jr,2021-09-28 Few areas in American life have experienced as profound a change in structure and mission as religion in this epoch of women s struggle for complete equality and integration Until recently few studies have attempted the sort of empirical and theoretical integration that reveals the magnitude of this shift in basic roles attitudes and participation in church life The author has assembled a well designed and carefully defined volume to give the reader a solid empirical look at this revolution in religious practice and belief It also provides an insight into the sharp differences in opinions among women involved in religion the degree to which women change the structure if liturgy or simply partake of traditions from which they were formally excluded the extend to which women increase church involvement in social issues or retain a classical orientation to preaching the extent to which gender has an impact on everything from interpersonal relations of clergy with laity to preaching orientations

Contemporary

African Americanpreaching P3040 , L Susan Bond reveals the full range and diversity of African American preaching in this exploration of African American homiletical theories Portraying the many approaches that are empowering preaching in African American churches today Bond shows how different theological perspectives produce different methods of sermon

preparation and delivery different strategies for selecting illustrative material and even different ways of beginning and ending sermons Her goal is not to lift up the right way to preach in the African American tradition but to show the richness and nuance contained within this powerful cultural expression **Black Religion and Public Policy** Joseph R. Washington,1978 Ethnic Leadership in a New England Community Alex Huxley Westfried, Mystics and Messiahs Philip Jenkins,2000-04-06 In Mystics and Messiahs the first full account of cults and anti cult scares in American history Philip Jenkins shows that contrary to popular belief cults were by no means an invention of the 1960s In fact most of the frightening images and stereotypes surrounding fringe religious movements are traceable to the mid nineteenth century when Mormons Freemasons and even Catholics were denounced for supposed ritualistic violence fraud and sexual depravity But America has also been the home of an often hysterical anti cult backlash Jenkins offers an insightful new analysis of why cults arouse such fear and hatred both in the secular world and in mainstream churches many of which were themselves originally regarded as cults He argues that an accurate historical perspective is urgently needed if we are to avoid the kind of catastrophic confrontation that occurred in Waco or the ruinous prosecution of imagined Satanic cults that swept the country in the 1980s Without ignoring genuine instances of aberrant behavior Mystics and Messiahs goes beyond the vast edifice of myth distortion and hype to reveal the true characteristics of religious fringe movements and why they inspire such fierce antagonism

Embark on a breathtaking journey through nature and adventure with Explore with is mesmerizing ebook, Natureis Adventure: **Black Sects And Cults** . This immersive experience, available for download in a PDF format (*), transports you to the heart of natural marvels and thrilling escapades. Download now and let the adventure begin!
