collections that have traditionally been marginalized in museums How can curators interpreters and collections managers make best use of these new opportunities To answer this question the author worked with sites including the Great Lakes Quilt Center at the Michigan State University Museum the Design Center at Philadelphia University the International Quilt Study Center and Museum at the University of Nebraska Lincoln and the WGBH Boston Media Library and Archives as well as user curated social sites online such as Tumblr and Polyvore to create four compelling case studies on the preservation access curation and interpretation of textile objects The book explores The nature of digital material culture The role of audience participation versus curatorial authority online Audience friendly collections metadata and tagging Visual rather than text based searching and cataloging The legality of ownership and access of museum collections online Gender equity in museums and archives This book is essential reading for anyone who cares for collects exhibits or interprets historic costume or textile collections but its broad implications for the future of museum work make it relevant for anyone with an interest in museum work online And because the focus of this volume is theory and praxis rather than specific technologies that are likely to become obsolete it will be staple on your bookshelf for years to come
