*The Battle for George Square 1919* Gordon Barclay, Louise Heren, 2025-10-16 The Battle of George Square a riot during the Forty Hours Strike in Glasgow on 31 January 1919 is routinely claimed to be one of the most iconic events in Scottish working class history It is also the most mythologised For a century the narrative created for the defence of the strike leaders charged with incitement to riot an unprovoked attack on a peaceful crowd as an act of oppression has been repeated uncritically by academic and popular writers Mythology has almost completely replaced reality most notably in the Scottish education system where educational materials have been described by two prominent historians as arrant propaganda and a perversion of history Now Gordon Barclay and Louise Heren have undertaken a meticulous examination of the contemporary evidence to tell a more complex story In doing so they examine the ways writers have failed to subject the celebratory mythology of this iconic event to adequate scrutiny They document the creation of the mythology from the writings of the strike leaders to those who use the mythology of the Battle to promote their own politics They also examine the legal basis and reality of the military deployment to Glasgow in the aftermath of the riot

*English Literature* Ezekiel Leon, 2019-01-28 The book methodically graphs the direction of the English novel from its rise as the chief scholarly class in the mid twentieth century to its mid twenty first century status of unpredictable greatness in new media conditions Precise parts address The English Novel as a Distinctly Modern Genre The Novel in the Economy Genres Gender performativity masculinities woman's rights eccentric and The Burden of Representation class and ethnicity Broadened contextualized close readings of more than twenty key writings from Joseph Conrad's Heart of Darkness 1899 to Tom McCarthy's Satin Island 2015 supplement the methodical approach and energize future research by giving reviews of gathering and hypothetical points of view Expanding specialization inside the teach of

English and American Studies has moved the concentration of insightful dialog toward hypothetical reflection and social settings. These improvements have profited the train in more courses than one yet they have likewise brought about a specific disregard of close perusing. Therefore understudies and scientists inspired by such material are compelled to swing to grant from the 1970s quite a bit of which depends on dated methodological and ideological presuppositions. The handbook means to fill this hole by giving new readings of writings that figure unmistakably in the writing classroom and in academic level headed discussion. aE from James The Ambassadors to McCarthy s The Road

**Christianity and the African Imagination**

David Maxwell, Ingrid Lawrie, 2022-08-08 During the twentieth century Christendom shifted its centre of gravity to the Southern Hemisphere Africa becoming the most significant area of church growth. This volume explores Christianity s advance across the continent and its capturing of the African imagination. From the medieval Catholic Kingdom of Kongo to a transnational Pentecostal movement in post colonial Zimbabwe the chapters explore how African agents priests and prophets martyrs and missionaries evangelists and catechists have seized Christianity and made it theirs. Emphasizing popular religion the book shows how the Christian ideas and texts practices and symbols which have been adapted by Africans help them accept existential passions and empower them through faith to deal with material concerns for health and wealth and to overcome evil.
