The Promise of Representative Bureaucracy: Diversity and Responsiveness in a Government Agency Sally Coleman Selden, 2015-02-24 This text on representative bureaucracy covers topics such as bureaucracy as a representative institution, bureaucratic power and the dilemma of administrative responsibility and representative bureaucracy and the potential for reconciling bureaucracy and democracy.

The Segregated Origins of Social Security Mary Poole, 2006-12-08 The relationship between welfare and racial inequality has long been understood as a fight between liberal and conservative forces. In *The Segregated Origins of Social Security*, Mary Poole challenges that basic assumption. Meticulously reconstructing the scenes politicking that gave birth to the 1935 Social Security Act, Poole demonstrates that segregation was built into the very foundation of the welfare state because white policy makers both liberal and conservative shared an interest in preserving white race privilege. Although northern white liberals were theoretically sympathetic to the plight of African Americans, Poole says their primary aim was to save the American economy by salvaging the pride of America's essential white male industrial workers. The liberal framers of the Social Security Act elevated the status of Unemployment Insurance and Social Security and the white workers they were designed to serve by differentiating them from welfare programs which served black workers. Revising the standard story of the racialized politics of Roosevelt's New Deal, Poole's arguments also reshape our understanding of the role of public policy in race relations in the twentieth century, laying bare the assumptions that must be challenged if we hope to put an end to racial inequality in the twenty-first.

Politicization as a Legacy of the War on Poverty Biliana C. S. Ambrecht, 1973 **Public Administration** Lawrence C. Howard, Jerome B. McKinney, 1998-03-10 This is a complete and up to date revision of the classic text for public administration implementing the rule of law as a fundamental issue in American democracy in pursuit of the common interest It presents public administration as a tension between the necessary exercise of power and the search for responsiveness to achieve maximum accountability from public servants The authors have initiated a new approach to the study of public administration by focusing on middle and lower level managers These are positions that most public servants will occupy for the bulk of their professional careers The book recognizes that most of the administration is in field offices in state and local government and in cooperation with the private and nonprofit sectors It then focuses on power and its potential for influencing the behavior of the bureaucracy to perform its goal oriented and balancing functions in a pluralistic open system This leads to the relationship between theories about administration and the actual practice and how best results imperative of accountability are achieved in the increasingly globalized environment

Black Studies, 1977 *Problems and Methods in the Study of Politics* Ian Shapiro, Rogers M. Smith, Tarek E. Masoud, 2004-09-09 The study of politics seems endlessly beset by debates about method At the core of these debates is a single unifying concern should political scientists view themselves primarily as scientists developing ever more sophisticated tools and studying only those phenomena to which such tools may fruitfully be applied Or should they instead try to illuminate the large complicated untidy problems thrown up in the world even if the chance to offer definitive explanations is low Is there necessarily a tension between these two endeavours Are some domains of political inquiry more amenable to the building up of reliable scientific knowledge than others and if so how should we deploy our efforts In this book some of the world's most prominent students of politics offer original discussions of these pressing questions eschewing narrow methodological diatribes to explore what political science is and how political scientists should aspire to do their work
