Black and Multiracial Politics in America Yvette Marie Alex-Assensoh, Lawrence J. Hanks, 2000-11 Explores the intersections of race and ethnicity that stem from recent patterns of American immigration Essays focus on the politics of African Americans Latinos Asians Africans and to a lesser extent Whites with material structured around themes of political incorporation racial polarization political and media institutions political behaviors and race consciousness and gender Many essays use the scholarship on black politics as a point of departure for discussing the emerging political strategies of newer immigrant groups The editors teach political science at Indiana University c Book News Inc *Blacks, Latinos, and Asians in Urban America* James Jennings, 1994-09-30 This volume of essays by scholars and activists focuses on the political and social relations between blacks Latinos and Asians in key urban centers Collectively the essays examine the particular status of relations between these groups the reasons for conflict or consensus and the prospects for future relations While a number of cities are examined the book focuses on Los Angeles Washington D C and Miami as particularly instructive case studies Urban eruptions in these cities are examined in terms of the nature of political relations between blacks Latinos and Asians These essays provide analyses within a sociohistorical context and offer the kind of political activism that might ensure consensus rather than conflict between these groups in urban America As Luis Fuentes observes This book should be read by all activists and scholars interested in changing the face of urban and ultimately national America for if communities of color can come together for progressive political action then it will only be a matter of time before America finally begins to look like and act like what it has been preaching for generations **People and Politics in Urban America, Second Edition** Robert W. Kweit, Mary G. Kweit, 2013-11-26 First Published in 1998 Approximately 75 percent of Americans live in cities and surrounding suburbs and the characteristics of those cities inescapably affect the quality of their lives This book examines the extent to which these Americans use the political process to control the characteristics of life in their metropolises In addition this second edition revision places great emphasis on the role of political leaders while recognising the interdependence between those leaders and various interests in the city Race and Representation Georgia A. Persons, 2017-09-04 The National Political Science Review is the official publication of the National Conference of Black Political Scientists This series now entering its sixth volume includes significant scholarly research reflecting the diverse interests of scholars from various backgrounds who use different models approaches and methodologies The central focus is on politics and policies that advantage or disadvantage groups because of race ethnicity gender and other major variables Race and Representation is anchored by a symposium that focuses on efforts to enhance representation of African Americans in legislative bodies under the authority of the historic Voting Rights Act of 1965 and on recent court challenges to the constitutionality of redistricting plans drawn under that act The chapters constitute an extension of an ongoing and protracted highly charged public debate In her introduction Georgia A Persons discusses how recent Supreme Court rulings

such as in *Shaw v Reno*, *Miller v Johnson* and *Bush v Vera* have significantly redefined the meaning and permissible parameters of the Voting Rights Act. She affirms that they have also strongly posited albeit somewhat indirectly a legal meaning of representation that is at variance with the more broadly philosophical meaning of representation grounded in the ideal of enhancing equality among different groups in a society. The articles in *Race and Representation* are refreshingly informative. They include case studies written by political scientists who became involved directly with events surrounding the theme of this volume. A new section, *Reflections*, is introduced; it will be reserved for commentary and analysis of an issue that captures the political spirit of the times. In the inaugural contribution, J. Owens Smith reflects on the assault on liberal philosophy as a foundation for civil rights claims and offers an alternative philosophical prism for viewing and justifying such claims. This volume is essential.

**People & Politics in Urban America** Robert W. Kweir, Mary G. Kweir, 2013-10-31 This revised textbook for courses on urban politics challenges the notion that the field is dominated by political economy, showing that despite the undeniable importance of economic issues, citizens do play a significant part in urban politics.

Latino Politics in Massachusetts Carol Hardy-Fanta, Jeffrey Gerson, 2014-01-14 This collection of original essays explores the major challenges to Latino political representation in cities where Latino populations do not make up the majority of the population and therefore cannot rely on sheer numbers to gain representation.

