*The Production of Difference* David R. Roediger, Elizabeth D. Esch, 2012-06-01 In 1907 pioneering labor historian and economist John Commons argued that U S management had shown just one symptom of originality namely playing one race against the other In this eye opening book David Roediger and Elizabeth Esch offer a radically new way of understanding the history of management in the United States placing race migration and empire at the center of what has sometimes been narrowly seen as a search for efficiency and economy Ranging from the antebellum period to the coming of the Great Depression the book examines the extensive literature slave masters produced on how to manage and develop slaves explores what was perhaps the greatest managerial feat in U S history the building of the transcontinental railroad which pitted Chinese and Irish work gangs against each other and concludes by looking at how these strategies survive today in the management of hard low paying dangerous jobs in agriculture military support and meatpacking Roediger and Esch convey what slaves immigrants and all working people were up against as the objects of managerial control Managers explicitly ranked racial groups both in terms of which labor they were best suited for and their relative value compared to others The authors show how whites relied on such alleged racial knowledge to manage and believed that the lesser races could only benefit from their tutelage These views wove together managerial strategies and white supremacy not only ideologically but practically every day at workplaces Even in factories governed by scientific management the impulse to play races against each other and to slot workers into jobs categorized by race constituted powerful management tools used to enforce discipline lower wages keep workers on dangerous jobs and undermine solidarity Painstakingly researched and brilliantly argued *The Production of Difference* will revolutionize the history of labor race in the United States

*Workers' Control in Latin America, 1930-1979* Jonathan C. Brown, 2000-11-09 The years between 1930 and 1979 witnessed a period of intense labor activity in Latin America as workers participated in strikes unionization efforts and populist and revolutionary movements The ten original essays AEMDNMO in this volume examine sugar mill seizures in Cuba oil nationalization and railway strikes in Mexico the attempted revolution in Guatemala railway nationalization and Peronism in Argentina Brazil's textile strikes the Bolivian revolution of 1952 Peru's copper strikes and the copper nationalization in Chile all important national events in which industrial laborers played critical roles Demonstrating an illuminating bottom up approach to Latin American labor history these essays investigate the everyday acts through which workers attempted to assert more control over the work process and thereby add dignity to

their lives Working together they were able to bring shop floor struggles to public attention and at certain critical junctures to influence events on a national scale The contributors are Andrew Boeger Michael Marconi Braga Jonathan C Brown Josh DeWind Marc Christian McLeod Michael Snodgrass Andrea Spears Joanna Swanger Maria Celina Tuoizzo and Joel Wolfe

Scott,Thomas C. It also offers analysis of the role of international intervention, the complex interaction among major world powers in the area, conflicts over colonial possessions and trade routes, Soviet-American confrontation in the Cold War years, Integrating the recent political, social and economic history of the Caribbean with its military and diplomatic past, this book charts the region's emergence from colonialism during the course of the twentieth century.

**The Opinions of Mankind** Richard Lentz, Karla K. Gower, 2011-02-14 During the Cold War the Soviets were quick to publicize any incident of racial hostility in the United States. Since violence by white Americans against minorities was the perfect foil to America's claim to be defenders of freedom, news of these occurrences was exploited to full advantage by the Russians. But how did the Soviets gain primary knowledge of race riots in small American towns? Certainly the Soviets had reporters stationed stateside in big cities like New York, but research reveals that the majority of their information came directly from U.S. media sources. Throughout this period the American press provided the foreign media with information about racially charged events in the United States. Such news coverage sometimes put Washington at a disadvantage, making it difficult for government officials to assuage foreign reactions to the injustices occurring on U.S. soil. Yet in other instances the domestic press helped to promote favorable opinions abroad by articulating themes of racial progress. While still acknowledging racial abuses, these press spokesmen asserted that the situation in America was improving. Such paradoxical messages both aiding and thwarting the efforts of the U.S. government are the subject of *The Opinions of Mankind: Racial Issues, Press and Propaganda in the Cold War*. The study by scholars Richard Lentz and Karla K. Gower describes and analyzes the news discourse regarding U.S. racial issues from 1946 to 1965. *The Opinions of Mankind* not only delves into the dissemination of race-related news to foreign outlets but also explores the impact foreign perceptions of domestic racism had on the U.S. government and its handling of foreign relations during the period. What emerges is an original, insightful contribution to Cold War studies. While other books examine race and foreign affairs during this period of American history, *The Opinions of Mankind* is the first to approach the subject from the standpoint of press coverage and its impact on world public opinion. This exhaustively researched and compellingly written volume will appeal to media scholars, political historians, and general readers alike. By taking a unique approach to the study of this period, *The Opinions of Mankind* presents the workings behind the battles for public opinion that took place between 1946 and 1965.

