enthusiasm and emerged as a prominent figure in the movement The second edition of this work includes an extensive introduction by Michael Mayer that places *Diary of a Sit In* in proper perspective in the movement for use of nonviolent direct action a chronology of events a new after word by the author and illustrations Almost All Aliens Paul Spickard,2009-05-07 *Almost All Aliens* offers a unique reinterpretation of immigration in the history of the United States Leaving behind the traditional melting pot model of immigrant assimilation Paul Spickard puts forward a fresh and provocative reconceptualization that embraces the multicultural reality of immigration that has always existed in the United States His astute study illustrates the complex relationship between ethnic identity and race slavery and colonial expansion Examining not only the lives of those who crossed the Atlantic but also those who crossed the Pacific the Caribbean and the North American Borderlands *Almost All Aliens* provides a distinct inclusive analysis of immigration and identity in the United States from 1600 until the present For additional information and classroom resources please visit the *Almost All Aliens* companion website at [www.routledge.com/textbooks/almostallaliens](http://www.routledge.com/textbooks/almostallaliens) Gender and the Social Gospel Wendy J. Deichmann Edwards,Carolyn De Swarte Gifford,2003 This collection of essays examines the central yet often overlooked role played by women in the formation of the social gospel movement in the late nineteenth and early twentieth centuries A practical theological response to the stark realities of poverty and injustice prevalent in turn of the century America the social gospel movement sought to apply the teachings of Jesus and the message of Christian salvation to society by striving to improve the lives of the impoverished and the disenfranchised The contributors to this volume set out to broaden our understanding of this radical movement by examining the lives of some of its passionate and vibrant female participants and the ways in which their involvement expanded and enriched the scope of its activity In addition to examining the lives of individual women the essays in *Gender and the Social Gospel* contain broader analyses of the gender and racial issues that have caused the histories of movements such as the social gospel to be viewed almost exclusively in terms of their male European American intellectual participants at the expense of the women African Americans and Canadians whose contributions were just as worthy of attention *Solidarity and Survival* Shelton Stromquist,1993-09 In *Solidarity and Survival* three generations of Iowa workers tell of their unrelenting efforts to create a labor movement in the coal mines and on the rails in packinghouses and farm equipment plants on construction sites and in hospital wards Drawing on nearly one thousand interviews collected over more than a decade by oral historians working for the Iowa Federation of Labor AFL CIO Shelton Stromquist presents the resonant voices of the men and women who defined a new prominent place for themselves in the lives of their communities and in the politics of their state *Building the Black City* Joe William Trotter Jr.,2024-10-29 A new way of seeing Black history the sweeping story of how American cities as we know them developed from the vision aspirations and actions of the Black poor *Building the Black City* shows how African Americans built and rebuilt thriving cities for themselves even as their unpaid and underpaid labor enriched the nation s economic political and cultural elites Covering an incredible

range of cities from the North to the South the East to the West Joe William Trotter Jr traces the growth of Black cities and political power from the preindustrial era to the present Trotter defines the Black city as a complicated socioeconomic spiritual political and spatial process unfolding time and again as Black communities carved out urban space against the violent backdrop of recurring assaults on their civil and human rights including the right to the city As we illuminate the destructive depths of racial capitalism and how Black people have shaped American culture politics and democracy Building the Black City reminds us that the case for reparations must also include a profound appreciation for the creativity and productivity of African Americans on their own behalf Cities covered Charleston Savannah New Orleans Washington D C Baltimore Richmond Birmingham Durham Atlanta Houston Miami Tulsa early New York New Amsterdam Philadelphia Boston Chicago Detroit Milwaukee Cleveland Cincinnati Pittsburgh San Francisco Bay Area Los Angeles and Seattle

