Dimensions of Blackness Jas M. Sullivan, Jonathan Winburn, William E. Cross Jr., 2018-10-09 While the dynamics of racial oppression limit the range of attitudes blacks may construct and hold their basic humanity introduces additional attitudinal variance that is nearly boundless Rather than claim it is possible to conceptualize and measure every iteration of blackness modern social theorists such as Robert Sellers and William Cross Jr contend that one should systematically sample the unmanageable range of different identity frames found among blacks In *Dimensions of Blackness* the authors suggest there is no single solitary way to express black racial identity They move away from blackness as binary and instead reveal what happens when black racial identity is conceptualized with difference of opinion Using a multidimensional perspective this book explores whether black racial identity differences among blacks influence political attitudes and behavior Between

Citizens and the State Christopher P. Loss, 2012 This book tracks the dramatic outcomes of the federal government's growing involvement in higher education between World War I and the 1970s and the conservative backlash against that involvement from the 1980s onward Using cutting edge analysis Christopher Loss recovers higher education's central importance to the larger social and political history of the United States in the twentieth century and chronicles its transformation into a key mediating institution between citizens and the state Framed around the three major federal higher education policies of the twentieth century the 1944 GI Bill the 1958 National Defense Education Act and the 1965 Higher Education Act the book charts the federal government's various efforts to deploy education to ready citizens for the national bureaucratized and increasingly global world in which they lived Loss details the myriad ways in which academic leaders and students shaped and were shaped by the state's shifting political agenda as it moved from a preoccupation with economic security during the Great Depression to national security during World War II and the Cold War to securing the rights of African Americans women and other previously marginalized groups during the 1960s and 70s Along the way Loss reappraises the origins of higher education's current day diversity regime the growth of identity group politics and the privatization of citizenship at the close of the twentieth century At a time when people's faith in government and higher education is being sorely tested this book sheds new light on the close relations between American higher education and politics Leisure and the Politics

of the Environment Louise Mansfield, Belinda Wheaton, 2023-04-14 Within leisure studies there is a growing awareness and intensifying conscience about the potential environmental threat posed by the continued and unmanaged economic growth and development of sport tourism and leisure This collection brings together explicit discussions from a range of fields including environmental geography consumer research sociology and politics of the increasing relevance and complexities of environmental politics in leisure studies It provides a snapshot into the wide ranging debates on the politics of the environment and leisure sport tourism and serves as a starting point for further dialogue between leisure studies scholars and those in other disciplines where many of environmental debates have been advanced The volume will be of great value to scholars and practitioners in the areas of leisure studies conservation and local politics This book was published as a special issue of Leisure Studies **Translations on Sub-Saharan Africa** United States. Remembering Generations Ashraf H. A. Rushdy, 2003-01-14 Slavery is America's family secret a partially hidden phantom that continues to haunt our national imagination Remembering Generations explores how three contemporary African American writers artistically represent this notion in novels about the enduring effects of slavery on the descendants of slaves in the post civil rights era Focusing on Gayl Jones's Corregidora 1975 David Bradley's The Chaneysville Incident 1981 and Octavia Butler's Kindred 1979 Ashraf Rushdy situates these works in their cultural moment of production highlighting the ways in which they respond to contemporary debates about race and family Tracing the evolution of this literary form he considers such works as Edward Ball's Slaves in the Family 1998 in which descendants of slaveholders

expose the family secrets of their ancestors Remembering Generations examines how cultural works contribute to social debates how a particular representational form emerges out of a specific historical epoch and how some contemporary intellectuals meditate on the issue of historical responsibility of recognizing that the slave past continues to exert an influence on contemporary American society [Catalog of Copyright Entries.
