Black Teachers In Urban Schools:

Black Teachers in Urban Schools Catherine B. Silver, 1973 **Black teachers in urban schools** Silver, **Black Men Teaching in Urban Schools** Edward Brockenbrough, 2018-05-20 This volume follows eleven Black male teachers from an urban predominantly Black school district to reveal a complex set of identity politics and power dynamics that complicate these teachers' relationships with students and fellow educators. It provides new and important insights into what it means to be a Black male teacher and suggests strategies for school districts' teacher preparation programs, researchers, and other stakeholders to rethink why and how we recruit and train Black male teachers for urban K-12 classrooms. *Preservice Teachers, Social Class, and Race in Urban Schools* Andrea D. Lewis, 2016-11-08 This book provides an autobiographical and research-based exploration of the perceptions of Black middle and upper class preservice teachers about teaching and learning in high poverty urban schools. While there is an extensive body of knowledge on White preservice teachers, limited studies examine Black middle and upper class preservice teachers who may also lack experience with students in high poverty urban schools. Through this narrative, the author explores her own professional journey and a research study of former students who experienced the same boundary crossing. Their voices add to the body of current knowledge of how race and class affect the perceptions of preservice teachers. **Black Female Teachers** Abiola Farinde-Wu, Ayana Allen-Handy, 2017-07-26 This important, timely, and provocative book explores the recruitment and retention of Black female teachers in the United States. There are over 3 million public school teachers in the US; African American teachers only comprise approximately 8 percent of the workforce. Contributions consider the implicit nuances that these teachers experience. *Second International Handbook of Urban Education* William T. Pink, George W. Noblit, 2017-01-06 This second handbook offers all new content in which readers will find a thoughtful and measured interrogation of significant contemporary thinking and practice in urban education. Each chapter reflects contemporary cutting edge issues in urban education as defined by their local context. One important theme that runs throughout this handbook is how urban is defined and under what conditions the marginalized are served by the schools they attend. Schooling continues to hold a special place both as a means to achieve social mobility and as a mechanism for supporting the economy of nations. This second handbook focuses on factors such as social stratification, segmentation, segregation, racialization, urbanization, class formation, and maintenance, and patriarchy. The central concern is to explore how equity plays out for those traditionally marginalized in urban schools in different locations around the globe. Researchers will find an analysis framework that will make the current practice and outcomes of urban education and their alternatives more transparent, and in turn, this will lead to solutions that can help improve the life options for students historically underserved by urban schools. Teacher Education and Black Communities Chance W. Lewis, Yolanda Sealey-Ruiz, Ivory Toldson, 2014-05-01 The field of education has been and will continue to be essential to the survival and sustainability of the Black community. Unfortunately, over the past five decades

two major trends have become clearly evident in the Black community a the decline of the academic achievement levels of Black students and b the disappearance of Black teachers particularly Black males Today of the 3 5 million teachers in America s classrooms AACTE 2010 only 8% are Black teachers and approximately 2% of these teachers are Black males NCES 2010 Over the past few decades the Black teaching force in the U S has dropped significantly Lewis 2006 Lewis Bonner Byrd Milner Howard 2004 and this educational crisis shows no signs of ending in the near future As the population of Black students in K 12 schools in the U S continue to rise currently over 16% of students in America s schools are Black NCES 2010 there is an urgent need to increase the presence of Black educators The overall purpose of this edited volume is to stimulate thought and discussion among diverse audiences e g policymakers practitioners and educational researchers who are concerned about the performance of Black students in our nation s schools and to provide evidence based strategies to expand our nation s pool of Black teachers To this end it is our hope that this book will contribute to the teacher education literature and will inform the teacher education policy and practice debate

Black Teachers in Urban Schools Catherine Bodard Silver,1973 *African American Males in School and Society* Vernon C. Polite,James Earl Davis,1999-10 In this groundbreaking and timely volume Vernon Polite and James Davis have brought together the perspectives and research findings of eminent scholars who study the educational and social lives of African American males The result is a volume that brims with new outlooks and viewpoints a refreshing departure from pervasive and oftentimes stereotypical literature about the African American male experience and gives the reader access to prevalent issues affecting this population today Thoughtful attention is paid to broader outcomes such as educational attainment job procurement and quality of life These topics are discussed against the backdrop of student background and schooling with an overall aim to improve the academic and social outcomes of this population Chapters range from explorations into identifying giftedness and responsive teaching styles to educating African American males in the suburbs The contributors to this volume offer differing methodologies and foci to document how the social and educational worlds of African American males cross and the editors suggest policy implications that derive from these studies This eloquent engaging and accessible volume has much to offer its readers and is especially important to people concerned with the well being of African American boys and men

