Black Nationalism In America:

Black Nationalism in American Politics and Thought Dean E. Robinson, 2001-09-03 Revisits the arguments supporting separate black statehood from the mid nineteenth century to the present Black Nationalism E. U. Essien-Udom, 1962 Author E U Essien Udom aims to the common conception that the Nation of Islam and by extension all Black Nationalist movements existed solely for political purposes and instead for poor urban blacks to attain a national identity a sense of ethnic consciousness and empowerment in a society that denied them these privileges The Rediscovery of Black Nationalism Theodore Draper, 1971 **Black Nationalism in America**, 1970 **Red Black and Green** Alphonso Pinkney, 1976-04-30 From the first slaves who rose up against their master in the early period of American history to the prominent modern figures such as Malcolm X Elijah Muhammed Eldridge Cleaver Red Black and Green traces the origins the struggles and the accomplishments of black nationalism Its broad discussion of the ideology of black nationalism and of the conditions that gave rise to this ideology provides the foundation for a thorough account of the black nationalist movement in the peak years of its momentum roughly the decade 1963 to 1973 The author deals both with specific milestones such as Marcus Garvey s Universal Negro Improvement Association in the early twentieth century and with the far reaching implications of the movement for the black community and for the United States as a whole He looks at the many facets of black nationalism revolutionary nationalism cultural nationalism religious nationalism and educational nationalism analyses the relationship between this movement and liberation movements in general *Dreaming Blackness* Melanye T. Price, 2009-06-01 A complex portrait of contemporary black political stances Black Nationalism is one of the oldest and most enduring ideological constructs developed by African Americans to make sense of their social and political worlds In *Dreaming Blackness* Melanye T Price explores the current understandings of Black Nationalism among African Americans providing a balanced and critical view of today s black political agenda She argues that Black Nationalism continues to enjoy moderate levels of support by most black citizens but has a more difficult time gaining a larger stronghold because of increasing diversity among blacks and a growing emphasis on individualism over collective struggle She shows that black interests are a dynamic negotiation among various interested groups and suggests that those differences are not just important for the black agenda but also for how African Americans think and dialogue about black political questions daily Using a mix of everyday talk and impressive statistical data to explain contemporary black opinions Price highlights the ways in which Black Nationalism works in a post racial society Ultimately Price offers a multilayered portrait of African American political opinions providing a new understanding of race specific ideological views and their impact on African Americans persuasively illustrating that Black Nationalism is an ideology that scholars and politicians should not dismiss
