### **Liminalities of Gender and Sexuality in Nineteenth-Century Iranian Photography** Staci Gem

Scheiwiller, 2016-12-01 Nineteenth century Iran was an ocularcentered society predicated on visibility and what was seen and unseen and photographs became liminal sites of desire that maneuvered betwixt and between various social spaces public private seen unseen accessible and forbidden thus mapping graphing and even transgressing those spaces especially in light of increasing modernization and global contact during the nineteenth and early twentieth centuries Of primary interest is how photographs negotiated and coded gender sexuality and desire becoming strategies of empowerment of domination of expression and of being seen Hence the photograph became a vehicle to traverse multiple locations that various gendered physical bodies could not and it was also the social and political relations that had preceded the photograph that determined those ideological spaces of im mobility In identifying these notions in photographs one may glean information about how modern Iran metamorphosed throughout its own long dur e or resisted those societal transformations as a result of modernization House Document ,1999 *Encyclopedia of nineteenth-century photography*

### **Remixing the Civil War**

Thomas J. Brown, 2011-11-10 In his book *The Legacy of the Civil War* Robert Penn Warren remarked that the Civil War is for the American imagination the great single event of our history This volume reconsiders whether fifty years later Warren s influential claim still holds true Essays from scholars in art literature and history examine how the Civil War is represented and interpreted in contemporary culture They look at the works of more than thirty artists and writers as well as multiple political movements to reveal the many and provocative ways in which Americans engage the Civil War today including chapters on the importance of Abraham Lincoln to Barack Obama s presidential campaign controversies over the Confederate flag and the proliferation of Juneteenth observances Special attention is paid to the works of African Americans and white southerners for whom the Civil War was a revolutionary and defining moment Such prominent scholars as Robert H Brinkmeyer Jr W Fitzhugh Brundage Kirk Savage and Elizabeth Young explore the works of major artists and less well known figures including Bobbie Ann Mason Kara Walker Dario Robleto and John Huddleston The authors repeatedly find that Americans today openly and playfully manipulate familiar images of the Civil War to explore the malleability of traditional social categories such as national identity gender and race With the sesquicentennial of the Civil War upon us this collection continues the conversation Warren began fifty years ago albeit in unorthodox and challenging ways to offer fresh and stimulating perspectives on the war s presence in the collective imagination of the nation **Popular Photography**
