A Message to My Black People - Stop Being the Nigga in America James Whitaker, 2017-03-23 A Message to My Black People Stop Being the Nigga in America first of all is not meant to anger or disparage anyone I wrote this book to help my people understand that we can do things a whole lot better as a people in order to earn and gain the respect as a people that we feel we deserve Our slave ancestors endured too much for too long for us not to respect and reflect upon that and to make ourselves better Our people and others devoted to the cause during the civil rights era fought tirelessly to earn equal rights and respect for our people for that to be disregarded I do not want our people to take certain rights and privileges for granted and not understand the full purpose behind them What I say in this book is how a lot of our people feel but are probably afraid to say especially in a public forum A lot of us may fall into certain categories mentioned in the book or know someone who does The goal is not to insult anyone but to bring to light that he or she or they can do things better to uplift our people and help remove all the negative stereotypes placed upon us by other races Please take the time and read each section thoroughly to get my full message If you agree with my points great If not try to really evaluate why and see if there is anything you can do to at least understand where I am coming from when I mention the things that I do It is time for us as a people to take responsibility of our actions and better ourselves improve our image and stop being the scapegoat for problems in America It is time to stop being the nigga in America

Sunshine Vitamin & Black People Jay Parker, Men of African American descent are at a significantly higher risk of developing prostate cancer than white men There are reasons why more black people are dying of prostate cancer Vitamin D The deficiency of it Black people need the sun more than white folks It takes less time under the sun for a white skin to manufacture all the

needed vitamin D It requires more time for the dark skin to warm up and even more time to start manufacturing vitamin D Black folks tend to shy away from the sun because the sun will make them darker That is a bad strategy When you walk through a park in the summer you see sunbathers I don't know about you but these sunbathers are mostly white folks who need the sun far less than black folks Ordinarily the people that are mostly in need of sunbathing while partially naked are the black skinned people This is because dark skin need the intense sunlight the most Black skin is a marvel It is black for a reason It evolved to be black so as to be able tap into the Sun and get those properties that will give you long life full of health stronger and biologically efficient The white skin needs the Sun but not that much More than fifteen minutes in the Sun without sunscreen and they will get burns and ultimately peels Black folks need it far more and they don't get scorched in fifteen minutes even without sunscreen But some Africans and other diaspora Africans avoid the Sun Is it not ironic that while some black folks are lightening up some white folks are darkening down They call it tanning and it does not come cheap either People of African descent living in cold climate can have a natural Sun protection factor SPF of up to 13 as compared to 3-4 for whites For equatorial and other hot weather blacks it is even better This advantage for African Americans and black immigrants can also be a disadvantage It is a double edged sword for black people not living in equatorial climate You just need to have proper information with which to turn the disadvantage into an advantage Vitamin D is getting a lot of attention lately even in medical circles Many people are having their vitamin D levels tested and are surprised to find out that they are low in this essential hormone What exactly is Vitamin D and why should you care about your Vitamin D levels How does sunscreen use contribute to deficiency in this important vitamin and what can we do to remedy the deficiency This book has been written in such a way that you will be able to absorb the contents in less than it takes to travel from one point to another in a bus or train ride
