the Age of Revolution and continue until the present Hence it brings new clarity to our understanding of such processes as acculturation and assimilation while deepening our understanding of interrelationships among racism violence and social identities This work is full of new insights fresh interpretations and highly nuanced analyses relevant to our thinking about territoriality citizenship migration and frontiers in a world that is increasingly globalized The author moves across boundaries of time and space in ways that result in an encyclopedic work that is an integrated and programmatic whole as well as one in which each chapter is a complete module of scholarship that is self contained
