**Blades in the Sky** T. Lindsay Baker, 1992 No water ever tasted better than when it came up clear and cool from deep in the ground its flow pulsing to the steady rhythm of the wind driven pump Windmill men such as Tex Burdick and others described in Baker s narrative deserve much credit for making life possible in semi desert rural areas of Texas New Mexico and other parts of the West Elmer Kelton from the foreword During the Great Depression the windmillers of the Burdick Burdick Company of El Paso one of the largest windmill distributorships in the United States crisscrossed the desert Southwest to bring wind power and water to a parched land Battling blazing sun dust storms dizzying heights and the hazards of cacti and rattlesnakes they worked seven days a week from sunup to sundown and counted themselves lucky to earn two dollars a day From 1923 to 1942 company owner B H Tex Burdick Sr photographed his men at work producing a chronicle of the windmillers lives Fifty of his remarkable images paired here with text by historian T Lindsay Baker preserve the fascinating story of the industry that made western settlement possible [American Windmills](#) T. Lindsay Baker, Julie Philips Baker, 1996 I never talk to nobody bout this was the response of one aged African American when asked by a Works Project Administration field worker to share memories of his life in slavery and after emancipation He and other ex slaves were uncomfortable with the memories of a time when black and white lives were interwoven through human bondage Yet the WPA field workers overcame the old people's reticence and American West scholars T Lindsay Baker and Julie P Baker have collected all the known WPA Oklahoma slave narratives in this volume for the first time including fourteen never published before Their careful editorial notes detail what is known about the interviewers and the process of preparing the narratives

**Harvest the Wind** Philip Warburg, 2012-04-17 Winds sweeping through the Great Plains once robbed the Farm Belt of its future stripping away overworked topsoil and creating the dreaded Dust Bowl of the 1930s Today those winds are bringing new hope to the declining rural communities of the central United States Nowhere is wind's promise more palpable than in Cloud County Kansas where the soaring turbines of the Meridian Way Wind Farm are boosting incomes and bringing green jobs to a community that has for decades watched its children drift away In *Harvest the Wind* Philip Warburg brings readers face to face with the people behind the green economy powered resurgence in Cloud County and communities like it across the United States This corner of Kansas is the first stop on an odyssey that introduces readers to farmers factory workers biologists and high tech entrepreneurs all players in a transformative industry that is taking hold across America and around the globe In this illuminating book Warburg reveals both the remarkable growth of a breakthrough technology and the formidable challenges it faces He visits epicenters of anti wind opposition as well as communities that have embraced wind farms as neighbors He guides readers through an Iowa turbine assembly plant that is struggling to compete in a global marketplace dominated by European and Chinese manufacturers And he looks at the thousands of miles that wind generated power will need to travel to reach American consumers *Harvest the Wind* is an earthly antidote to loftier treatises on global warming and green energy By showing us how practical solutions are being implemented at the local level Warburg offers an inspirational look at how we can all pursue a saner and more sustainable energy future while at the same time investing in the nation's infrastructure and jumpstarting its economy