The World War II Bond Campaign Lawrence R. Samuel, 2025-02-04 How America's greatest marketing triumph in World War II shaped race ethnicity and class in modern America The World War II Bond Campaign is a history of the World War II bond drive led by the federal government an effort called the most successful marketing operation in history By the war's end some 85 million Americans had spent 186 billion in an unprecedented outpouring of patriotism that contributed to the military victory and the prosperity of the following decades The FDR administration used bonds to raise capital to support the war and promote national unity within the context of the nation's increasingly pluralistic society as the melting pot theory was retired African Americans Euro Americans and labor union members enthusiastically bought bonds to express national loyalty but also to demonstrate racial ethnic or class pride a reflection of their dualistic or hyphenated identities Drawing on various primary sources The World War II Bond Campaign illustrates how the Treasury Department's multicultural marketing strategies tapped into Americans' aspirations alongside their patriotic impulses Citizens of all social and economic backgrounds eagerly responded to what can be seen as the selling of America making the subject an ideal lens to view national identity at a critical moment in the country's history The author contends that the drive's success helped pave the way for the emergence of both the civil rights movement and the vigorous consumer culture of the postwar years

**Gary, the Most American of All American Cities** S. Paul O'Hara, 2011-01-06 U S Steel created Gary Indiana The new steel plant and town built on the site in 1906 were at once a triumph of industrial capitalism and a bold experiment in urban planning Gary became the canvas onto which the American public projected its hopes and fears about modern industrial society In its prime Gary was known as the magic city steel's greatest achievement and an industrial utopia later it would be called the very model of urban decay S Paul O'Hara traces this stark reversal of fortune and reveals America's changing expectations He delivers a riveting account of the boom or bust mentality of American industrialism from the turn of the 20th century to the present day

**Swing, that Modern Sound** Kenneth J. Bindas, 2001 How America invented swing how swing energized America It was for stage bands for dancing and for a jiving mood of letting go Throughout the nation swing resounded with

the spirit of good times The swing era was America's segue into modernity But this pop genre for a decade America's favorite arose during the worst of times the Great Depression From its peak in the 1930s until bebop rhythm and blues and country swamped it after World War II swing defined an American generation and measured America's musical heartbeat In its heyday swing reached a mass audience of very disparate individuals and united them They perceived in the tempers and tempos of swing the very definition of modernity What fed the music And in turn what did the music feed What social structures encouraged swing's creation acceptance and popularity This book analyzes the cultural and historical significance of swing and tells how and why swing achieved its audience unified its fans defined its generation and after World War II fell into decline As it examines the role of race class and gender in the creation of this music this book tells how the genre came to symbolize the modernist revolution taking place in America The author was associate professor of history at Kent State University Trumbull Campus in Warren Ohio and the author of *All of This Music Belongs to the Nation* The WPA's Federal Music Project and American Society 1935-1939 *Time Longer Than Rope* Charles M. Payne, Adam Green, 2003-08 *Time Longer than Rope* unearths the ordinary roots of extraordinary change demonstrating the depth and breadth of black oppositional spirit and activity that preceded the civil rights movement The diversity of activism covered by this collection extends from tenant farmers labor reform campaign in the 1919 Elaine Arkansas massacre to Harry T Moore's leadership of a movement that registered 100,000 black Floridians years before Montgomery and from women's participation in the Garvey movement to the changing meaning of the Lincoln Memorial Concentrating on activist efforts in the South key themes emerge including the underappreciated importance of historical memory and community building the divisive impact of class and sexism and the shifting interplay between individual initiative and structural constraints Publisher description *The Great Migration in Historical Perspective* Joe William Trotter, 1991-11-22 The essays collected in this book represent the best of our present understanding of the African American migration which began in the early twentieth century Southern Historian As an overview of a field in transition this is a valuable and deeply thought provoking anthology Pennsylvania History provocative and informative Louisiana History The papers themselves are uniformly strong and read together cast interesting light upon one another Georgia Historical Quarterly well written and insightful essays Journal of American History This well researched and well documented collection represents the latest scholarship on the black migration Illinois Historical Journal an impressive balance of theory and historical content Indiana Magazine of History Legions of black Americans left the South to migrate to the jobs of the North from the meat packing plants of Chicago to the shipyards of Richmond California These essays analyze the role of African Americans in shaping their own geographical movement emphasizing the role of black kin friend and communal network Contributors include Darlene Clark Hine Peter Gottlieb James R Grossman Earl Lewis Shirley Ann Moore and Joe William Trotter Jr **Infectious Fear** Samuel Roberts, 2009 For most of the first half of the twentieth century tuberculosis ranked among the top three causes of mortality among urban

