The WPA ex slave narratives describe that history in remarkable detail. Despite their inestimable value, most of the ex slave narratives remained unpublished until the late 1970s, being almost unknown except to folklorists. Even after publication, the collection's sheer size was a barrier. Quoting extensively from the narratives and exhaustively annotated and indexed, this volume provides readers with detailed explanations and full references for every musical item or tradition featured in the ex slave narratives. John Minton covers instrumental music and social dancing, spirituals and hymns, singing games and lullabies, ring plays and reels, work songs, minstrel songs, ballads, war songs, slavery laments, and much, much more. Written for both specialists and general readers, with 134 illustrations, the book also offers a general overview of the ex slave narratives, their contents, creation, and relation to the field of African American folklore as a whole.

**Popular Culture in the United States** Peter Freese, Michael Porsche, 1994. **The New Politics of the Textbook** Heather Hickman, Brad J. Porfilio, 2012-10-13. In an age of unprecedented corporate and political control over life inside of educational institutions, this book provides a needed intervention to investigate how the economic and political elite use traditional artifacts in K-16 schools to perpetuate their interests at the expense of minoritized social groups. The contributors provide a comprehensive examination of how textbooks, the most dominant cultural force in which corporations and political leaders impact the schooling curricula, shape students' thoughts and behavior, perpetuate power in dominant groups, and trivialize social groups who are oppressed on the structural axes of race, class, gender, sexuality, and disability. Several contributors also generate critical insight into how power shapes the production of textbooks and evaluate whether textbooks still perpetuate dominant Western narratives that normalize and privilege patriotism, militarism, consumerism, White supremacy, heterosexism, rugged individualism, technology, and a positivistic conception of the world. Finally, the book highlights several textbooks that challenge readers to rethink their stereotypical views of the Other, to reflect upon the constitutive forces causing oppression in schools and in the wider society, and to reflect upon how to challenge corporate and political dominance over knowledge production.
