Dobak, Thomas D. Phillips, 2001 Black soldiers first entered the regular army of the United States in the summer of 1866 While their segregated regiments served in the American West for the next three decades the promise of the Reconstruction era gave way to the repressiveness of Jim Crow But black men found a degree of equality in the service the army treated them no worse than it did their white counterparts *The Black Regulars* uses army correspondence court martial transcripts and pension applications to tell who these men were often in their own words how they were recruited and how their officers were selected how the black regiments survived hostile Congressional hearings and stringent budget cuts how enlisted men spent their time both on and off duty and how regimental chaplains tried to promote literacy through the army's schools The authors shed new light on the military justice system relations between black troops and their mostly white civilian neighbors their professional reputations and what veterans faced when they left the army for civilian life **Civil War Boston** Thomas H. O'Connor, 2014-05-06 In this engaging volume Thomas H O Connor examines the unique role that Boston and its inhabitants played in the Civil War and discusses the impact of the turbulent war years on the city's civilian population His captivating narrative follows the experiences of four distinctive and significant groups of people who formed antebellum Boston businessmen Irish Catholic immigrants African Americans and women Interweaving vivid portraits of the Boston community with major political and military events of the Civil War O

Connor relates how the war forever changed lives disrupted homes altered work habits reshaped political allegiances and transformed ideas Rich with colorful anecdotes about local figures both renowned and long forgotten this is a fascinating account that will appeal to Civil War buffs historians and general readers alike Boston Confronts Jim Crow, 1890-1920 Mark Schneider,1997 Discusses how activists in Boston upheld their anti slavery tradition and promoted an equal rights agenda during the years between 1890 and 1920 a period in which African Americans throughout the country were being deprived of civil and political justice **Black Charlestonians** Bernard E. Powers,1999-08-01 The Legacy of Reconstruction A Postscript Appendix Notes Bibliography Index *Between Race and Ethnicity* Marilyn Halter,2022-10-17 Arriving in New England first as crew members of whaling vessels Afro Portuguese immigrants from Cape Verde later came as permanent settlers and took work in the cranberry industry on the docks and as domestic workers Marilyn Halter combines oral history with analyses of ships records to chart the history and adaptation patterns of the Cape Verdean Americans Though identifying themselves in ethnic terms Cape Verdeans found that their African European ancestry led their new society to view them as a racial group Halter emphasizes racial and ethnic identity formation to show how Cape Verdeans set themselves apart from the African Americans while attempting to shrug off white society s exclusionary tactics She also contrasts rural life on the bogs of Cape Cod with New Bedford s urban community to reveal the ways immigrants established their own social and religious groups as they strove to maintain their Crioulo customs **The "Underclass" Debate** Michael B. Katz,2018-06-05 Do ominous reports of an emerging underclass reveal an unprecedented crisis in American society Or are social commentators simply rediscovering the tragedy of recurring urban poverty as they seem to do every few decades Although social scientists and members of the public make frequent assumptions about these questions they have little information about the crucial differences between past and present By providing a badly needed historical context these essays reframe today s underclass debate Realizing that labels of social pathology echo fruitless distinctions between the deserving and undeserving poor the contributors focus not on individual and family behavior but on a complex set of processes that have been at work over a long period degrading the inner cities and inevitably the nation as a whole How do individuals among the urban poor manage to survive How have they created a dissident infrapolitics How have social relations within the urban ghettos changed What has been the effect of industrial restructuring on poverty Besides exploring these questions the contributors discuss the influence of African traditions on the family patterns of African Americans the origins of institutions that serve the urban poor the reasons for the crisis in urban education the achievements and limits of the War on Poverty and the role of income transfers earnings and the contributions of family members in overcoming poverty The message of the essays is clear Americans will flourish or fail together In Their Own Interests Earl Lewis,2023-04-28 Since the Civil War African Americans have made great efforts to empower themselves Focusing on Norfolk Virginia Earl Lewis shows how blacks have had to balance competing inclinations for conscious inaction and purposeful agitation as they

sought to promote their own interests at home and in the workplace In *Their Own Interests* presents a cross section of southern urban blacks the power brokers and lesser knowns Garvey followers and communist enthusiasts who came to live in Norfolk between the Civil War and the Civil Rights Movement Lewis seeks to recreate the texture of African American life by examining the lives of the people after they moved to the city the jobs and assistance they secured the houses families and institutions they built the battles they waged and the culture they shared In *Their Own Interests* moves African American urban and social history beyond the current intellectual crossroads Drawing on a variety of sources Lewis tells the interconnected story of race class and power in twentieth century Norfolk His study has far reaching implications and should be of wide interest This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1991 Since the Civil War African Americans have made great efforts to empower themselves Focusing on Norfolk Virginia Earl Lewis shows how blacks have had to balance competing inclinations for conscious inaction and purposeful agitation as they sought to p

