Paterson, 2009-05-21 This book is a synopsis of three monotheistic faiths Judaism Christianity and Islam their common areas and their differences The authors desire To show why she believes and to also prove that of the three main faiths existing in the world today Christianity a true and right personal relationship with Christ is the only vehicle to God It is only through Jesus Christ Gods Son that we find our way to Him John 14 6 **Atlas of Jewish History** Dan Cohn-Sherbok, 2013-01-11 In this illuminating history Dan Cohn Sherbok traces the development of Jewish history from ancient times to the present day Containing over 100 maps and 30 photographs this is a comprehensive atlas of Jewish history designed for students and the general reader It is ideally suited for those courses in Jewish or Biblical Studies serving as a handy reference guide as well as a textbook **Judaism** Dan Cohn-Sherbok, 2003-09-02 This all encompassing textbook is an unrivalled guide to the history belief and practice of Judaism written by a scholar and rabbi who is also an experienced university teacher *Judaica*, 2001 An annotated list of books of Jewish interest suitable for an academic Library [The Jewish Connection](#) Phyllis Appel, 2013-01-21 Over the centuries the Jewish people have been persecuted and had their beliefs tested in a variety of ways The more than fifty individuals profiled in The Jewish Connection are but a few who overcame challenges to make contributions to society The reader will gain an appreciation of Jewish history and culture by reading the stories of scientists inventors athletes entertainers and others The more than fifty individuals profiled in The Jewish Connection are a small representation of those who overcame challenges to make important contributions The reader will learn the role these men and women played in the American Revolution World Wars I II the Civil War the Women s Rights Movement labor unions and a great deal more **Violence, Utopia and the Kingdom of God** George Aichele, Tina Pippin, 2002-01-31 This controversial book explores the presence of the fantastic in Biblical and related texts and the influence of Biblical traditions on contemporary fantasy writing cinema music and art The contributors

apply a variety of critical concepts and methods from the field of fantasy studies including the theories of Tolkien Todorov Rosemary Jackson and Jack Zipes to Biblical texts and challenge theological suppositions regarding the texts which take refuge in science or historiography Violence Utopia and the Kingdom of God presents a provocative and arresting new analysis of Biblical texts which draws on the most recent critical approaches to provide a unique study of the Biblical narrative

International Handbook of Inter-religious Education Kath Engebretson, Marian de Souza, Gloria Durka, Liam Gearon, 2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development of this Handbook rests on the further assumption that interreligious education has an important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893 This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity

Literary Secularism Amardeep Singh, 2008-12-18 *Literary Secularism* Religion and Modernity in Twentieth Century Fiction shows the path to secularization in the modern novel in comparative perspective Writers as diverse as George Eliot James Joyce Salman Rushdie Orhan Pamuk Taslima Nasrin and James Wood have all struggled with religious orthodoxy in their personal lives and are some of the most important and representative secular writers in the modern world canon But their novels which are far more than mere anti religious manifestos directly reflect the continued power of religious communities and institutions in the modern world While religion is in a very real sense displaced from epistemological centrality in modernity all of these writers suggest that religious texts rituals and communities have a force that is in George Eliot's words still throbbing in modern life In a series of close readings *Literary Secularism* argues that the intimate often deeply ambivalent representation of religion is a key feature of modern writing and is central to the larger intellectual and historical project of modernity *Literary Secularism* is then a complex literary ethos which impinges as much on style language and novelistic form as on theme The close readings here of novels such as George Eliot's *Daniel Deronda* Rabindranath Tagore's *Gora* James Joyce's *Ulysses* and Salman Rushdie's *The Satanic Verses* all hinge on the ambiguity of religious and secular discourses In some cases the ambiguity is expressed through the affective and embodied experience of the protagonists whose private subjectivity often conflicts with their public identities The conflict between present and

