House Full Lakshmi Srinivas, 2016-08-31 Film studies have traditionally focused on texts meanings techniques and appreciation criticism Now we have in House Full an ethnography of movie going and movie goers in India of all places Bangalore where the focus has been shifted away from the movie as product to the study of patterns of social behavior in production marketing and consumption of film India is a place of surprises and that goes for movie theatres and film patronage House Full presents a raucous multi ethnic multi class tableau You would guess the audience is Srinivas s focus and that is accurate because in India they have a role in choosing buying tickets for and sitting through and reacting to movies participating loudly and interactively that differs from what North Americans are used to Srinivas s interviews with audience members across ethnic and class lines distributors movie theater managers and also the actors directors writers and other production crew make for fascinating comparisons to what we in the west are used to The interactional character of her study places it firmly in the tradition of the Chicago School of sociology Lest we forget meanwhile India is the largest producer of feature films worldwide with the largest market in terms of films produced and audiences reached selling 4 billion tickets annually , *Distributed Computing* Rachid Guerraoui, 2004-10-05 This book constitutes the refereed proceedings of the 18th International Conference on Distributed Computing DISC 2004 held in Amsterdam The Netherlands in October 2004 The 31 revised full papers presented together with an extended abstract of an invited lecture and an eulogy for Peter Ruzicka were carefully reviewed and selected from 142 submissions The entire scope of current issues in distributed computing is addressed ranging from foundational and theoretical topics to algorithms and systems issues to applications in various fields **Black Tickets** Jayne Anne Phillips, 2001-09-11 A collection of short stories and vignettes reveals the daily life and loneliness of common people in town and country settings Traveling Black Mia Bay, 2021-03-23 Winner of the Bancroft Prize Winner of the David J Langum Prize Winner of the Lillian Smith Book Award Winner of the Order of the Coif Book Award Winner of the OAH Liberty Legacy Foundation Award A New York Times Critics Top Book of the Year This extraordinary book is a powerful addition to the history of travel segregation Mia Bay shows that Black mobility has always been a struggle Ibram X Kendi author of *How to Be an Antiracist* In Mia Bay s superb history of mobility and resistance the question of literal movement becomes a way to understand the civil rights movement writ large Jennifer Szalai New York Times *Traveling Black* is well worth the fare Indeed it is certain to become the new standard on this important and too often forgotten history Henry Louis Gates Jr author of *Stony the Road From Plessy v Ferguson to Driving While Black* African Americans have fought to move freely around the United States But why this focus on Black mobility From stagecoaches and trains to buses cars and planes *Traveling Black* explores when how and why racial restrictions took shape in America and brilliantly portrays what it was like to live with them Mia Bay rescues forgotten stories of passengers who made it home despite being insulted stranded re routed or ignored She shows that Black travelers never stopped challenging

these humiliations documenting a sustained fight for redress that falls outside the traditional boundaries of the civil rights movement A riveting character rich account of the rise and fall of racial segregation it reveals just how central travel restrictions were to the creation of Jim Crow laws and why free movement has been at the heart of the quest for racial justice ever since

Statistics in the Law Joseph B. Kadane,2008-05-23 Statistics in the Law is primarily a user s manual or desk reference for the expert witness lawyer team and secondarily a textbook or supplemental textbook for upper level undergraduate statistics students It starts with two articles by masters of the trade Paul Meier and Franklin Fisher It then explains the distinction between the Frye and Daughbert standards for expert testimony and how these standards play out in court The bulk of the book addresses individual cases covering a wide variety of questions including Does electronic draw poker require skill to play Did the New Jersey State Police disproportionately stop black motorists Is a jury a representative cross section of the community Were ballots tampered with in an election The book concludes with Part 5 a review of English law that includes a case in which a woman was accused of murdering her infant sons because both died of cot death or sudden death syndrome she was convicted but later exonerated and an examination of how Bayesian analyses can or more precisely cannot be presented in UK courts In each study the statistical analysis is shaped to address the relevant legal questions and draws on whatever methods in statistics might shed light on those questions

