Black Triumvirate:

Black triumvirate Benjamin H. Levin, 1972 *Black Triumvirate* Charles Moran, 1957 *African American Army Officers of World War I* Adam P. Wilson, 2015-10-14 In April 1917 Congress approved President Woodrow Wilson's request to declare war on the Central Powers thrusting the United States into World War I with the rallying cry The world must be made safe for democracy Two months later 1 250 African American men college graduates businessmen doctors lawyers reverends and non commissioned officers volunteered to become the first blacks to receive officer training at Fort Des Moines Iowa Denied the full privileges and protections of democracy at home they prepared to defend it abroad in hopes that their service would be rewarded with equal citizenship at war's end This book tells the stories of these black American soldiers lives during training in combat and after their return home The author addresses issues of national and international racism and equality and discusses the Army's use of African American troops the creation of a segregated officer training camp the war's implications for civil rights in America and military duty as an obligation of citizenship *Out of the Crucible* Dennis C. Dickerson, 1986-01-01 This book examines in depth the century long struggle of Black laborers in the iron and steel industry of western Pennsylvania In the process it shows how the fate of these Black workers mirrors the contemporary predicament of the Black working class and the development of a chronically unemployed underclass in America's declining industrial centers Dickerson argues that persistent racial discrimination within heavy industry and the decline of major industries during the 1970s are key to understanding the social and economic situation of twentieth century urban Blacks Through a blend of historical research and contemporary interviews this study chronicles the struggle of Black steelworkers to gain equality in the industry and the setbacks suffered as American steelmaking succumbed to foreign competition and antiquated modes of production The plight of western Pennsylvania's Black steelworkers reflects that of Black laborers in Chicago Gary Detroit Cleveland Youngstown Birmingham and other major American cities where heavy industry once flourished **The Pussycat of Prizefighting** Andrew M. Kaye, 2007-04-01 In 1926 Atlanta's Theodore Tiger Flowers became the first African American boxer to win the world middleweight title The next year he was dead More than an account of Flowers's remarkable achievements the book is a penetrating analysis of the cultural and historical currents that defined the terms of Flowers's success Through the prism of prizefighting the author reveals the personal cost African Americans faced as they attempted to earn black respect while escaping white hostility *The Rise and Fall of Modern Black Leadership* Nelson, H. Viscount 'Berky', 2003-05-13 The Rise and Fall of Modern Black Leadership is designed to show how black leaders responded to the omnipresent racism of twentieth century America Although the efforts of black leadership eventually succeeded in eradicating de jure discrimination and brought the nation closer to realizing the idealized tenets of American democracy their achievements occurred at a cost to their influence as leaders of the entire race Synopses appear on the lives of the influential men and women who comprised the leadership cadre so that readers can understand the

motives underlying leadership goals and comprehend why the lofty objectives of the Civil Rights Movement remain unfulfilled

The Separate City Christopher Silver, John V. Moeser, 2014-07-15 A ground breaking collaborative study merging perspectives from history political science and urban planning The Separate City is a trenchant analysis of the development of the African American community in the urban South While similar in some respects to the racially defined ghettos of the North the districts in which southern blacks lived from the pre World War II era to the mid 1960s differed markedly from those of their northern counterparts The African American community in the South was and to some extent still is a physically expansive distinct and socially heterogeneous zone within the larger metropolis It found itself functioning both politically and economically as a separate city a city set apart from its predominantly white counterpart Within the separate city itself internal conflicts reflected a structural divide between an empowered black middle class and a larger group comprising the working class and the disadvantaged Even with these conflicts the South's new black leadership gained political control in many cities but it could not overcome the economic forces shaping the metropolis The persistence of a separate city admitted to the profound ineffectiveness of decades of struggle to eliminate the racial barriers with which southern urban leaders indeed all urban America continue to grapple today

Demonolatry: the Ambrogio tradition Frederick Cook, **Race and Politics in North Carolina, 1872-1901** Eric Anderson, 1980-12-01 Eric Anderson studies one of the most remarkable centers of black political influence in the late nineteenth century North Carolina's second congressional district From its creation in 1872 as a result of gerrymandering to its collapse in the extremism of 1900 the black second produced increasingly effective black leaders in public office from postmasters to prosecuting attorneys and congressmen Race and Politics in North Carolina illuminates the complex effects upon whites of the rise of black leadership both within the Republican party and in the larger community Although many white Republicans found it difficult to accept an increasing role for blacks they worked in acceptable if awkward partnership with Negro Republicans By 1900 strident appeals for white solidarity had cracked the fragile biracial unit of the Republican second district With the emergence of such Democratic leaders as Furnifold Simmons Josephus Daniels Charles B Aycock and Claude Kitchin second district men all a restrictive notion of the Negro's place in society had triumphed in North Carolina and the nation Eric Anderson's study examines regional and national history His record clarifies a confusing uneven period of promise from the emancipation to the disfranchisement of black Americans

The Southern Diaspora James N. Gregory, 2006-05-18 Between 1900 and the 1970s twenty million southerners migrated north and west Weaving together for the first time the histories of these black and white migrants James Gregory traces their paths and experiences in a comprehensive new study that demonstrates how this regional diaspora reshaped America by southernizing communities and transforming important cultural and political institutions Challenging the image of the migrants as helpless and poor Gregory shows how both black and white southerners used their new surroundings to become agents of change Combining personal stories with cultural political and demographic

analysis he argues that the migrants helped create both the modern civil rights movement and modern conservatism They spurred changes in American religion notably modern evangelical Protestantism and in popular culture including the development of blues jazz and country music In a sweeping account that pioneers new understandings of the impact of mass migrations Gregory recasts the history of twentieth century America He demonstrates that the southern diaspora was crucial to transformations in the relationship between American regions in the politics of race and class and in the roles of religion the media and culture Guide to the Hispanic American Historical Review, 1956-1975 Wilber A.
