Black Victorians Black Victoriana:

Black Victorians/Black Victoriana Gretchen Gerzina, 2003 *Black Victorians Black Victoriana* is a welcome attempt to correct the historical record. Although scholarship has given us a clear view of nineteenth century imperialism, colonialism and later immigration from the colonies, there has for far too long been a gap in our understanding of the lives of blacks in Victorian England. Without that understanding, it remains impossible to assess adequately the state of the black population in Britain today. Using a transatlantic lens, the contributors to this book restore black Victorians to the British national picture. They look not just at the ways blacks were represented in popular culture but also at their lives as they experienced them as workers, travelers, lecturers, performers and professionals. Dozens of period photographs bring these stories alive and literally give a face to the individual stories the book tells. The essays taken as a whole also highlight prevailing Victorian attitudes toward race by focusing on the ways in which empire building spawned a subculture of blackness consisting of caricature, exhibition, representation and scientific racism absorbed by society at large. This misrepresentation made it difficult to be both black and British while at the same time it helped to construct British identity as a whole. Covering many topics that detail the life of blacks during this period, *Black Victorians Black Victoriana* will be a landmark contribution to the emergent field of black history in England. **Black Neo-Victoriana**, 2021-11-22

Black Neo-Victoriana is the first book length study on contemporary re imaginations of Blackness in the long nineteenth century. Located at the intersections of postcolonial studies, Black studies and neo Victorian criticism, this interdisciplinary collection engages with the global trend to reimagine and rewrite Black Victorian subjectivities that have been continually marginalised in both historical and cultural discourses. Contributions cover a range of media from novels and drama to film, television and material culture and draw upon cultural formations such as Black fandom, Black dandyism or steamfunk. The book evidences how neo Victorian studies benefits from reading re imaginations of the long nineteenth century vis vis Black epistemologies which unhinge neo Victorianism's dominant spatial and temporal axes and reroute them to conceive of the neo Victorian through Blackness. **Dark**

Victorians Vanessa D. Dickerson, 2010-10-01 *Dark Victorians* illuminates the cross cultural influences between white Britons and black Americans during the Victorian age. In carefully analyzing literature and travel narratives by Ida B Wells, Harriet Martineau, Charles Dickens, Frederick Douglass, Thomas Carlyle, W E B Du Bois and others, Vanessa D. Dickerson reveals the profound political, racial and rhetorical exchanges between the groups. From the nineteenth century black nationalist David Walker who urged emigrating African Americans to turn to England to the twentieth century writer Maya Angelou who recalls how those she knew in her childhood aspired to Victorian ideas of conduct, black Americans have consistently embraced Victorian England. At a time when scholars of black studies are exploring the relations between diasporic blacks and postcolonialists are taking imperialism to task, Dickerson considers how Britons negotiated their support of African Americans with the controlling policies they used to govern a growing empire of often dark skinned peoples and how

philanthropic and abolitionist Victorian discourses influenced black identity prejudice and racism in America **Black Victorians** Manchester City Art Gallery, 2005 The black presence in Victorian art is greater than may be supposed Indeed the expanding art market in the nineteenth century was largely based on British prosperity resulting from imperial commerce and conquest It can therefore be said that Victorian art owes its existence to those who are relatively absent from its images Black Victorians brings together over 100 images depicting black figures to reveal the diversity of representation within nineteenth century visual culture and to foreground the forgotten presence of people of African descent in Victorian British art The range of images is broad from pictures of soldiers and sailors in Britain's armed forces and men and women in genre scenes to portraits of entertainers and political refugees and studies of artists models Notable individuals featured include actor Ira Aldridge Crimean heroine Mary Seacole the Queen's god daughter Sarah Bonetta Davies composer Samuel Coleridge Taylor and Abolitionist leader Frederick Douglass In addition to the fine arts of painting drawing and sculpture the selection includes photography popular illustration caricature and ephemera which provide a cultural context for the portraits and subject pictures as well as presenting black figures as members of British society in everyday settings Many major artists of the period are represented including Dante Gabriel Rossetti William Holman Hunt Edward Burne Jones Julia Margaret Cameron Edgar Degas and J A M Whistler Many works are virtually unknown and collected here for the first time Presenting an important opportunity to see and assess how black figures have been portrayed in British art Black Victorians is an original and fascinating survey of a subject that has been given little coverage to date It is essential reading for anyone wishing to seek a fresh perspective on a well documented period of British history Book jacket [Black Americans in Victorian Britain](#) Jeffrey Green, 2018-09-30 The first study of its kind exploring the experiences of some of the black American citizens who ventured forth to Britain in the nineteenth century With the arrival of black Americans in Britain during the Victorian era residents of villages towns and cities from Dorchester to Cambridge Belfast to Hull and Dumfries to Brighton heard about slavery and repression in the US and learned of the diverse ambitions and achievements of black Americans both at home and overseas Across the country numerous publications were sold to the curious and lectures were crowded Ultimately many of these refugees settled in Britain some worked as domestic servants others qualified as doctors wrote books taught or labored in factories and on ships while their youngsters went to school We might not think of black immigrants when we consider the population of Victorian Britain but this is a shameful oversight Their presence was important and their stories recorded here are both fascinating and powerful Black Americans in Victorian Britain documents the experience of refugees settlers and their families as well as pioneering entertainers in both minstrel shows and stage adaptations of the 1850s bestselling novel Uncle Tom's Cabin This is a timely and engaging new perspective on both Victorian and Afro American history [The Victorian Reinvention of Race](#) Edward Beasley, 2010-07-02 Not until the early nineteenth century would polygenetic and racialist theories win many adherents But by the middle of the nineteenth century