African Americans Often afflicting an entire family or large segments of a neighborhood the plague of TB was as mysterious as it      From Jim Crow to Civil Rights Michael J. Klarman,2004-02-05 A monumental investigation of the Supreme Court s rulings on race From Jim Crow To Civil Rights spells out in compelling detail the political and social context within which the Supreme Court Justices operate and the consequences of their decisions for American race relations In a highly provocative interpretation of the decision s connection to the civil rights movement Klarman argues that Brown was more important for mobilizing southern white opposition to racial change than for encouraging direct action protest Brown unquestioningly had a significant impact it brought race issues to public attention and it mobilized supporters of the ruling It also however energized the opposition In this authoritative account of constitutional law concerning race Michael Klarman details in the richest and most thorough discussion to date how and whether Supreme Court decisions do in fact matter      *2019 Annual Edition* New York History Review,2020-01-11 Annual edition of New York History Review      **Schools Betrayed** Kathryn M. Neckerman,2008-09-15 The problems commonly associated with inner city schools were not nearly as pervasive a century ago when black children in most northern cities attended school alongside white children In *Schools Betrayed* her innovative history of race and urban education Kathryn M Neckerman tells the story of how and why these schools came to serve black children so much worse than their white counterparts Focusing on Chicago public schools between 1900 and 1960 Neckerman compares the circumstances of blacks and white immigrants groups that had similarly little wealth and status yet came to gain vastly different benefits from their education Their divergent educational outcomes she contends stemmed from Chicago officials decision to deal with rising African American migration by segregating schools and denying black students equal resources And it deepened she shows because of techniques for managing academic failure that only reinforced inequality Ultimately these tactics eroded the legitimacy of the schools in Chicago s black community leaving educators unable to help their most disadvantaged students *Schools Betrayed* will be required reading for anyone who cares about urban education      **Block by Block** Amanda I. Seligman,2005-05-10 In the decades following World War II cities across the United States saw an influx of African American families into otherwise homogeneously white areas This racial transformation of urban neighborhoods led many whites to migrate to the suburbs producing the phenomenon commonly known as white flight In *Block by Block* Amanda I Seligman draws on the surprisingly understudied West Side communities of Chicago to shed new light on this story of postwar urban America Seligman s study reveals that the responses of white West Siders to racial changes occurring in their neighborhoods were both multifaceted and extensive She shows that despite rehabilitation efforts deterioration in these areas began long before the color of their inhabitants changed from white to black And ultimately the riots that erupted on Chicago s West Side and across the country in the mid 1960s stemmed not only from the tribulations specific to blacks in urban centers but also from the legacy of accumulated neglect after decades of white occupancy Seligman s careful and evenhanded account will be essential to understanding that the flight of whites to

the suburbs was the eventual result of a series of responses to transformations in Chicago's physical and social landscape occurring one block at a time

The debate on black civil rights in America Kevern Verney, 2024-01-16 This book examines the historiography of the African American freedom struggle from the 1890s to the present. It considers how and why the study of African American history developed from being a marginalized subject in American universities and colleges at the start of the twentieth century to become one of the most extensively researched fields in American history today. There is analysis of the changing scholarly interpretations of African American leaders from Booker T. Washington through to Barack Obama. The impact and significance of the leading civil rights organizations are assessed as well as the white segregationists who opposed them and the civil rights policies of presidential administrations from Woodrow Wilson to Donald Trump. The civil rights struggle is also discussed in the context of wider political, social and economic changes in the United States and developments in popular culture.

**Waterfront Workers of New Orleans** Eric Arnesen, 1994 During the nineteenth century, American and foreign travelers often found New Orleans a delightful exotic stop on their journeys; few failed to marvel at the riverfront, the center of the city's economic activity. But absent from the tourism industry's historical recollection is any reference to the immigrants or black migrants and their children who constituted the army of laborers along the riverfront and provided the essential human power to keep the cotton, sugar and other goods flowing. In examining one diverse group of workers, the 10,000 to 15,000 cotton screwmen, longshoremen, cotton and round freight teamsters, cotton yardmen, railroad freight handlers and Mississippi River roustabouts, this book focuses primarily on the workplace and the labor movement that emerged along the waterfront. From the preface.