Self-Studies in Urban Teacher Education Adrian D. Martin,2022-09-12 This book critically explores pedagogical activities policies and coursework that teacher education programs can provide to more fully prepare teacher candidates and in service educators for professional practice in urban schools It illustrates how teacher educators from across the United States are supporting teacher candidates and in service teachers to possess the knowledge skills and dispositions for equity oriented instructional practices and advocacy for professional engagement in the urban context Chapters share insider perspectives of urban teacher education on preparing teachers to teach in culturally linguistically and socio economically diverse classrooms They discuss teacher educators learning about their own practice in the preparation of teachers for city schools preparing teacher

candidates from rural and suburban contexts to teach in urban settings and supervising practicing teachers in city classrooms The volume also focuses on the interplay of cultural and linguistic parity between teacher educators and their preservice in service teacher students implementing learning activities or coursework about teaching in urban schools and enacting critical pedagogical practices This book will be beneficial to teacher educators focused on teacher preparation for city classrooms and urban school districts and researchers seeking to adopt self study methodology in their own research endeavors

Changing Urban Education Clarence Nathan Stone,1998 With critical issues like desegregation and funding facing our schools dissatisfaction with public education has reached a new high Teachers decry inadequate resources while critics claim educators are more concerned with job security than effective teaching Though urban education has reached crisis proportions contending players have difficulty agreeing on a common program of action This book tells why Changing Urban Education confronts the prevailing naivete in school reform by examining the factors that shape reinforce or undermine reform efforts Edited by one of the nation s leading urban scholars it examines forces for change and resistance in urban education and proposes that the barrier to reform can only be overcome by understanding how schools fit into the broader political contexts of their cities Much of the problem with our schools lies with the reluctance of educators to recognize the profoundly political character of public education The contributors show how urban political contexts vary widely with factors like racial composition the role of the teachers union and relations between cities and surrounding metropolitan areas Presenting case studies of original field research in Baltimore Chicago Houston and six other urban areas they consider how resistance to desegregation and the concentration of the poor in central urban areas affect education and they suggest how cities can build support for reform through the involvement of business and other community players By demonstrating the complex interrelationship between urban education and politics this book shows schools to be not just places for educating children but also major employers and large spenders of tax dollars It also introduces the concept of civic capacity the ability of educators and non educators to work together on common goals and suggests that this key issue must be addressed before education can be improved Changing Urban Education makes it clear to educators that the outcome of reform efforts depends heavily on their political context as it reminds political scientists that education is a major part of the urban mix While its prognosis is not entirely optimistic it sets forth important guidelines that cannot be ignored if our schools are to successfully prepare children for the future

[What Should I Do? Confronting Dilemmas of Teaching in Urban Schools](#) Anna Ershler Richert,2015-04-17 Have you ever been waiting for THE book This is that book Anna Richert has held on to this book for many years because she wanted it to honor the profession and the work of teaching It satisfies on two important levels that of those who study teaching and those who do the teaching At a time when the profession is suffering from a lack of

support and criticism on all fronts Richert elevates it without valorizing it These are real dilemmas that real teachers struggle with everyday We owe Anna Richert a big thank you for What Should I Do Gloria Ladson Billings Kellner Family Chair in Urban Education University of Wisconsin Madison What Should I Do is a practical guide to the everyday dilemmas of the urban classroom It offers a lifeline to both beginning teachers who are struggling to be successful and to the teacher educators who are trying to prepare them for these challenges The author uses narratives of practice written by novice teachers to help readers experience a variety of dilemmas they are likely to encounter in the classroom By engaging with and analyzing the cases readers come to see that the problems of teaching are actually dilemmas that have no clear cut right or wrong solution thus reducing the potential for frustration and despair often felt by teachers This practical resource will empower teachers to transform the unpredictable world of troubled schools into places of learning and hope for both themselves and their students As a former teacher said I wish I had read this book and realized that I wasn't expected to have all the answers I would probably still be teaching Anna Ershler Richert is a professor in the School of Education at Mills College in Oakland California where she is Director of the Master of Arts in Education with an Emphasis on Teaching MEET Program and Faculty Director of the Mills Teacher Scholars

Charter Schools, Race, and Urban Space Kristen L. Buras, 2014-07-17 Charter schools have been promoted as an equitable and innovative solution to the problems plaguing

urban schools Advocates claim that charter schools benefit working class students of color by offering them access to a portfolio of school choices In *Charter Schools Race and Urban Space* Kristen Buras presents a very different account Her case study of New Orleans where veteran teachers were fired en masse and the nation s first all charter school district was developed shows that such reform is less about the needs of racially oppressed communities and more about the production of an urban space economy in which white entrepreneurs capitalize on black children and neighborhoods In this revealing book Buras draws on critical theories of race political economy and space as well as a decade of research on the ground to expose the criminal dispossession of black teachers and students who have contributed to New Orleans culture and history Mapping federal state and local policy networks she shows how the city s landscape has been reshaped by a strategic venture to privatize public education She likewise chronicles grassroots efforts to defend historic schools and neighborhoods against this assault revealing a commitment to equity and place and articulating a vision of change that is sure to inspire heated debate among communities nationwide
