Black Wallstreet A Lost Dream:

Before We Were Black Eric A. McMiller, 2008-11-11 This book adds the missing pages of history and restores the original first family to their rightful place by weaving together discoveries from the past thirty years with common knowledge about Africans and their descendants into a complete story Written in the twenty first century this book is the first of its kind that asks its reader to think outside the box The author takes on the challenge presented to Americans by Senator Barack Obama during his speech in Philadelphia on March 2008 when he addressed the issue of race relations in America *Before We Were Black* looks at old history from a different angle with a fresh pair of eyes The reader will be asked to participate and take a ride with the author suspend some of their own preconceived notions and for the moment look through the lens of the twenty first century The purpose of this book is not to accuse but to take a judicial approach where the facts complete the story *Before We Were Black* does not bog its reader down with demagoguery Instead the reader will feel like they are on an amusement park ridesometimes flying so high that it takes their breath away and other times falling so low that it brings them to tears but when the reader has finished the book they will look back and say I want to read it again A book of this kind comes along once every twenty years Its a book rendered in the same genre as *Why We Cant Wait* by Dr Martin Luther King Jr *As a Man Thinketh* by James Allen *The Fire Next Time* by James Baldwin and *The Greatest Salesman in the World* by Og Mandino All relatively small books yet they leave their reader with a life long impression This book is for everyone young and old and is a catalyst to the nations ongoing discussion about race relations The time has come for a new model on race relations Finally the full story about world history is presented are you ready **Black Business Secrets** Dante

Jimerson, 2011-08-26 This book starts with Theodore Roosevelt Spikes being raised as an African American male in the Jim Crow south It looks at the hostility intimidation and terrorism he faced along with his family and every African American in the apartheid south As a result of the climate of fear hatred lynching and mob rule Roosevelt and his family joined other African Americans in the Great Migration to northern cities He got involved in the Afro centric cultural renaissance of the 1920s the New Deal and community service Pre and Post World War II as Lodge Secretary of the Prince Hall Masons The book also looks at the history of the Prince Hall Masons as the conveyors of off world African civilizations innovations and secrets of the missing link This secret legacy is passed on through the deeds of their emulating Star Children who ascend to Renaissance Men and Women

Black Wallstreet Jay Jay Wilson, 1999 The Way Out Ted

Williams III, 2014-08-08 The African American community represents a paradox of sorts While collective success has been achieved in many areas African Americans still disproportionately suffer from a variety of social ills The residual effects from years of slavery and exclusion from the major institutions of American life are still trenchant Yet there is hope As we move forward into a new millennium our greatest answers can be found by exploring the past The Christian faith has served as a sustaining force that has been the backbone of this community for generations This faith along with a holistic commitment to family political participation education and entrepreneurship are the key to its future The Way Out tackles this issue with a mature voice that represents a juxtaposition of faith and public policy It rejects the culture of partisan gridlock racial division and religious cynicism by fostering a fresh and pluralistic discourse about the greatest solutions for our most pressing civic challenges From the experienced policymaker to the common citizen wanting to make a difference The Way Out provides tangible solutions through which we can all find ways to engage It stands firmly at the intersection of religion race politics and culture to light a clear path forward

Black Education Joyce E. King, 2006-04-21 This volume presents the findings

and recommendations of the American Educational Research Association Sponsored Commission on research in Black Education s investigation of the major issues that hinder the education of Black people in the U S other di **New Leadership into the 21st Century** Yahya ibn Shabazz, 2003-09-17 Imam W Deen Mohammed said in a public address words make people I believe that a word can be anything that leaves an impression on the minds of human society be it spoken acted out or whatever form it may take all creation is to be seen as a word According to scripture all creation is here as a result of a word spoken by G d so again we say words make people If we can go deeper and look at the mind of the human being and look at what kinds of words that are going into the mental makeup of a person we then can get a better picture of what forms the character of that person We must understand that our physical construction only acts as a vehicle that transports the mind which is the real person So just to view the physical makeup of a person is not really seeing that person at all It is the ideas the activities the words etc that comes from that persons mind that helps us to see the real person So

now we can see the importance of understanding a word like leader Leader a person that leads or has commanding influence or authority over others The director conductor or guide Ship the state condition or quality of something Art skill of office So now we see that not only do we still need leaders but also we must have leaders that have the best interest of the people at heart Leaders with the vision the wisdom knowledge and the integrity to know when to stay or change courses so that not only will they be able to get the people to the next level but will also give the people the knowledge so that they may guide themselves through the rough waters of society When we talk about leadership we should understand that for the subject to even come up there has to be something lacking in the minds of the people in term of where we as a people or as a society want to go and how we are going to reach the goals we have set for ourselves In todays society we hear some foolish people make the statement I dont need a leader Or I follow my self I make my own decisions We must understand that theres not a thought or an idea that we can think of that is our very own We are influenced by the environment that we live in We should also realize that this society is not hap hazard but rather very orchestrated Therefore many decisions that we make become life determining In todays society we are lead to think that all accomplishments have to be material With this kind of thinking we can easily see how a person can become so limited in terms of growth and development and a non contributor to the positive development of human society as a whole Many are influenced by the all pervasiveness of the media which contrary to what those in media would have us believe media is not art mimicking life but rather it helps to set the trends of life We see many people with lots of money especially those in the field of entertainment with little or no vision reach their peak in the early stages of their development and then suddenly crash as a result of the trials of life Still others who desire to have these material accomplishments although never rise to that level still they see it as their lifes goal and in their quest for it they use illegal methods which eventually leaves them dead in the streets or locked up behind bars for a good deal of their young lives Then there are those who continue to struggle to make ends meet and those who do manage to make it up the higher end of the economic ladder Too many of these tend to lose their identity because they have been lead to believe that the goal for the African American community is voting rights or integration and once these goals are achieved then the struggle is over As a consequence of this kind of thinking as African Americans we still see ourselves at the bottom of American society Not only here in America but around the world as well It is unfortunate
