Ruffin, 2010-12-01 American environmental literature has relied heavily on the perspectives of European Americans often ignoring other groups In *Black on Earth* Kimberly Ruffin expands the reach of ecocriticism by analyzing the ecological experiences conceptions and desires seen in African American writing Ruffin identifies a theory of ecological burden and beauty in which African American authors underscore the ecological burdens of living within human hierarchies in the social order just as they explore the ecological beauty of being a part of the natural order Blacks were ecological agents before the emergence of American nature writing argues Ruffin and their perspectives are critical to understanding the full scope of ecological thought Ruffin examines African American ecological insights from the antebellum era to the twenty first century considering WPA slave narratives neo slave poetry novels essays and documentary films by such artists as Octavia Butler Alice Walker Henry Dumas Percival Everett Spike Lee and Jayne Cortez Identifying themes of work slavery religion mythology music and citizenship *Black on Earth* highlights the ways in which African American writers are visionary ecological artists **African American Literary Theory** Winston Napier, 2000-07 The first volume to expound African American literary theory from the 1920s to present African American Literary Theory A Reader is the first volume to document the central texts and arguments in African American literary theory from the 1920s through the present As the volume progresses chronologically from the rise of a black aesthetic criticism through the Blacks Arts Movement feminism structuralism and poststructuralism and the rise of queer theory it focuses on the key arguments themes and debates in each period By constantly bringing attention to the larger political and cultural issues at stake in the interpretation of literary texts the critics gathered here have contributed mightily to the prominence and popularity of African American literature in this country and abroad African American Literary Theory provides a unique historical analysis of how these thinkers have shaped literary theory and literature at large and will be a indispensable text for the study of African American intellectual culture Contributors include Sandra Adell Michael Awkward Houston A Baker Jr Hazel V Carby Barbara Christian W E B DuBois Ann duCille Ralph Ellison Henry Louis Gates Jr Addison Gayle Jr Carolyn F Gerald Evelyn Hammonds Phillip Brian Harper Mae Gwendolyn Henderson Stephen E Henderson Karla F C Holloway Langston Hughes Zora Neale Hurston LeRoi Jones Amiri Baraka Joyce A Joyce Alain Locke Wahneema Lubiano Deborah E McDowell Harryette Mullen Larry Neal Charles I Nero Robert F Reid Pharr Marlon B Ross George S Schuyler Barbara Smith Valerie Smith Hortense J Spillers Sherley Anne Williams and Richard Wright **Understanding Colson Whitehead** Derek C. Maus, 2021-04-07 An inviting point of entrance into the truth seeking genre defying novels of the award winning author In 2020 Colson Whitehead became the youngest recipient of the Library of Congress Prize for American Fiction Although Whitehead s widely divergent books complicate overarching categorization Derek C Maus argues that they are linked by their skepticism toward the ostensible wisdom inherited from past generations and the various forms of stories that transmit it Whitehead best known for his Pulitzer Prize winning novel *The Underground Railroad* bids readers to accompany him on

challenging often open ended literary excursions designed to reexamine and frequently defy accepted notions of truth Understanding Colson Whitehead unravels the parallel structures found within Whitehead s books from his 1999 debut *The Intuitionist* through 2019 s *The Nickel Boys* for which he won his second Pulitzer Prize for Fiction By first imitating and then violating their conventions Whitehead attempts to transcend the limits of the formulas of the genres in which he seems to write Whitehead similarly tests subject matter again imitating and then satirizing various forms of conventional wisdom as a means of calling out unexamined ignored or malevolent aspects of American culture Although it is only one of many subjects that Whitehead addresses race is often central to his work It serves as a prime example of Whitehead s attempt to prompt his readers into revisiting their assumptions about meanings and values By upending the literary formulas of the detective novel the heroic folktale the coming of age story the zombie apocalypse the slave narrative and historical fiction Whitehead reveals the flaws and shortcomings by which Americans have defined themselves In addition to evoking such explicitly literary storytelling traditions Whitehead also directs attention toward other interrelated historical and cultural processes that influence how race class gender education social status and other categories of identity determine what an individual supposedly can and cannot do *The Cambridge Companion to American Fiction After 1945* John N. Duvall, 2012 A comprehensive 2011 guide to the genres historical contexts cultural diversity and major authors of American fiction since the Second World War *Playing the Changes* Craig Hansen Werner, 1994 A final sequence highlights the centrality of black music to African American writing arguing that recognizing blues gospel and jazz as theoretically suggestive cultural practices rather than specific musical forms points to what is most distinctive in twentieth century African American writing its ability to subvert attempts to limit its engagement with psychological historical political or aesthetic realities