**Global Garveyism** Ronald J. Stephens, Adam Ewing, 2024-10-15 Illuminating the global impact of Marcus Garvey's Black nationalist philosophy. Arguing that the accomplishments of Jamaican activist Marcus Garvey and his followers have been marginalized in narratives of the Black freedom struggle, this volume builds on decades of overlooked research to reveal the profound impact of Garvey's post-World War I Black nationalist philosophy around the globe and across the twentieth century. These essays point to the breadth of Garveyism's spread and its reception in communities across the African diaspora, examining the influence of Garvey's Universal Negro Improvement Association.

UNIA in Africa Australia North America and the Caribbean They highlight the underrecognized work of many Garveyite women and show how the UNIA played a key role in shaping labor unions political organizations churches and schools In addition contributors describe the importance of grassroots efforts for expanding the global movement the UNIA trained leaders to organize local centers of power whose political activism outside the movement helped Garvey's message escape its organizational bounds during the 1920s They trace the imprint of the movement on long term developments such as decolonization in Africa and the Caribbean the pan Aboriginal fight for land rights in Australia the civil rights and Black Power movements in the United States and the radical pan African movement Rejecting the idea that Garveyism was a brief and misguided phenomenon this volume exposes its scope significance and endurance Together contributors assert that Garvey initiated the most important mass movement in the history of the African diaspora and they urge readers to rethink the emergence of modern Black politics with Garveyism at the center Contributors Ronald J Stephens Adam Ewing Keisha N Blain Nicole Bourbonnais Jos Andr s Fern ndez Montes de Oca John Maynard Erik S McDuffie Frances Peace Sullivan Robert Trent Vinson Michael O West      *Blacks and Blackness in Central America* Lowell Gudmundson,Justin Wolfe,2010-10-18 Essays recovering the forgotten and downplayed histories of blacks in Central America demonstrating the centrality of African Americans to the regions history from the earliest colonial times to the present      **Afro-Cuban Voices** Pedro P rez Sarduy,Jean Stubbs,2020-03-23 Based on vivid testimonies of 14 prominent Afro Cubans this book looks at how race affects daily life in Cuba      **Colorblind Tools** Marzia Milazzo,2022-10-15 Winner of the 2023 Association for Ethnic Studies Outstanding Book Award A study of anti Blackness and white supremacy across four continents demonstrates that colorblindness is neither new nor a subtype of racist ideology but a constitutive technology of racism In *Colorblind Tools* Marzia Milazzo offers a transnational account of anti Blackness and white supremacy that pushes against the dominant emphasis on historical change pervading current racial theory This emphasis on change she contends misses critical lessons from the past Bringing together a capacious archive of texts on race produced in Brazil Cuba Mexico Panama the United States and South Africa from multiple disciplines and genres Milazzo uncovers transnational continuities in structural racism and white supremacist discourse from the inception of colonial modernity to the present In the process she traces the global workings of what she calls colorblind tools technologies and strategies that at once camouflage and reproduce white domination Whether examining Rijno van der Riet's defense of slavery in the Cape Colony discourses of racial mixture in Latin American eugenics and their reverberations in contemporary scholarship the pitfalls of white antiracism or Chicana indigenist aesthetics Milazzo illustrates how white people collectively disavow racism to maintain power across national boundaries and how anti Black and colonial logics can be reproduced even in some decolonial literatures Milazzo's groundbreaking study proves that colorblindness is not new nor is it a subtype of racist ideology or a hallmark of our era It is a constitutive technology of racism a tool the master cannot do without      **Afro-Latin America, 1800-2000** George Reid