*Latino Politics en Ciencia Política* Tony Affigne, Evelyn Hu-DeHart, Marion Orr, 2014 More than 53 million Latinos now constitute the largest fastest growing and most diverse minority group in the United States and the nation's political future may well be shaped by Latinos continuing political incorporation. In the 2012 election, Latinos proved to be a critical voting bloc in both Presidential and Congressional races; this demographic will only become more important in future American elections. Using new evidence from the largest ever scientific survey addressed exclusively to Latino/Hispanic respondents, *Latino Politics en Ciencia Política* explores political diversity within the Latino community, considering how intra-community differences influence political behavior and policy preferences. The editors and contributors, all noted scholars of race and politics, examine key issues of Latino politics in the contemporary United States: Latino identities, *latinidad*, transnationalism, acculturation, political community, and racial consciousness. The book contextualizes today's research within the history of Latino political studies, from the field's beginnings to the present, explaining how systematic analysis of Latino political behavior has over time become integral to the study of political science. *Latino Politics en Ciencia Política* is thus an ideal text for learning both the state of the field today and key dimensions of Latino political attitudes.

Cities, Politics, and Policy John P. Pelissero, 2002-10-01 Just because Milwaukee isn't Manhattan doesn't mean that those urban centers face completely unique challenges. Through effective comparative analysis of key issues in urban studies—how city managers share power with mayors, how spending policies affect economic development, and how school politics impact education policy—students can clearly see how scholars discern patterns and formulate conclusions to offer theoretical and practical insights from which all cities can benefit.

Pelissero brings together an impressive team of contributors to explore variation among cities through case studies and cross sectional analyses Each author synthesizes the field s seminal literature while explaining how urban leaders and their constituents grapple with everything from city council politics to conflict and cooperation among minority groups Authors identify both key trends and gaps in the scholarship and help set the research agenda for the years to come Lively case material will hook your students while the accessible presentation of empirical evidence make this reader the comprehensive and sophisticated text you demand

**Dividing the Isthmus** Ana Patricia Rodríguez, 2009-08-17 In 1899 the United Fruit Company UFCO was officially incorporated in Boston Massachusetts beginning an era of economic diplomatic and military interventions in Central America This event marked the inception of the struggle for economic political and cultural autonomy in Central America as well as an era of homegrown inequities injustices and impunities to which Central Americans have responded in creative and critical ways This juncture also set the conditions for the creation of the Transisthmus a material cultural and symbolic site of vast intersections of people products and narratives Taking 1899 as her point of departure Ana Patricia Rodríguez offers a comprehensive comparative and meticulously researched book covering more than one hundred years between 1899 and 2007 of modern cultural and literary

production and modern empire building in Central America She examines the grand narratives of anti imperialism revolution subalternity globalization impunity transnational migration and diaspora as well as other discursive historical and material configurations of the region beyond its geophysical and political confines Focusing in particular on how the material productions and symbolic tropes of cacao coffee indigo bananas canals waste and transmigrant labor have shaped the transisthmian cultural and literary imaginaries Rodr guez develops new methodological approaches for studying cultural production in Central America and its diasporas Monumental in scope and relentlessly impassioned this work offers new critical readings of Central American narratives and contributes to the growing field of Central American studies

*Globalization and the Decolonial Option* Walter D. Mignolo, Arturo Escobar, 2013-10-18 This is the first book in English profiling the work of a research collective that evolved around the notion of coloniality understood as the hidden agenda and the darker side of modernity and whose members are based in South America and the United States The project called for an understanding of modernity not from modernity itself but from its darker side coloniality and proposes the de colonization of knowledge as an epistemological restitution with political and ethical implications Epistemic decolonization or de coloniality becomes the horizon to imagine and act toward global futures in which the notion of a political enemy is replaced by intercultural communication and towards an other rationality that puts life first and that places institutions at its service rather than the other way around The volume is profoundly inter and trans disciplinary with authors writing from many intellectual transdisciplinary and institutional spaces This book was published as a special issue of Cultural Studies