The Forms and Fictions of Victorian Art Instruction Kimberly J. Stern, 2025-09-30 The Victorian period gave rise to revelatory new approaches to art instruction A growing investment in standardized education the rise of exhibition culture and an expanding body of literature devoted to the teaching of art all contributed to very public and sometimes contentious debates about art pedagogy Surveying a range of instructional scenarios from the schoolroom to the Royal Academy *The Forms and Fictions of Victorian Art Instruction* reveals the creative and even radical methods nineteenth century writers brought to questions that inform educational debate to this day What is the role of art in the learning process Should art instruction provide students with practical skills or does art defy such instrumental concerns Above all is it possible for art instruction to impose structure on the learning process while also nurturing the creative autonomy art demands Through an interdisciplinary and deeply historical account of art instruction that incorporates fiction poetry art manuals and innovative hybrid genres this book contends that nineteenth century writers defended the educational value of art by abandoning expository writing in favor of highly experimental literary forms In this way *The Forms and Fictions of Victorian Art Instruction* supplies a new history of art teaching one that sheds light on the educational and cultural dilemmas we continue to face today

Narrating Empire and Domesticity in Neo-Victorian Fiction Marlana Tronicke, 2025-05-12 Fiction classified as neo Victorian has steadily emerged as a crucial mode of British cultural production It is no coincidence that this most recent Victorian renaissance is taking shape in a climate of widespread empire nostalgia with imperial colonial legacies being relegated to a distant elsewhere In its critical re visitations of the nineteenth century neo Victorianism has the potential to intervene in this often selective memory of Britain s imperial past Nevertheless systematic re readings of empire have so far played a comparatively minor role in neo Victorian scholarly debate This monograph addresses this lacuna by examining how neo Victorianism negotiates constructions of empire in conjunction with the domestic Drawing on a range of neo Victorian novels as well as their Victorian intertexts and bringing these into dialogue with postcolonial theory it asks how neo Victorian fiction engages with perpetuates or subverts Victorian imaginaries of urban British centres in opposition to remote imperial margins It examines why domesticity broadly understood as ideologically charged concepts of family home and belonging based on formations of gender sexuality and class can never be constituted independently of empire In addition the book raises questions regarding neo Victorianism s larger potentiality of narrating empire suggesting that it is precisely the disorienting moments that constitute a characteristically neo Victorian mode of exploring the entanglements of empire and domesticity

Samuel Coleridge-Taylor, a Musical Life Jeffrey Green, 2015-10-06 Green s study is more than a biography of an Anglo African composer The first comprehensive study of Coleridge Taylor s life for almost a century it reveals how class ridden Britain could embrace even the most unlikely of cultural icons

Black Lives in Britain Jeffrey Green, 2025-02-14 People of African descent in the British Isles have been widely overlooked in both British social history and the history of Black people Located in country towns as well as large cities their contributions spanned diverse roles and professions Some people of African descent became doctors and medal winning soldiers while others were trapped in slavery or sex work Black individuals participated in political and imperial reform as well as in groups that supported fellow Black communities Many migrated to Africa Australia Jamaica or New Zealand Drawing from contemporary newspapers historical archives the writings of descendants and veterans school and government files and memoirs this book offers an in depth study of the role of Black people in British history It examines how people of African descent were affected by cultural snobbery racism and imperialism and sheds light on the many other aspects of the varied lives of Black people in Britain from 1830 to 1940 Despite rarely being contextualized in their age people of color did not solely exist as stigmatized outsiders they participated in English society as teachers government officials tradespeople and in many other roles

Feminism and Empire Clare Midgley, 2007-09-28 Feminism and Empire establishes the foundational impact that Britain s position as leading imperial power had on the origins of modern western feminism Based on extensive new research this study exposes the intimate links

between debates on the woman question and the constitution of colonial discourse in order to highlight the centrality of empire to white middle class women's activism in Britain. The book begins by exploring the relationship between the construction of new knowledge about colonised others and the framing of debates on the woman question among advocates of women's rights and their evangelical opponents. Moving on to examine white middle class women's activism on imperial issues in Britain, topics include the anti-slavery boycott of Caribbean sugar, the campaign against widow burning in colonial India, and women's role in the foreign missionary movement prior to direct employment by the major missionary societies. Finally, Clare Midgley highlights how the organised feminist movement which emerged in the late 1850s linked promotion of female emigration to Britain's white settler colonies to a new ideal of independent English womanhood. This original work throws fascinating new light on the roots of later imperial feminism and contemporary debates concerning women's rights in an era of globalisation and neo-imperialism.

