Hearts and Minds Michael Bibby,1996 The early

1960s to the mid 1970s was one of the most turbulent periods in American history. The U.S. military was engaged in its longest costliest overseas conflict while the home front was torn apart by riots, protests, and social activism. In the midst of these upheavals, an underground and countercultural press emerged, giving activists an extraordinary forum for a range of imaginative expressions. Poetry held a prominent place in this alternative media. The poem was widely viewed by activists as an inherently anti-establishment form of free expression, and poets were often in the vanguards of political activism. *Hearts and Minds* is the first book-length study of the poems of the Black Liberation, Women's Liberation, and GI Resistance movements during the Vietnam era. Drawing on recent cultural and literary theories, Bibby investigates the significance of images, tropes, and symbols of human bodies in activist poetry. Many key political slogans of the period, "black is beautiful" and "off our backs, on our backs," foreground the body. Bibby demonstrates that figurations of bodies marked important sites of social and political struggle. Although poetry played such an important role in Vietnam-era activism, literary criticism has largely ignored most of this literature. Bibby recuperates the cultural-historical importance of Vietnam-era activist poetry, highlighting both its relevant contexts and revealing how it engaged political and social struggles that continue to motivate contemporary history. Arguing for the need to read cultural history through these underground texts, *Hearts and Minds* offers new grounds for understanding the recent history of American poetry and the role poetry has played as a medium of imaginative political expression.

Black World/Negro Digest, 1973-01. Founded in 1943, *Negro Digest* (later *Black World*) was the publication that launched Johnson Publishing. During the most turbulent years of the civil rights movement, *Negro Digest* / *Black World* served as a critical vehicle for political thought for supporters of the movement.

African American Nationalist Literature of the 1960s. Sandra Hollin Flowers, 2019-09-25. Bringing together political theory and literary works, this study recreates the political climate which made the 1960s an unforgettable era for young black Americans. A chapter on "The Many Shades of Black Nationalism" for instance, explains why black nationalism is known by more than a dozen different names, how events in Africa influenced black nationalism in America, why Malcolm X's death had a greater impact on nationalism than did his life, and how the United States government unwittingly became nationalism's ally. Another chapter explores the bitter feud between the dominant factions of the 1960s: cultural and revolutionary nationalists. This feud erupted in both verbal and armed warfare and generated an abundance of political theory and literary works, much of which is out of circulation but is examined in the study. Nationalist poetry, theater, and fiction are each treated in separate chapters which exemplify the aesthetic and political concerns of this memorable period in American history and letters. Aside from its unique combination of artistic and political works, what makes this book important is the current revival of nationalist sentiment in African American life and arts. Though this revival is closely identified with the nationalism of the 1960s, it lacks the focus of that period. This study explains what gave the nationalism of the 1960s its focus, how that focus was expressed in art forms, and why 1960s nationalism continues to influence the African American identity and will probably do so well into the twenty-first century.