Modernist Futures David James, 2012-08-27 This book examines what innovation means to novelists today by reading their work in dialogue with the modernist tradition *All Stories Are True* Tracie Church Guzzio, 2011-05-17 In *All Stories Are True* Tracie Church Guzzio provides the first full length study of John Edgar Wideman s entire oeuvre to date Specifically Guzzio examines the ways in which Wideman b 1941 engages with three crucial themes history myth and trauma throughout his career showing how they intertwine Guzzio argues that for four decades the influential African American writer has endeavored to create a version of the African American experience that runs counter to mainstream interpretations using history and myth to confront and then heal the trauma caused by slavery and racism Wideman s work intentionally blurs boundaries between fiction and autobiography myth and history particularly as that history relates to African American experience in his hometown of Pittsburgh Pennsylvania The fusion of fiction national history and Wideman s personal life is characteristic of his style which due to its complexity and smudging of genre distinctions has presented analytic difficulties for literary scholars Despite winning the PEN Faulkner award twice for *Sent for You Yesterday* 1984 and *Philadelphia Fire* 1990 Wideman remains under studied Of particular value is Guzzio s analysis of the many ways in which Wideman alludes to

his previous works This intertextuality allows Wideman to engage his books in direct intentional dialogue with each other through repeated characters images folktales and songs In Wideman s challenging of a monolithic view of history and presenting alternative perspectives to it and his allowing past present and future time to remain fluid in the narratives Guzzio finds an author firm in his notion that all stories and all perspectives have merit *Crabtracks* ,2021-12-28 The essays in this collection celebrate the signal achievement of Dieter Riemenschneider in helping found and consolidate the study of postcolonial anglophone literatures in Germany and Europe As well as poems a short story drawings of the Indian scene the first and abiding focus of this scholar s work and letters of reminiscence one quite grave there are revealing contributions of a literary historical nature on the establishment of anglophone especially African literatures as an academic discipline within Germany the UK and Northern Europe generally as well as a group of searching reflections on such topics of postcolonial import as globalization and the applicability of models to the literature of the indigene in Canada and Australia The largest section is devoted to individual topics each treatment implicitly keyed to approaches to the teaching of New Literatures texts Writers covered include Anita Desai landscape and memory Salman Rushdie painting in *The Moor s Last Sigh* Charlotte Bront imperial discourse in *Jane Eyre* Derek Walcott *Omeros* and cultural cohabitation and Witi Ihimaera his rewriting of Katherine Mansfield Topics dealt with include music and radio in West Africa the African literary hit parade the New Zealand prose poem Canadian and Australian war fiction the Middle Passage in the American and Caribbean novel Paul Theroux s uneasy relations with V S Naipaul and the colonial discourse of illness and recuperation The volume closes with Dieter Riemenschneider s very first and most recent critical essays the one a classic on Mulk Raj Anand the other a challenging and doubtless controversial thesis on postcolonial minority writing A select bibliography of Riemenschneider s work books edited publications journal articles and book contributions reviews and broadcasts rounds off this substantial collection

Invisible Suburbs Josh Lukin,2008 Were the 1950s an oppressive or a liberating time Some scholars argue that the Red Scare newly institutionalized discrimination against gays and a public discourse saturated with sexism left wounds in American society Others trace the origins of sixties liberation movements to the fifties and celebrate America s postwar prosperity or argue that such new phenomena as rock n roll teenage consumerism and Beat poetry gave Americans a new sense of freedom and identity *Invisible Suburbs* advances a new synthesis of both views from the perspective of literary scholarship Essayists ask how overlooked literature in the 1950s addressed or anticipated the struggles of disenfranchised groups to receive rights and recognition Scholars analyze the many ways in which the decade s culture stigmatized women minorities and the poor They uncover work that illustrates how groups and individuals challenged or resisted that oppression fiction by authors who sometimes found roots in earlier liberation movements and anticipated later struggles **BOOK JACKET**
