Donald L. Miller

Black Sunday Ploesti:

Black Sunday Michael Hill, Mike Hill, 1993 Detailed first person account of the famed low level B 24 raid over the Ploesti oilfields on August 1 1943 1 August 1943 - Today's Target Is Ploesti: A Departure From Doctrine Lieutenant Colonel Robert J. Modrovsky, 2014-08-15 The focus of this paper will be on the 1 August 1943 bombing raid on the Ploesti oil field and refineries by an American task force composed of bombardment groups of the Eighth and Ninth Air Forces The Ploesti raid stood apart from the rest of the war in the air The idea for it and the unusual tactics employed came from the top it generated from General Arnold s headquarters and was approved by President Roosevelt Winston Churchill called Ploesti the taproot of German might It was not a part of any particular campaign but was considered vital in itself It was painstakingly planned and executed relatively quickly by the best prepared and most experienced force available at the time It was also fought with unparalleled bravery the sole action of the war for which five Congressional Medals of Honor were awarded The purpose in examining Ploesti is to first gain a complete understanding of the events leading to the planning for the raid the raid itself and finally the impact on the Germans in its aftermath With this established the intent is to assess the raid while keeping one fascinating question in mind after building a doctrine for twenty years based on high altitude daylight precision bombing why in its first major bombing effort did the United States depart from doctrine and conduct a low level bombing mission on Ploesti the only low level bombing mission conducted in the war *Fortress Ploesti* Jay A. Stout, 2003-11-19 A comprehensive account of the World War II Allied bombing campaign to destroy pivotal Romanian oil refineries by the retired Marine Corps fighter pilot Unlike previous books on Ploesti Jay Stout goes well beyond the famous big and bloody raid of August 1943 and depicts the entire 1944 strategic campaign of twenty plus missions that all but knocked Ploesti out of the war and denied the German war machine the fuel and lubricants it so desperately needed Stout s account is also a launching point for the author s inquiries into many aspects of the American strategic bombing effort in World War II It delivers across the board Stout who served as a Marine F A 18 pilot in the First Gulf War asks questions about aviation combat history and technique that any modern combat pilot would be dying to ask He carries the ball far beyond the goal post set by all other Ploesti historians He has gone out of his way to describe the defenses throughout the campaign and he brings in the voices of Ploesti s defenders to complement the tales of Allied airmen who brought Ploesti to ruin He describes the role of the bombers as well as that of the fighters the anti-aircraft defenses even the technique of obscuring the Ploesti complex with smoke Stout s lucid presentation of complex issues at the tactical and strategic levels makes his narrative a must for those with a special interest in the attacks on Ploesti World War II History Magazine A History Of The B-24 Liberator in Over 300 Photographs, Stories And Analysis: Including The U.S. Army Air Forces in World War II: Combat Chronology 1941 - 1945 - American Air Power in WWII , 2015-07-28 PREFACE The chronology is concerned primarily with operations of the US Army Air Forces and its combat units between December 7 1941 and September 15 1945 It is designed as a companion reference

Ploesti 1943 Steven J. Zaloga,2019-10-31 Operation Tidal Wave was one of the boldest and most controversial air raids by the United States Army Air Forces USAAF At the time the Romanian Ploesti oil fields produced about a third of all Axis oil and was Germany s single most important fuel source In the summer of 1943 the USAAF decided to stage a major raid on Ploesti from air bases in Libya The resulting Operation Tidal Wave raid on 1 August 1943 was one of the costliest to date losing 53 aircraft about a third of the starting force Of the more than 150 bombers that took part in the raid only 88 B 24s returned to Libya 55 of which were damaged On the other hand of the 17 Medals of Honor awarded to US soldiers and airmen from Pearl Harbor in 1941 to D Day in 1944 5 were awarded to pilots of the Tidal Wave mission in recognition of their extraordinary performance Although undoubtedly bold and heroic the mission had questionable results Initial assessments argued that the mission caused 40% of the refinery capacity at Ploesti to be lost but subsequent studies concluded that the damage was quickly repaired and that output had exceeded August levels within a month This new study examines the raid in detail exploring the reasons why its dubious success came at such a high price Supported by maps diagrams and full colour artwork including battlescenes and bird s eye views this is the full story of the audacious Ploesti raid of 1943
