essays in this book speak of triumph and hardship success discrimination and disappointment Seeking El Dorado is a major contribution to black history and the history of the American West and will be of interest to both scholars and general readers Exploring the African-American Experience Niara Sudarkasa,Levi Akalazu Nwachuku,Judith A. W. Thomas,1996

The Changing American Countryside Emery N. Castle,1995 The literature on rural America to the extent that it exists has largely been written by urban based scholars perpetuating out of date notions and stereotypes or by those who see little difference between rural and agricultural concerns As a result the real rural America remains much misunderstood neglected or ignored by scholars and policymakers alike In response Emery Castle offers The Changing American Countryside a volume that will forever change how we look at this important subject Castle brings together the writings of eminent scholars from several disciplines and varying backgrounds to take a fresh and comprehensive look at the forgotten hinterlands These authors examine the role of non metropolitan people and places in the economic life of our nation and cover such diverse issues as poverty industry the environment education family social problems ethnicity race religion gender government public policy and regional diversity The authors are especially effective in demonstrating why rural America is so much more than just agriculture It is in fact highly diverse complex and interdependent with urban America and the international market place Most major rural problems they contend simply cannot be effectively addressed in isolation from their urban and international connections To do so is misguided and even hazardous when one fourth of our population and ninety seven per cent of our land area is rural Together these writings not only provide a new and more realistic view of rural life and public policy but also suggest how the field of rural studies can greatly enrich our understanding of national life **Sister** Sylvia

Bell White,Jody LePage,2013-06-06 Raised with twelve brothers in a part of the segregated South that provided no school for African American children Sylvia Bell White went North as a teenager dreaming of a nursing career but in Milwaukee she and her brothers found only racial discrimination and she had to persevere through racial rebuffs to find work When a Milwaukee police officer killed her younger brother in 1958 the Bell family suspected a racial murder but could do nothing to prove it until twenty years later when one of the officers involved in the incident unexpectedly came forward Sylvia was the driving force behind the family s four year quest for justice through a civil rights lawsuit **Ethnic Politics, Public Policy,**

and the Public Interest Luis Ricardo Fraga,Bari Anhalt Erlichson,1993 African-American Mayors David R.

Colburn,Jeffrey S. Adler,2001 On November 7 1967 the voters of Cleveland Ohio and Gary Indiana elected the nation s first African American mayors to govern their cities Ten years later more than two hundred black mayors held office and by 1993 sixty seven major urban centers most with majority white populations were headed by African Americans Once in office African American mayors faced vexing challenges In large and small cities from the Sunbelt to the Rustbelt black mayors assumed office during economic downturns and confronted the intractable problems of decaying inner cities white flight a dwindling tax base violent crime and diminishing federal support for social programs Many encountered hostility from their

own parties city councils and police departments others worked against long established power structures dominated by local business owners or politicians Still others while trying to respond to multiple demands from a diverse constituency were viewed as traitors by blacks expecting special attention from a leader of their own race All struggled with the contradictory mandate of meeting the increasing needs of poor inner city residents while keeping white businesses from fleeing to the suburbs This is the first comprehensive treatment of the complex phenomenon of African American mayors in the nation s major urban centers Offering a diverse portrait of leadership conflict and almost insurmountable obstacles this volume assesses the political alliances that brought black mayors to office as well as their accomplishments notably increased minority hiring and funding for minority businesses and the challenges that marked their careers Mayors profiled include Carl B Stokes Cleveland Richard G Hatcher Gary Dutch Morial New Orleans Harold Washington Chicago Tom Bradley Los Angeles Marion Barry Washington D C David Dinkins New York City Coleman Young Detroit and a succession of black mayors in Atlanta Maynard Jackson Andrew Young and Bill Campbell Probing the elusive economic dimension of black power African American Mayors demonstrates how the same circumstances that set the stage for the victories of black mayors exaggerated the obstacles they faced

Strength in Numbers? Jan E. Leighley, 2001-08-12 America s increasing racial and ethnic diversity is viewed by some as an opportunity to challenge and so reinforce the country s social fabric by others as a portent of alarming disunity While everyone agrees that this diversity is markedly influencing political dynamics not only nationally but often on the state and local levels we know little about how racial and ethnic groups organize and participate in politics or how political elites try to mobilize them This book tells us By integrating class based factors with racial and ethnic factors Jan Leighley shows what motivates African Americans Latinos and Anglos to mobilize and participate in politics Drawing on national survey data and on interviews with party and elected officials in Texas she develops a nuanced understanding of how class race and ethnicity act as individual and contextual influences on elite mobilization and mass participation Leighley examines whether the diverse theoretical approaches generally used to explain individual participation in politics are supported for the groups under consideration She concludes that the political and social context influences racial and ethnic minorities decisions to participate but that different features of those environments are important for different groups Race and ethnicity structure participation more than previous research suggests Casting new light on an issue at the crux of contemporary American politics Strength in Numbers will be welcomed by scholars and students of political science African American and Latino studies urban politics and social movements