The Black Abolitionist Papers C. Peter Ripley, Roy E. Finkenbine, 2000-11-09 This five volume documentary collection culled from an international archival search that turned up over 14 000 letters speeches pamphlets essays and newspaper editorials reveals how black abolitionists represented the core of the antislavery movement While the first two volumes consider black abolitionists in the British Isles and Canada the home of some 60 000 black Americans on the eve of the Civil War the remaining volumes examine the activities and opinions of black abolitionists in the United States from 1830 until the end of the Civil War In particular these volumes focus on their reactions to African colonization and the idea of gradual emancipation the Fugitive Slave Law and the promise brought by emancipation during the war

From

African to Yankee Robert J. Cottrol, 2016-12-05 An anthology of five of the best autobiographical narratives detailing black life in New England in the late eighteenth and nineteenth centuries The volume is accompanied by Cottrol's introduction which discusses their significance and the window that they open on the lives of black New Englanders as they moved from eighteenth century slavery to freedom and the struggle for equality in the nineteenth century

Widows and Orphans

First S. J. Kleinberg, 2010-10-01 The experiences of widows and their children during the Progressive Era and the New Deal depended on differences in local economies and values How did these widely varied experiences impact the origins of the welfare state S J Kleinberg delves into the question by comparing widows' lives in three industrial cities with differing economic, ethnic, and racial bases Government in Fall River, Massachusetts saw employment as a solution to widows' poverty and as a result drastically limited public charity In Pittsburgh widows received sympathetic treatment Few jobs existed for them or their children indeed the jobs for men were concentrated in widowmaking industries like steel and railroading With a large African American population and a diverse economy that relied on inexpensive child and female labor Baltimore limited funds for public services African Americans adapted by establishing their own charitable institutions A fascinating comparative study *Widows and Orphans* First offers a one-of-a-kind look at social welfare policy for widows and the role of children in society during a pivotal time in American history

Gender and the Politics of Welfare Reform

Joanne L. Goodwin, 2007-12-01 The first study to explore the origins of welfare in the context of local politics this book examines the first public welfare policy created specifically for mother-only families Chicago initiated the largest mothers pension program in the United States in 1911 Evolving alongside movements for industrial justice and women's suffrage the mothers pension movement hoped to provide justice for mothers and protection from life's insecurities However local politics and public finance derailed the policy and most women were required to earn Widows were more likely to receive pensions than deserted women and unwed mothers And African American mothers were routinely excluded because they were proven breadwinners yet did not compete with white men for jobs Ultimately the once uniform commitment to protect motherhood faltered on the criteria of individual support and wage earning became a major component of the policy This revealing study shows how assumptions about women's roles have historically shaped public policy and sheds new light on the ongoing controversy of welfare reform

Seeking El Dorado Lawrence B. de Graaf, Kevin Mulroy, Quintard Taylor, 2014-07-01 From the 18th century African Americans like many others have migrated to California to seek fortunes or often the more modest goals of being able to find work, own a home, and raise a family relatively free of discrimination Not only their search but also its outcome is covered in *Seeking El Dorado* Whether they settled in major cities or smaller towns African Americans created institutions and organizations churches, social clubs, literary societies, fraternal orders, civil rights organizations that embodied the legacy of their past and the values they shared Blacks came in search of the same jobs as other Americans but the search often proved frustrating Throughout the 19th and 20th centuries African American leadership in the state consistently

focused on achieving racial justice The essays in this book speak of triumph and hardship success discrimination and disappointment Seeking El Dorado is a major contribution to black history and the history of the American West and will be of interest to both scholars and general readers *To Make Our World Anew* Robin D. G. Kelley, Earl Lewis, 2005-04-28

Written by the most prominent of the new generation of historians this superb volume offers the most up to date and authoritative account available of African American history ranging from the first Africans brought as slaves into the Americas to today's black filmmakers and politicians Here is a panoramic view of African American life rich in gripping first person accounts and short character sketches that invite readers to relive history as African Americans experienced it We begin in Africa with the growth of the slave trade and follow the forced migration of what is estimated to be between ten and twenty million people witnessing the terrible human cost of slavery in the colonies of England and Spain We read of the Haitian Revolution which ended victoriously in 1804 with the birth of the first independent black nation in the New World and of slave rebellions and resistance in the United States in the years leading up to the Civil War There are vivid accounts of the Civil War and Reconstruction years the backlash of notorious Jim Crow laws and mob lynchings and the founding of key black educational institutions The contributors also trace the migration of blacks to the major cities the birth of the Harlem Renaissance the hardships of the Great Depression and the service of African Americans in World War II the struggle for Civil Rights in the 1950s and 60s and the emergence of today's black middle class From Harriet Tubman and Frederick Douglass to Martin Luther King Jr and Louis Farrakhan *To Make Our World Anew* is an unforgettable portrait of a people