private is also explored in a dedicated chapter on secularism and feminism in India as well as with regard to the global crisis of secularism that has emerged following the terrorist attacks of 9 11 While the particular experiences of the various narratives vary somewhat from author to author all of the authors in this study are interested in defining a way of being secular that no sociological or ideological formula can fully describe Correspondingly while works of literature are certainly artifacts marking key moments in the history of secularisation literature by itself doesn't produce secularism in either the cultural or the political context In arguing for the literary as a historically specific social and cultural mode of secularity Literary Secularism offers a unique perspective on the problem of secularisation that may be of interest to fields such as literary criticism religious studies the sociology of religion and political theory [Judaica Reference Sources](#) Charles Cutter, 2004-02-28 A recipient of the Outstanding Reference Award from the Association of Jewish Librarians in its earlier edition this updated edition of [Judaica Reference Sources](#) maintains its editorial excellence while revising and expanding coverage for the new century Virtually every aspect of Jewish life knowledge history culture religion and contemporary issues is covered in this annotated bibliographic guide A critical collection development tool for college university public school and synagogue libraries [Judaica Reference Sources](#) provides entries for over 1 000 reference works as well as a selective list of related Web sites in English French German Yiddish and Hebrew Works published since 1970 are emphasized Unique in providing expert guidance to [Judaica](#) material for the librarian the layperson the student and the researcher this reference guide is a versatile tool that will fulfill your every need for [Judaica](#) material [The Impossibility of Religious Freedom](#) Winnifred Fallers Sullivan, 2018-04-24 The Constitution may guarantee it But religious freedom in America is in fact impossible So argues this timely and iconoclastic work by law and religion scholar Winnifred Sullivan Sullivan uses as the backdrop for the book the trial of Warner vs Boca Raton a recent case concerning the laws that protect the free exercise of religion in America The trial for which the author served as an expert witness concerned regulations banning certain memorials from a multiconfessional nondenominational cemetery in Boca Raton Florida The book portrays the unsuccessful struggle of Catholic Protestant and Jewish families in Boca Raton to preserve the practice of placing such religious artifacts as crosses and stars of David on the graves of the city owned burial ground Sullivan demonstrates how during the course of the proceeding citizens from all walks of life and religious backgrounds were harassed to define just what their religion is She argues that their plight points up a shocking truth religion cannot be coherently defined for the purposes of American law because everyone has different definitions of what religion is Indeed while religious freedom as a political idea was arguably once a force for tolerance it has now become a force for intolerance she maintains A clear eyed look at the laws created to protect religious freedom this vigorously argued book offers a new take on a right deemed by many to be necessary for a free democratic society It will have broad appeal not only for religion scholars but also for anyone interested in law and the Constitution Featuring a new preface by the author [The Impossibility of Religious Freedom](#) offers a new take

on a right deemed by many to be necessary for a free democratic society

Russia's Dangerous Texts Kathleen F. Parthe, 2008-10-01 Russia's Dangerous Texts examines the ways that writers and their works unnerved and irritated Russia's authoritarian rulers both before and after the Revolution Kathleen F Parth identifies ten historically powerful beliefs about literature and politics in Russia which include a view of the artistic text as national territory and the belief that writers must avoid all contact with the state Parth offers a compelling analysis of the power of Russian literature to shape national identity despite sustained efforts to silence authors deemed subversive No amount of repression could prevent the production distribution and discussion of texts outside official channels Along with tragic stories of lost manuscripts and persecuted writers there is ample evidence of an unbroken thread of political discourse through art The book concludes with a consideration of the impact of two centuries of dangerous texts on post Soviet Russia

Going Back Andrea von Treuenfeld, 2018-07-09 A vital understated contribution to the body of Holocaust literature Kirkus Reviews <https://www.kirkusreviews.com/book-reviews/andrea-von-treuenfeld/going-back/> How many Jewish women do you know who moved back to post war Germany In this collection of survivor stories you'll meet 16 Each of these women recounts her life story with grace and courage even as they remember horrors of the Holocaust Stories of fleeing war and living as a refugee of deep personal loss and of German repatriation Some were young and fled with family some were older and escaped on their own They all had to start fresh somewhere with a new language a new environment and new people Some had difficulty adapting to their new homes others grew to feel at home Where did they go How did they live And what drove them back Stories of survival with the power to uplift Click look inside above the book's image at the top left side of the page Ruth Galinski was forced to leave Germany for Poland in 1938 She learned the language got married and ended up in the Warsaw Ghetto When her husband didn't return home one day she feared the worst and fled to the Tatras with a small resistance group After the war she ended up back in Germany for what she thought would be a short time Then she met her second

