## **Black Feminist Anthropology Theory Politics Praxis And Poetics:**

*Black Feminist Anthropology* Irma McClaurin, 2001 In the discipline's early days anthropologists by definition were assumed to be white and male Women and black scholars were relegated to the field's periphery From this marginal place white feminist anthropologists have successfully carved out an acknowledged intellectual space identified as feminist anthropology Unfortunately the works of black and non western feminist anthropologists are rarely cited and they have yet to be respected as significant shapers of the direction and transformation of feminist anthropology In this volume Irma McClaurin has collected for the first time essays that explore the role and contributions of black feminist anthropologists She has asked her contributors to disclose how their experiences as black women have influenced their anthropological practice in Africa the Caribbean and the United States and how anthropology has influenced their development as black feminists Every chapter is a unique journey that enables the reader to see how scholars are made The writers present material from their own fieldwork to demonstrate how these experiences were shaped by their identities Finally each essay suggests how the author's field experiences have influenced the theoretical and methodological choices she has made throughout her career Not since Diane Wolf's *Feminist Dilemmas in the Field* or Hortense Powdermaker's *Stranger and Friend* have we had such a breadth of women anthropologists discussing the critical and personal issues that emerge when doing ethnographic research

Lewin, Leni M. Silverstein, 2016-07-07 Feminist anthropology emerged in the 1970s as a much needed corrective to the discipline s androcentric biases Far from being a marginalized subfield it has been at the forefront of developments that have revolutionized not only anthropology but also a host of other disciplines This landmark collection of essays provides a contemporary overview of feminist anthropology s historical and theoretical origins the transformations it has undergone and the vital contributions it continues to make to cutting edge scholarship Mapping Feminist Anthropology in the Twenty First Century brings together a variety of contributors giving a voice to both younger researchers and pioneering scholars who offer insider perspectives on the field s foundational moments Some chapters reveal how the rise of feminist anthropology shaped and was shaped by the emergence of fields like women s studies black and Latina studies and LGBTQ studies Others consider how feminist anthropologists are helping to frame the direction of developing disciplines like masculinity studies affect theory and science and technology studies Spanning the globe from India to Canada from Vietnam to Peru Mapping Feminist Anthropology in the Twenty First Century reveals the important role that feminist anthropologists have played in worldwide campaigns against human rights abuses domestic violence and environmental degradation It also celebrates the work they have done closer to home helping to explode the developed world s preconceptions about sex gender and sexuality

**Black Feminist Archaeology** Whitney Battle-Baptiste, 2017-07-05 Black feminist thought has developed in various parts of the academy for over three decades but has made only minor inroads into archaeological theory and practice Whitney Battle Baptiste outlines the basic tenets of Black feminist thought and research for archaeologists and shows how it can be used to improve contemporary historical archaeology She demonstrates this using Andrew Jackson s Hermitage the W E B Du Bois Homesite in Massachusetts and the Lucy Foster house in Andover which represented the first archaeological excavation of an African American home Her call for an archaeology more sensitive to questions of race and gender is an important development for the field      *Feminist Anthropology* Ellen Lewin, 2009-02-09 Feminist Anthropology surveys the history of feminist anthropology and offers students and scholars a fascinating collection of both classic and contemporary articles grouped to highlight key themes from the past and present Offers vibrant examples of feminist ethnographic work rather than synthetic overviews of the field Each section is framed by a theoretical and bibliographic essay Includes a

