Black Powder Guide:

Black Powder and How to Make It Randy W. Ellis, Leigh Ellis, 1988-01-01 For over a thousand years individuals made their own black powder but then the technology was lost to the Industrial Revolution This lost technology is now being brought back and made available once again No chemical formula has had a more profound effect on the history of mankind than that of black powder Even nuclear energy has not changed mankind to the extent that black powder has For hundreds of years the process of manufacturing black powder was a closely guarded secret Black powder was a luxury item which was affordable to only the most powerful nations and as such has radically changed the history of governments throughout the ages People have won their freedom from the tyranny of oppressive governments by the use of black powder in guns and cannon The Industrial Revolution would not have happened as it did without black powder for mining coal and iron Only black powder made possible the largest engineering projects of the 18th and early 19th centuries Now for the first time the manual Black Powder and How to Make It will show you how to make your own black powder The author will guide you through each step and operation He doesn't just explain how to make black powder but tells you the reason for each process why it is needed and all in easy to understand terms The result is that you will have all the knowledge at hand to make your own black powder for fireworks rockets blasting and especially for use in black powder firearms *Black Powder Guide* George C.