husband a man famous for rebuilding the Jewish community in Berlin Steffi Wittenberg first fled to Uruguay with her family when she was 14 There she learned Spanish and English along with office skills that earned her a living as a foreign language secretary She married a German Jew who had also fled to Uruguay and had family in Houston Texas They went to Houston to work for his cousin but ended up fighting with union workers and against racism They were harassed during the McCarthy Hearings and felt like there was nowhere else to go but to East Germany They were rejected as potential American spies Eva Fr hlich had to leave everything behind She went with her family to Uruguay where she improved her Spanish skills while helping her mother earn money by making embroidered dresses She met her future husband while visiting a cousin in Brazil She spent decades there giving private English lessons while her husband sold this and that After their retirement he wanted to return to Germany where many of his friends had gone but she didn t want to Perhaps not surprising family underscores the reason each went back Many biographies about holocaust survivors are displays of bravery and triumph of the human spirit Beneath the surface of these diary like entries we discover a compelling survival guide And we find illuminating perspectives on Jewish history and Jewish identity From the author Their childhoods were spent in Berlin or Stettin in Framersheim or Frankfurt Happy and sheltered and believing that it would always be that way Until as Jews something they weren t even conscious of up to this point and even if they were then certainly not of the stigma that came with it they were excluded It was insidious in the beginning but then it became more and more brutal First it was a girlfriend who would look away without a word Then the schools which remained closed to them Finally they descended into poverty because their fathers lost their jobs And then the all pervasive threat the fear of being arrested In the end only fear of the unknown remained as they were deported forced underground or were able to emigrate just in time So why this difficult step back to a place that could never again be home after the Holocaust

Indexing Specialties Margie Towery, 1998 This compilation focuses on the indexing of history textbooks including art history medieval and Renaissance history Latin American history and gender and sexual orientation language issues The intelligent advice of contributors will assist both new and experienced indexers who work in the field of history and related disciplines

Strangers Within Francisco Bethencourt, 2024-03-26 The New Christians largely former Jews and Muslims who were forced to convert to Christianity in the 16th and 17th centuries were both a persecuted group as well as an international elite and their story argues Francisco Bethencourt offers a fascinating and indispensable view into the period and the making of a global economy In what is intended to be an authoritative and innovative book the author will recount how the New Christians were a major force in structuring the Atlantic economy and reconstruct their involvement in trading system which ran from the Atlantic to the Indian Ocean Their hybrid religious allegiances situated as they were primarily between Judaism and Christianity provide a unique case of cosmopolitanism in various parts of the world New Christian business practices forms of organisation and codes of behaviour linked intercontinental networks to local agencies Their ability to resist religious persecution implied

alliances at the highest levels of the Catholic Church and the Iberian monarchies This book will provide entirely new perspectives for our understanding of cosmopolitanism religious allegiances political alliances and business history The New Christian trading elite has been studied in a fragmentary way compartmentalised in time and space but it has never been the subject of comprehensive research over the long term from the forced conversion of the Jews in Portugal in 1497 to the abolition of the distinction between New Christians and Old Christians in Portugal in 1773 spanning connections between Europe Africa Asia and the New World

Weapons Upon Her Body Sandra Ladick Collins,2013-01-16 The biblical stories of Lot s daughters Tamar Ruth and Bathsheba share much in common singular women who are left to rely upon their own wits to achieve some measure of victory over the men around them Scholarly interpretation of these women often reduces them to mere stock characters who inform civic notions about Israel the perennial underdog who like these women achieves against great odds Or they reflect the trickery and moral ambiguity inherent in their line as ancestresses of the House of David However when read for their gender information and not for what they can tell readers about Israel one finds women who employ strategies of deception and trickery motivated by individual self interest in order to successfully maneuver within the system to their benefit Such initiative can be seen as valorous they save themselves through their own pluck and ingenuity Thus a close consideration of these stories finds that heroic biblical women carry their essential weapons upon and within themselves in their drive their resolve and their cleverness Using methods from biblical study as well as folklore this study identifies biblical women motivated by self interest coupled with deception and an incidence of the bedtrick an instance of sexual trickery that challenges the text s power and gender dynamics This identification puts Lot s daughters Tamar Ruth and Bathsheba in league with female heroes from folk tale and legend By contrasting and comparing common motifs and actions with traits established by other non biblical female heroic narratives strong heroic themes are located in all four narratives This offers a dynamic argument for identifying the female biblical heroic This work concludes that this new identification of heroic women in the Bible profoundly affects further interpretation of the Bible