Andrews,2004-07-15 Covering the last two hundred years and including Spanish America Brazil and the Caribbean this book examines how African descended people made their way out of slavery and into freedom and how once free they helped build social and political democracy in the region

**Pure and Simple Politics** Julie Greene,1998-06-28 Scholarship on American labor politics has been dominated by the view that the American Federation of Labor the dominant labor organization rejected political action in favor of economic strategies Based upon extensive research into labor and political party records this study demonstrates that despite the common belief the AFL devoted great attention to political activity The organization s main strategy however which Julie Greene terms pure and simple politics dictated that trade unionists alone should shape American labor politics Exploring the period from 1881 to 1917 Pure and Simple Politics focuses on the quandaries this approach generated for American trade unionists Politics for AFL members became a highly contested terrain as leaders attempted to implement a strategy which many rank and file workers rejected Furthermore its drive to achieve political efficacy increasingly exposed the AFL to forces beyond its control as party politicians and other individuals began seeking to influence labor s political strategy and tactics

The Business of Empire Jason M. Colby,2011-10-27 The link between private corporations and U S world power has a much longer history than most people realize Transnational firms such as the United Fruit Company represent an earlier stage of the economic and cultural globalization now taking place throughout the world Drawing on a wide range of archival sources in the United States Great Britain Costa Rica and Guatemala Colby combines top down and bottom up approaches to provide new insight into the role of transnational capital labor migration and racial nationalism in shaping U S expansion into Central America and the greater Caribbean The Business of Empire places corporate power and local context at the heart of U S imperial history In the early twentieth century U S influence in Central America came primarily in the form of private enterprise above all United Fruit Founded amid the U S leap into overseas empire the company initially depended upon British West Indian laborers When its black workforce resisted white American authority the firm adopted a strategy of labor division by recruiting Hispanic migrants This labor system drew the company into increased conflict with its host nations as Central American nationalists denounced not only U S military interventions in the region but also American employment of black immigrants By the 1930s just as Washington renounced military intervention in Latin America United Fruit pursued its own Good Neighbor Policy which brought a reduction in its corporate colonial power and a ban on the hiring of black immigrants The end of the company s system of labor division in turn pointed the way to the transformation of United Fruit as well as the broader U S empire

**Changing the World** Alan Dawley,2013-11-28 In May of 1919 women from around the world gathered in Zurich Switzerland and proclaimed We dedicate ourselves to peace Just months after the end of World War I the Womens International League for Peace and Freedom a group led by American progressive Jane Addams and

comprising veteran campaigners for social reform knew that a peaceful world was essential to their ongoing quest for social and economic justice Alan Dawley tells the story of American progressives during the decade spanning World War I and its aftermath He shows how they laid the foundation for progressive internationalism in their efforts to improve the world both at home and abroad Unlike other accounts of the progressive movement and of American politics in general this book fuses social and international history Dawley shows how interventions in Latin America and Europe affected domestic plans for social reform and civic engagement and he depicts internal battles among progressives between unabashed imperialists like Theodore Roosevelt and their implacable opponents like Robert La Follette He draws a contrast between Woodrow Wilson's use of force in exporting American ideals and Addams's more cosmopolitan pursuit of economic justice and world peace In discussing the debate over the League of Nations within the context of turbulent domestic affairs Dawley brings keen insight into that complicated moment in American history In striking and original ways Dawley brings together domestic and world affairs to argue that American progressivism cannot be understood apart from its international context Focusing on world historical events of empire revolution war and peace he shows how American reformers invented a new politics built around progressive internationalism *Changing the World* retrieves the progressive tradition in American politics and makes it available to contemporary debates The book speaks to anyone seeking to be both a good citizen within the nation and a good citizen of today's troubled world
