Black Excellence:

Black Excellence Danielle Wiggins, 2025-09-02 A provocative new history of modern black liberalism Black Excellence offers a provocative new history of modern black liberalism by situating the seemingly conservative tendencies of black elected officials in the post civil rights era within neoliberal American politics and an enduring black liberal tradition In the 1970s and 80s cities across the country elected black mayors for the first time Just as these officials gained political power however their cities felt the full brunt of white flight and deindustrialization Tasked with governing cities in crisis black political leaders responded in seemingly conservative ways to the social problems that austerity worsened Nowhere was this response more evident than in Atlanta In the nation's preeminent black urban regime black leaders such as mayors Maynard Jackson and Andrew Young employed the power of policing and the private sector to discipline black Atlantans hoping they would equip vulnerable communities with the tools to manage the volatility of the era Danielle Wiggins shows that these punitive responses to the problems of crime family instability and unemployment were informed by black liberalism's disciplinary impulse an enduring tendency to reform behaviors believed to threaten black survival in a white supremacist nation Forged in response to the violence of Jim Crow the disciplinary impulse relied upon notions of pathology and its inverse black excellence Wiggins identifies several black liberal efforts to cultivate excellent black communities families and workers in the post civil rights era including community policing corporate sponsored family initiatives and black entrepreneurship In embracing disciplinary strategies however black liberals often focused on behavior at the expense of addressing structural inequality Consequently their approaches dovetailed with those of the New Democrats whose post Great Society social policies were informed by urban black liberals Black Excellence reveals thus how urban black liberals not only reshaped black politics but as Democrats also helped build the neoliberal Democratic Party

Becoming Lunsford Lane Craig Thompson Friend, 2025-05-27 By challenging the rules of enslavement and later pushing the boundaries of free citizenship in North Carolina Lunsford Lane 1803-79 became a folk hero to many enslaved Southerners as well as a generation of abolitionists Author of a unique slave narrative and a speaking partner with some of the era's greatest orators including William Lloyd Garrison Henry Highland Garnett

William Wells Brown and Frederick Douglass Lane became a celebrity who watched as the persona he created gradually faltered and failed him and his family Yet even as his influence waned it was still powerful enough to cause many to remake his image for their own purposes as a fugitive from slavery an entrepreneur a Christian minister and even an abolitionist an identity he rejected Lane also made many enemies who tried to silence him a white mob determined to tar and feather him reformers who saw his contributions to abolition as a threat to their causes and a neighbor who attempted to set fire to the Lane home while Lunsford and his family slept inside In the first biography of Lunsford Lane based on original and extensive research Craig Thompson Friend portrays a man who dreamed beyond his enslavement delivered himself and his family from bondage and spun a story of his life that brought him lasting freedom and fleeting fame Friend casts light on Lane s family origins as well as his complex relationships with his wife parents children enslavers fellow abolitionists and nation Lane s story is a biography for our times a man searching to define life liberty and the pursuit of happiness in a changing American society scarred by contentious politics economic challenges class tensions loss of political rights and racial violence

Ghosts of Jim Crow F. Michael Higginbotham,2013 Discusses the political economic educational and social reasons the United States is not a post racial society and argues that legal reform can successfully create a post racial America

Radebe,Mogobe B. Ramose ,2023-06-28 African knowledge is yet to fully contribute to spaces of learning because of the disciplinary boundaries founded on Western separatist logic From an African epistemology knowledge is interconnected because of the cosmological understanding that the universe is one entity Bringing African knowledge into the academy requires a concerted effort to bring it of its own accord There have been commendable efforts by scholars in South Africa to bring African knowledge to higher education in ways that do not alter or re shape this knowledge to suit the dominant Euro American script This book

aims to showcase such efforts This book makes interconnections of themes across disciplines The content produced in this book will ensure that literature will anchor the noble efforts to build African universities that deliberately centre African ways of knowing This book will be among the few publications that focus on Africanisation and decolonisation of knowledges as praxis We anticipate that this book will be recommended in various disciplines of social sciences in South African universities