The Political Poetess Tricia Lootens, 2019-12-03. The Political Poetess challenges familiar accounts of the figure of the nineteenth-century Poetess, offering new readings of Poetess performance and criticism. In performing the Poetry of Woman, the mythic Poetess has long staked her claims as a creature of separate spheres, one exempt from emerging readings of nineteenth-century women's political poetics. Turning such assumptions on their heads, Tricia Lootens models a nineteenth-century domestic or private sphere whose imaginary, apolitical heart is also the heart of nation and empire, and as revisionist histories increasingly attest, is traumatized and haunted by histories of slavery. Setting aside late Victorian attempts to forget the unfulfilled sentimental promises of early antislavery victories, The Political Poetess restores Poetess performances like Julia Ward Howe's Battle Hymn of the Republic and Emma Lazarus's The New Colossus to view, and with them, the vitality of the Black Poetess within African American public life. Crossing boundaries of nation, period, and discipline to connect the dots of Poetess performance, Lootens demonstrates how new histories and ways of reading position poetic texts by Felicia Dorothea Hemans, Elizabeth Barrett Browning, Dinah Mulock Craik, George Eliot, and Frances E. W. Harper as convergence points for larger engagements ranging from Germaine de Staël to G. W. F. Hegel, Virginia Woolf, Elizabeth Bishop, Alice Walker, and beyond.

The Palgrave Handbook of Neo-Victorianism Brenda Ayres, Sarah E. Maier, 2024-01-20. This handbook offers analysis of diverse genres and media of neo-Victorianism, including film and television adaptations of Victorian texts, authors' life stories, graphic novels, and contemporary fiction set in the nineteenth century. Contextualized by Sarah E. Maier and Brenda Ayres in a comprehensive introduction, the collection describes current trends in neo-Victorian scholarship of novels, film, theatre, crime, empire, postcolonialism, Gothic, materiality, religion, and science, amongst others. A variety of scholars from around the world contribute to this volume by applying an assortment of theoretical approaches and interdisciplinary focus in their critique of a wide range of narratives from early neo-Victorian texts such as A. S. Byatt's *Possession* (1963) and Jean Rhys's *Wide Sargasso Sea* (1966) to recent steampunk, from musical theatre to slumming, and from *The Alienist* to queerness in their investigation of how this fiction reconstructs the past.

Representations of China in British Children's Fiction, 1851-1911

Shih-Wen Chen, 2016-04-08 In her extensively researched exploration of China in British children's literature Shih Wen Chen provides a sustained critique of the reductive dichotomies that have limited insight into the cultural and educative role these fictions played in disseminating ideas and knowledge about China. Chen considers a range of different genres and types of publication: travelogue, storybooks, historical novels, adventure stories, and periodicals, to demonstrate the diversity of images of China in the Victorian and Edwardian imagination. Turning a critical eye on popular and prolific writers such as Anne Bowman, William Dalton, Edwin Harcourt Burrage, Bessie Marchant, G. A. Henty, and Charles Gilson, Chen shows how Sino-British relations were influential in the representation of China in children's literature. Chen challenges the notion that nineteenth-century children's literature simply parroted the dominant ideologies of the age and offers insights into how attitudes towards children's relationship with knowledge changed over the course of the century. Her book provides a fresh context for understanding how China was constructed in the period from 1851 to 1911 and sheds light on British cultural history and the history and uses of children's literature.

The Tiger That Swallowed the Boy John Simons, 2012-11-30

This book asks an important question: If you were born in rural England in 1837 and died in 1901 and never travelled more than thirty miles in any direction, would you have seen a hippopotamus before you died? The answer is surprisingly yes. In fact, the roads of England were thronged with all manner of creatures. There were even exotic butterfly farms. Kangaroos hopped around the lawns of stately homes; tigers prowled the backstreets of the East End; a tapir terrorised the people of Rochdale; an angry cassowary pursued a Lord as he was out for his daily ride; a boa constrictor got loose in Tunbridge Wells. This book is the first to explore the full and surprising extent of the exotic animal trade in nineteenth-century England and its colonies. It combines deep and original scholarly research with a lively style aimed at the non-academic reader. It looks at zoological gardens, travelling menageries, private menageries, circuses, and natural history museums to show how exotic animals played a key part in the Imperial project and in the project to ensure that leisure was educational. It shows how this trade was intimately connected with the tides of Empire and how, as Germany rose, one area of competition in which Britain came off worst was the scramble for elephants.

The Victorian Era in Twenty-First Century Children's and Adolescent Literature and Culture

Sonya Sawyer Fritz, Sara K. Day, 2018-01-19 Victorian literature for audiences of all ages provides a broad foundation upon which to explore complex and evolving ideas about young people. In turn, this collection argues contemporary works for young people that draw on Victorian literature and culture ultimately reflect our own disruptions and upheavals, particularly as they relate to child and adolescent readers and our experiences of them. The essays therein suggest that we struggle now, as the Victorians did, then to assert a cohesive understanding of young readers and that this lack of cohesion is a result of, or a parallel to, the disruptions taking place on a larger, even global scale.