Freedom on the Border Catherine Fosl,2009-06-26 Memories fade witnesses pass away and the stories of how social change took place are often lost Many of those stories however have been preserved thanks to the dozens of civil rights

activists across Kentucky who shared their memories in the wide ranging oral history project from which this volume arose Through their collective memories and the efforts of a new generation of historians the stories behind the marches vigils court cases and other struggles to overcome racial discrimination are finally being brought to light In *Freedom on the Border An Oral History of the Civil Rights Movement in Kentucky* Catherine Fosl and Tracy E K Meyer gather the voices of more than one hundred courageous crusaders for civil rights many of whom have never before spoken publicly about their experiences These activists hail from all over Kentucky offering a wide representation of the state s geography and culture while explaining the civil rights movement in their respective communities and in their own words Grounded in oral history this book offers new insights into the diverse experiences and ground level perspectives of the activists This approach often highlights the contradictions between the experiences of individual activists and commonly held beliefs about the larger movement Interspersed among the chapters are in depth profiles of activists such as Kentucky general assemblyman Jesse Crenshaw and Helen Fisher Frye past president of the Danville NAACP These activists describe the many challenges that Kentuckians faced during the civil rights movement such as inequality in public accommodations education housing and politics By placing the narratives in the social context of state regional and national trends Fosl and K Meyer demonstrate how contemporary race relations in Kentucky are marked by many of the same barriers that African Americans faced before and during the civil rights movement From city streets to mountain communities in areas with black populations large and small Kentucky s civil rights movement was much more than a series of mass demonstrations campaigns and elite level policy decisions It was also the sum of countless individual struggles including the mother who sent her child to an all white school the veteran who refused to give up when denied a job and the volunteer election worker who decided to run for office herself In vivid detail *Freedom on the Border* brings this mosaic of experiences to life and presents a new compelling picture of a vital and little understood era in the history of Kentucky and the nation

The Politics of School Reform, 1870 - 1940 Paul E. Peterson, 1985-07 Was school reform in the decades following the Civil War an upper middle class effort to maintain control of the schools Was public education simply a vehicle used by Protestant elites to impose their cultural ideas upon recalcitrant immigrants In *The Politics of School Reform 1870 1940* Paul E Peterson challenges such standard revisionist interpretations of American educational history Urban public schools he argues were part of a politically pluralistic society Their growth both in political power and in sheer numbers had as much to do with the demands and influence of trade unions immigrant groups and the public more generally as it did with the actions of social and economic elites Drawing upon rarely examined archival data Peterson demonstrates that widespread public backing for the common school existed in Atlanta Chicago and San Francisco He finds little evidence of systematic discrimination against white immigrants at least with respect to classroom crowding and teaching assignments Instead his research uncovers solid trade union and other working class support for compulsory education adequate school financing and curricular modernization Urban reformers

campaigns assiduously for fiscally sound politically strong public schools. Often they had at least as much support from trade unionists as from business elites. In fact it was the business backed machine politicians from San Francisco's William Buckley to Chicago's Edward Kelly who deprived the schools of funds. At a time when public schools are being subjected to searching criticism and when new educational ideas are gaining political support *The Politics of School Reform 1870-1940* is a timely reminder of the strength and breadth of those groups that have always supported free public schools. *The World Is Our Home* Jeffrey J. Folks, Nancy Summers Folks, 2021-10-21 Since the early 1970s southern fiction has been increasingly attentive to social issues including the continuing struggles for racial justice and gender equality the loss of a sense of social community and the decline of a coherent regional identity. The essays in *The World Is Our Home* focus on writers who have explicitly addressed social and cultural issues in their fiction and drama including Dorothy Allison Horton Foote Ernest J Gaines Jill McCorkle Walker Percy Lee Smith William Styron Alice Walker and many others. The contributors provide valuable insights into the transformation of southern culture over the past thirty years and probe the social and cultural divisions that persist. The collection makes an important case for the centrality of social critique in contemporary southern fiction.

Dicing with Death Stephen Senn, 2022-12-08 As a result of the COVID-19 pandemic medical statistics and public health data have become staples of newsfeeds worldwide with infection rates deaths case fatality and the mysterious R figure featuring regularly. However we don't all have the statistical background needed to translate this information into knowledge. In this lively account Stephen Senn explains these statistical phenomena and demonstrates how statistics is essential to making rational decisions about medical care. The second edition has been thoroughly updated to cover developments of the last two decades and includes a new chapter on medical statistical challenges of COVID-19 along with additional material on infectious disease modelling and representation of women in clinical trials. Senn entertains with anecdotes puzzles and paradoxes while tackling big themes including clinical trials and the development of medicines life tables vaccines and their risks or lack of them smoking and lung cancer and even the power of prayer. *Streets of Insecurity* Robin D.
