Black Soul:

Black Soul, White Artifact Jock McCulloch, 2002-05-16 These papers examine the intellectual legacy of the political psychologist Frantz Fanon Race, Culture, and Identity Shireen K. Lewis, 2006-01-01 In this groundbreaking book Shireen Lewis gives a comprehensive analysis of the literary and theoretical discourse on race culture and identity by Francophone and Caribbean writers beginning in the early part of the twentieth century and continuing into the dawn of the new millennium Examining the works of Patrick Chamoiseau Rapha l Confiant Aim C saire L opold Senghor L on Damas and Paulette Nardal Lewis traces a move away from the preoccupation with African origins and racial and cultural purity toward concerns of hybridity and fragmentation in the New World or Diasporic space In addition to exploring how this shift parallels the larger debate around modernism and postmodernism Lewis makes a significant contribution by arguing for the inclusion of Martinican intellectual Paulette Nardal and other women into the canon as significant contributors to the birth of modern black Francophone literature **Soul Survivors** Carlyle Fielding Stewart, 1997-01-01 This perceptive study of African American spirituality sees the experience of the African American church as an example for all other peoples in their struggles for liberation from the world s shackles **The Black Culture Industry** Ellis Cashmore, 2006-06-07 Cashmore s controversial study argues that black culture has been converted into a commodity usually in the interests of white owned corporations Using detailed studies of the marketing of Motown Michael Jackson and the Artist Formerly Known as Prince Cashmore suggests that inflating the significance of this commodified black culture may actually be counter productive in the struggle for racial justice *Orpheus and Power* Michael G. Hanchard, 1998-10-19 From recent data on disparities between Brazilian whites and non whites in areas of health education and welfare it is clear that vast racial inequalities do exist in Brazil contrary to earlier assertions in race relations scholarship that the country is a racial democracy Here Michael George Hanchard explores the implications of this increasingly evident racial inequality highlighting Afro Brazilian attempts at mobilizing for civil rights and the powerful efforts of white elites to neutralize such attempts Within a neo Gramscian framework Hanchard shows how racial hegemony in Brazil has hampered ethnic and racial identification among non whites by simultaneously promoting racial discrimination and false premises of racial equality Drawing from personal archives of and interviews with participants in the Movimento Negro of Rio de Janeiro and Sao Paulo Hanchard presents a wealth of empirical evidence about Afro Brazilian militants comparing their effectiveness with their counterparts in sub Saharan Africa the United States and the Caribbean in the post World War II period He analyzes in comprehensive detail the extreme difficulties experienced by Afro Brazilian activists in identifying and redressing racially specific patterns of violation and discrimination Hanchard argues that the Afro American struggle to subvert dominant cultural forms and practices carries the danger of being subsumed by the contradictions that these dominant forms produce *Brutality Garden* Christopher Dunn, 2014-01-01 In the late 1960s Brazilian artists forged a watershed cultural movement known as Tropicalia Music

inspired by that movement is today enjoying considerable attention at home and abroad Few new listeners however make the connection between this music and the circumstances surrounding its creation the most violent and repressive days of the military regime that governed Brazil from 1964 to 1985 With key manifestations in theater cinema visual arts literature and especially popular music Tropicalia dynamically articulated the conflicts and aspirations of a generation of young urban Brazilians Focusing on a group of musicians from Bahia an impoverished state in northeastern Brazil noted for its vibrant Afro Brazilian culture Christopher Dunn reveals how artists including Caetano Veloso Gilberto Gil Gal Costa and Tom Ze created this movement together with the musical and poetic vanguards of Sao Paulo Brazil s most modern and industrialized city He shows how the tropicalists selectively appropriated and parodied cultural practices from Brazil and abroad in order to expose the fissure between their nation s idealized image as a peaceful tropical garden and the daily brutality visited upon its citizens

Empire of Language Laurent Dubreuil,2013-05-15 The relationship between power and language has been a central theme in critical theory for decades now yet there is still much to be learned about the sheer force of language in the world in which we live In *Empire of Language* Laurent Dubreuil explores the power language phenomenon in the context of European and particularly French colonialism and its aftermath Through readings of the colonial experience he isolates a phraseology based on possession in terms of both appropriation and haunting that has persisted throughout the centuries Not only is this phraseology a legacy of the past it is still active today especially in literary renderings of the colonial experience but also and more paradoxically in anticolonial discourse This phrase shaped the teaching of European languages in the former empires and it tried to configure the usage of those

idioms by the Indigenes Then scholarly disciplines have to completely reconsider their discursive strategies about the colonial if at least they attempt to speak up Dubreuil ranges widely in terms of time and space from the ancien r gime through the twentieth century from Paris to Haiti to Quebec from the Renaissance to the riots in the banlieues He examines diverse texts from political speeches legal documents and colonial treatises to anthropological essays poems of the N gritude and contemporary rap ever attuned to the linguistic strategies that undergird colonial power Equally conversant in both postcolonial criticism and poststructuralist scholarship on language but also deeply grounded in the sociohistorical context of the colonies Dubreuil sets forth the conditions for an authentically postcolonial scholarship one that acknowledges the difficulty of getting beyond a colonialism and still maintains the need for an afterward
