Haq, 2024-11-01 A fascinating and often surprising journey into the belief and practice of magic in Pakistan exploring the country's myths legends and folklore The supernatural and the religious intertwine to produce a unique cultural landscape where the holy and the superstitious combine inextricably and practitioners of both white and black magic gain legitimacy and status from the incorporation of Quranic elements in their rituals from faith healing and protection to harmful sorcery Far from an arcane relic of times long past the practice of magic is ubiquitous in Pakistan today and amongst its diaspora across the globe constantly changing and adapting to new environments and influences Neither is the popularity of magic limited to the impoverished or illiterate belief is widespread regardless of status and education with a resurgence in interest from

younger people perhaps disillusioned with modern society and organised religion and seeking a return to a more natural way of life The risks of exploitation and abuse from unprincipled charlatans are commonplace especially since they are promoted by the media and unregulated by law but genuine religiously legitimate practitioners also exist and their help is sought by millions suggesting a deep seated human need for connection to the supernatural

### **Black Magic is in full sway amidst mankind**

Helena Petrovna Blavatsky, 2018-05-25. Mankind is at best a sorry herd of Panurgian sheep following blindly the leader that happens to suit it at the moment. The majority at any rate hates to think for itself and ignores the tremendous problems of man's inner nature. Old times are just like modern times; nothing is changed as to magical practices except that they have become still more esoteric and arcane, and that the caution of the adepts increases in proportion to the traveller's curiosity. Magic is indissolubly blended with the Religion of every country and is inseparable from its origin. It is as impossible for History to name the time when it was not as that of the epoch when it sprang into existence unless the doctrines preserved by the Initiates are taken into consideration. Modern society, on the authority of some men of Science, calls Magic charlatanry. Still the whole ancient world, with its Scholars and Philosophers, its Sages and Prophets, believed in it. Where is the country in which it was not practiced? At what age was it banished even from our own country? In the New World, as in the Old Country, the latter far younger than the former, the Science of Sciences was known and practiced from the remotest antiquity. The

Mexicans had their Initiates their Priest Hierophants and Magicians and their crypts of Initiation The Mexican pyramids are those of Egypt built according to the same secret canon of proportion as those of the Pharaohs and the Aztecs appear to have derived their civilization and religion in more than one way from the same source as the Egyptians and before these the Indians Among all these three peoples arcane Natural Philosophy or Magic was cultivated to the highest degree Herodotus knew that the real purpose of the pyramid was very different from that which he assigns to it Were it not for his religious scruples he might have added that externally it symbolized the creative principle of nature and illustrated also the principles of geometry mathematics astrology and astronomy Internally it was a majestic fane in whose sombre recesses were performed the Mysteries and whose walls had often witnessed the initiation scenes of members of the royal family The porphyry sarcophagus which Professor Piazzzi Smyth Astronomer Royal of Scotland degrades into a corn bin was the baptismal font upon emerging from which the neophyte was born again and became an adept Democritus applied himself to discover the method by which the Theurgists could produce them in a word his philosophy brought him to the conclusion that Magic was entirely confined to the application and the imitation of the laws and the works of nature The true Theosophist knows indubitably that the Secret Doctrine of the East contains the Alpha and the Omega of Universal Science that in its obscure texts under the luxuriant though perhaps too exuberant growth of allegorical Symbolism lie concealed the corner and the key stones of all ancient and modern knowledge That Stone brought down by the Divine Builder is now rejected by the too human workman and this because in his lethal materiality man has lost every recollection not only of his holy childhood but of his very adolescence when he was one of the Builders himself when the morning stars sang together and the Sons of God shouted for joy after they had laid the measures for the foundations of the earth to use the deeply significant and poetical language of Job the Arabian Initiate But those who are still able to make room in their innermost selves for the Divine Ray and who accept therefore the data of the Secret Sciences in good faith and humility they know well that it is in this Stone that remains buried the absolute in Philosophy which is the key to all those dark problems of Life and Death some of which at any rate may find an explanation in these volumes Like an immense boa constrictor Error in every shape encircles mankind trying to smother in her deadly coils every aspiration towards truth and light But Error is powerful only on the surface prevented as she is by Occult Nature from going any deeper for the same Occult Nature encircles the whole globe in every direction leaving not even the darkest corner unvisited And whether by phenomenon or miracle by spirit hook or bishop s crook Occultism must win the day before the present era reaches Shani s Saturn s triple septenary of the Western Cycle in Europe in other words before the end of the twenty first century AD People laugh at Magic Men of Science Physiologists and Biologists deride the potency and even the belief in the existence of what is called in vulgar parlance Sorcery and Black Magic The archaeologists have their Stonehenge in England with its thousands of secrets and its twin brother Carnac of Brittany and yet there is not one of them who even suspects what has been going on in its crypts and its

mysterious nooks and corners for the last century More than that they do not even know of the existence of such magic halls in their Stonehenge where curious scenes are taking place whenever there is a new convert in view The conscience of the Roman Catholic priest is most likely at peace He works personally for no selfish purpose but with the object of saving a soul from eternal damnation In his view if Magic there be in it it is holy meritorious and divine Magic Such is the power of blind faith Hence when we are assured by trustworthy and respectable persons of high social standing and unimpeachable character that there are many well organized societies among the Roman Catholic priests which under the pretext and cover of Modern Spiritualism and mediumship hold s ances for the purposes of conversion by suggestion directly and at a distance 1 The Adept of the Left Hand throws a spell without ceremony and by his sole disapproval upon those with whose conduct he is dissatisfied and whom he thinks it necessary to punish he casts a spell even by his pardon over those who do him injury and the enemies of Initiates never long enjoy impunity for their wrong doing The executioners of martyrs always perish miserably and the Adepts are the martyrs of Intelligence Providence seems to despise those who despise them and puts to death those who would seek to prevent them from living The legend of the Wandering Jew is the popular poetry of this arcanum A people had sent a sage to crucifixion that people had bidden him Move on when he tried to rest for one moment Well that people will become subject henceforth to a similar condemnation it will become entirely proscribed and for long centuries it will be bidden Move on move on finding neither rest nor pity Our modern Symbolist is superlatively clever only at detecting phallic worship and sexual emblems even where none were ever meant But for the true student of Occult Lore White or Divine Magic could no more exist in Nature without its counterpart Black Magic than day without night whether these be of twelve hours or of six months duration For him everything in that Nature has an occult a bright and a night side to it True Left hand Magic has lost its name and along with it its rights to recognition But its practice is in daily use and its progeny magnetic influence power of oratory irresistible fascination whole audiences subdued and held as though under a spell are terms recognized and used by all generally meaningless though they now are The real truth is that Magic is still in full sway amidst mankind however blind the latter to its silent presence and influence on its members however ignorant society may be and remain to its daily and hourly beneficent and maleficent effects The world is full of such unconscious magicians in politics as well as in daily life in the Church as in the strongholds of Free Thought Most of those magicians are sorcerers unhappily not metaphorically but in sober reality by reason of their inherent selfishness their revengeful natures their envy and malice The true student of Magic well aware of the truth looks on in pity and if he be wise keeps silent For every effort made by him to remove the universal cecity is only repaid with ingratitude slander and often curses which unable to reach him will react on those who wish him evil Lies and calumny the latter a teething lie adding actual bites to empty harmless falsehoods become his lot and thus the well wisher is soon torn to pieces as a reward for his benevolent desire to enlighten 1 Consult Papal dispensation for murder and mayhem in the same series Editor      **Lords of the Left-Hand Path**
