**The Art of Connectivity** Melvin Markell McPhearson, 2011-06-24 The Art of Connectivity A Call to Unity Within a Diverse Society The Art of Connectivity is an attempt to unite the disconnected If we are connected holistically and know what we have been called or created to do then we may map out our lives and take the appropriate detours when obstacles are placed in our paths If we are living with undefined directions and focus we may become lost unstable or unable to move ahead when a detour or obstacle is placed in our paths Individually we must see and embrace positive visions We must avert negativity and recover holistically from obstacles in our paths and together we can will make a difference Connectivity is mapping your life backward and securing direction and re direction throughout your life journeys Connectivity is staying in your lane at times or crossing and eradicating negative and chaotic lines Connectivity is helping others after you have helped yourself or found help from the hands of another It is helping oneself and opening doors so others may be helped An essential focus of this writing is connecting and evangelizing the local community through Christian educational methodologies to eradicate minimize negativity and embrace unity This enlightenment will be accomplished through active participation in the learning experiences that causes one to delve within the teachings of those who have lived and died so all people can live together in unity while embracing theirs and others cultural values The positive counteractions are primarily the responsibility of the individual to accept and implement but it is also a shared responsibility This shared responsibility must be conveyed and put into action by any positive or holistic means necessary to assist the self negated to be connected and productive members of society Just as so many pull together and work together during a major disaster for the good for all concerned we must see the signs of destruction in others and we must help rescue those who desire to be rescued African Americans and all ethnicities must delve into the educational process and search for biblical and secular educational truth In finding truth we

will know without a doubt who we are and whence we came according to not only stories and fables which have been handed down from generation to generation but according to biblical and secular education as well That which leads one to disconnect ones self ones heritage and ones faith practices manifests itself amidst a psychological enslavement of ones mental factors Negative behavior is associated with a negative self identity Every dark and chaotic circumstance needs a torch bearer to give light to their dark situations if they are to make it successful in life We must move forward to unveil positive countermeasures to deter negative behaviors and actions Western psychologists are concerned with how each of us differs from the other The Ancients on the other hand looked at the essence of sameness When we realize it is in our sameness as children of God we are given a royal positioning as joint heirs with Christ We will love our Creator ourselves and others M M McPhearson June 2011

*Epic Encounters* Melani McAlister, 2005-07-05. *Epic Encounters* examines how popular culture has shaped the ways Americans define their interests in the Middle East. In this innovative book, now brought up to date to include 9/11 and the Iraq war, Melani McAlister argues that U.S. foreign policy, while grounded in material and military realities, is also developed in a cultural context. American understandings of the region are framed by narratives that draw on religious belief, news media accounts, and popular culture. This remarkable and pathbreaking book skillfully weaves lively and accessible readings of film, media, and music with a rigorous analysis of U.S. foreign policy, race politics, and religious history. The new chapter titled 9/11 and After, Snapshots on the Road to Empire, considers and brilliantly analyzes five images that have become iconic: 1. New York City firemen raising the American flag out of the rubble of the World Trade Center; 2. the televised image of Osama bin Laden; 3. Afghani women in burqas; 4. the statue of Saddam Hussein being toppled in Baghdad; and 5. the hooded and wired prisoner in Abu Ghraib. McAlister's singular achievement is to illuminate the contexts of these five images both at the time they were taken and as they relate to current events, an accomplishment all the more remarkable since, to paraphrase her new preface, we are today struggling to look backward at something that is still rushing ahead.

**Liberal Christianity and Women's Global Activism** Amanda Izzo, 2018-01-30. Religiously influenced social movements tend to be characterized as products of the conservative turn in Protestant and Catholic life in the latter part of the twentieth century, with women's mobilizations centering on defense of the traditional family. In *Liberal Christianity and Women's Global Activism*, Amanda L. Izzo argues that, contrary to this view, liberal wings of Christian churches have remained an instrumental presence in U.S. and transnational politics. Women have been at the forefront of such efforts. Focusing on the histories of two highly influential groups, the Young Women's Christian Association of the USA, an interdenominational Protestant organization, and the Maryknoll Sisters, a Roman Catholic religious order, Izzo offers new perspectives on the contributions of these women to transnational social movements, women's history, and religious studies as she traces the connections between turn-of-the-century Christian women's reform culture and liberal and left-wing religious social movements of the 1960s and 1970s. Izzo suggests that shared ethical, theological, and institutional underpinnings can transcend denominational divides and that strategies for social change often associated with secular feminism have ties to spiritually inspired social movements.

**The Vatican Versus Horror Movies** Matt Rogerson, 2025-02-14. Since public audiences were first introduced to the medium of film in 1895, the

Catholic Church has sought to impose its will on the distribution and exhibition of movies These activities include the fortnightly publication of the Segnalazioni Cinematografiche which passed Catholic moral judgment on every film released In this pamphlet and in other settings no set of filmmakers has invited the ire of the Vatican as much as those working in the genres of horror and exploitation At times filmmakers have responded in kind attacking the Catholic church directly and indirectly presenting clergy as outright antagonists and shining a light on the Vatican s crimes past and present including its collusion with fascism Translating the judgments of the Segnalazioni Cinematografiche into English for the first time and juxtaposing them with film content and social and historical context this book presents in full the cultural conflict between the Vatican and horror movies