thoughtful introduction to the volume that provides context and discusses the intellectual foremothers of the field including Margaret Mead, Ruth Landes, Phyllis Kaberry, and Zora Neale Hurston. *Ain't I an Anthropologist* Jennifer L. Freeman Marshall, 2023-02-28. Iconic as a novelist and popular cultural figure, Zora Neale Hurston remains underappreciated as an anthropologist. Is it inevitable that Hurston's literary authority should eclipse her anthropological authority? If not, what socio-cultural and institutional values and processes shape the different ways we read her work? Jennifer L. Freeman Marshall considers the polar receptions to Hurston's two areas of achievement by examining the critical response to her work across both fields. Drawing on a wide range of readings, Freeman Marshall explores Hurston's popular appeal as iconography, her elevation into the literary canon, her concurrent marginalization in anthropology despite her significant contributions, and her place within constructions of Black feminist literary traditions. Perceptive and original, *Ain't I an Anthropologist* is an overdue reassessment of Zora Neale Hurston's place in American cultural and intellectual life. [The Handbook of Teaching Qualitative and Mixed Research Methods](#) Alissa Ruth, Amber Wutich, H. Russell Bernard, 2023-12-01. *The Handbook of Teaching Qualitative and Mixed Research Methods: A Step by Step Guide for Instructors* presents diverse pedagogical approaches to teaching 71 qualitative and mixed methods. These tried and true methods are widely applicable to those teaching and those being trained in qualitative and mixed methods research. The methods for data collection cover ethics, sampling, interviewing, recording, observations of behavior, Indigenous and decolonizing methods and methodologies, as well as visual and participatory methods. Methods for analyzing data include coding and finding themes, exploratory and inductive analysis, linguistic analysis, mixed methods analysis, and comparative analysis. Each method has its own 1,500-word lesson in a chapter written by expert methodologists from around the globe. In these lessons, contributors give the reader a brief history of the method and describe how they teach it by including their best practices with succinct step-by-step instructions focusing on student-centered, experiential, and active learning exercises. This comprehensive one-of-a-kind text is an essential reference for instructors who teach qualitative and/or mixed methods across the Social and Behavioral Sciences and other related disciplines including Anthropology, Sociology, Education, and Health Nursing research. **Who Look at Me?!** Durell M. Callier, Dominique C. Hill, 2019-01-21. *Who Look at Me: Shifting the Gaze of Education through Blackness, Queerness, and the Body* explores how we as a society see Blackness and, in particular, Black youth. Drawing on a range of sources, the authors argue that the ability to operationalize the sentiment that Black Lives Matter requires seeing Blackness wholly as queer and as a site of subversive knowledge production. Continuing the work of June Jordan and Langston Hughes and based on their work as a Black queer artist collective known as Hill L. Waters, *Who Look at Me* provides alternative tools for reading about and engaging with the lived experiences of Black youth and educational research for and about Black youth. In this way, the book presents not only the possibilities of envisioning teaching and research practices but presents examples that embrace, celebrate, and make room for the fullness of Black and queer bodies and experiences. This work will appeal to those interested

in emancipatory methodological and educational practices as well as interdisciplinary conversations related to sociocultural constructions of race and sexuality politics of Blackness and race in education

**Prospects and Impediments of Feminist Monolithism** Rosalyn Mutia, 2021-02-01 This book reads mid

twentieth century poetry by British American and Sub Saharan women to postulate the desirability and possibility of feminist monolithism It shows that there is a remarkable consistency in the themes and aesthetic preoccupations of poets widely separated from each other by both geographical space and historical epochs which highlights that there are pertinent cross cutting trends in women s poetry which could be exploited as a basis for monolithism The text identifies the main tenets of feminism as recognition of women s oppression and a determined effort through concerted strategies to resist and thwart this oppression and to navigate women out of peripheral positions into positions of power By showing that these tenets are uniformly present in the poetry of very different women it posits this uniformity as a stable ground on which feminist monolithism could be constructed without glossing over existent differences between and among women

**Negras in Brazil** Kia Caldwell,2007-01-05 For most of the twentieth century Brazil was widely regarded as a racial democracy a country untainted by the scourge of racism and prejudice In recent decades however this image has been severely critiqued with a growing number of studies highlighting persistent and deep seated patterns of racial discrimination and inequality Yet recent work on race and racism has rarely considered gender as part of its analysis In *Negras in Brazil* Kia Lilly Caldwell examines the life experiences of Afro Brazilian women whose stories have until now been largely untold This pathbreaking study analyzes the links between race and gender and broader processes of social economic and political exclusion Drawing on ethnographic research with social movement organizations and thirty five life history interviews Caldwell explores the everyday struggles Afro Brazilian women face in their efforts to achieve equal rights and full citizenship She also shows how the black women s movement which has emerged in recent decades has sought to challenge racial and gender discrimination in Brazil While proposing a broader view of citizenship that

includes domains such as popular culture and the body. *Negras in Brazil* highlights the continuing relevance of identity politics for members of racially marginalized communities. Providing new insights into black women's social activism and a gendered perspective on Brazilian racial dynamics, this book will be of interest to students and scholars of Latin American Studies, African diaspora studies, women's studies, politics, and cultural anthropology.
