Blaise Pascal Reasons Of The Heart:

Blaise Pascal Marvin R. O'Connell,1997 Blaise Pascal 1623 1662 mathematician physicist inventor and religious thinker was a man at odds with his time The optimism of the Enlightenment and the belief among philosophers and scientists that the universe was both discoverable and rational made them feel invincible Reason alone declared the intellectuals could discover a God of natural religion that was to replace the God of traditional Christianity Pascal on the other hand was not so confident In his Pens es he wrote The eternal silence of these infinite spaces fills me with dread For Pascal the universe was full of a mystery that went far beyond the powers of reason Blaise Pascal Reasons of the Heart the latest addition to Eerdmans LIBRARY OF RELIGIOUS BIOGRAPHY series captures Pascal s life and times with a chronicle narrative based on the published sources and Pascal s own works Marvin O Connell takes readers on an eloquent journey into Pascal s world showing the passion that drove the man and the radical spirituality he sought in his own heart In the process O Connell also illumines the social political and religious intrigue of seventeenth century Paris especially the winner take all struggle between the Jesuits and the Jansenists with whom Pascal himself was allied Written in an enjoyable style accessible to all this meticulously researched biography will acquaint readers with the life and thought of Blaise Pascal a remarkable human being and luminous Christian thinker *The Heart Has Its Reasons* Beata Toth,2016-05-26 *The Heart Has Its Reasons* explores a hitherto neglected area of theological anthropology the unity of human emotion and reason embodied in the Biblical concept of the heart While the theological contours of human rationality have long been clearly drawn and presented as the exclusive seat of the image of God affectivity has been relegated to a secondary position With the reintegration of the body into recent philosophical and theological discourses a number of questions have arisen if the image also resides in the body how does this change one s view of the theological significance of human affect In what way is our likeness to God realised in the whole of what we are Can one overcome the traditional dissociation between intellect and affect by a renewed theory of love In conversation with patristic and medieval authors like Irenaeus Tertullian Gregory of Nyssa Maximus and Thomas Aquinas and in dialogue with more recent interlocutors such as Blaise Pascal Ricoeur Marion Milbank and John Paul II Beata Toth pursues a novel theological vision of the essential unity of our humanity *The Thoughts, Letters, and Opuscles of Blaise Pascal* Blaise Pascal,1887 **Conjunctive Explanations in Science and Religion** Diarmid A. Finnegan,David H. Glass,Mikael Leidenhag,David N. Livingstone,2023-02-28 This book investigates the nature and relevance of conjunctive explanations in the context of science and religion It explores questions concerning how scientific and religious explanations for features of the world or phenomena within it relate to each other and whether they might work together in mutually enriching ways The chapters address topics including the relationship between Darwinian and teleological explanations non reductive explanations of mind and consciousness and explanations of Christian faith and religious experience while others explore theological and philosophical issues concerning the nature and feasibility of conjunctive explanations Overall the

contributions help to provide conceptual clarity on how scientific and religious explanations might or might not work together conjunctively as well as exploring how these ideas relate to specific topics in science and religion more generally

Healing the Culture Robert J. Spitzer, Robin A. Bernhoft, Camille E. De Blasi, 2000-01-01 Healing the culture presents the most comprehensive philosophy on the pro life movement in print today This book changes the discussion on abortion and euthanasia by linking these issues with the philosophical underpinnings of our culture and the principles and values through which we live More than an explanation of the life issues this book presents a course in philosophy and a guide to enhanced meaning and purpose in life Book jacket The Thoughts of Blaise Pascal Blaise Pascal, 1889 *The Mystery of Reason* Paul Haffner, 2001 The Mystery of Reason investigates the enterprise of human thought searching for God People have always found stepping stones to God's existence carved in the world and in the human condition This book examines the classical proofs of God's existence and affirms their continued validity It shows that human thought can connect with God and with other aspects of religious experience Moreover it depicts how Christian faith is reasonable and is neither blind nor naked Without reason belief would degenerate into fundamentalism but without faith human thought can remain stranded on the reef of its own self sufficiency This book proposes that the human mind must be in partnership with the human heart in any quest for God Paul Haffner is lecturer in systematic and dogmatic theology in Rome at the Pontifical Gregorian University the Pontifical Lateran University and the Pontifical Athenaeum Regina Apostolorum In this series he has published The Mystery of Creation The Mystery of Mary and The Sacramental Mystery **Logic of the Heart, The** James R. Peters, 2009-03 Drawing from the thought of Augustine Pascal and Hume Peters provides a clear philosophical defense of the rationality of Christian faith in a postmodern world *Faith Has Its Reasons* Kenneth Boa, Robert M. Bowman Jr., 2012-01-05 A most accessible but thoroughly practical primer on apologetics *Religion and the Enlightenment* James M. Byrne, 1997-01-01 This volume offers an overview of the Enlightenment's revolution of Western theology It explains the era's ideas within the framework of religion politics and society and shows how they impacted that society *The Making of Evangelical Spirituality* Jason Cherry, 2023-01-05 How did it come to be that evangelicals expect individualized extrabiblical revelation from God What has happened culturally historically and theologically to make this the ubiquitous assumption of evangelical spirituality The Making of Evangelical Spirituality is a compound of history and theology applied to the subject of evangelical spirituality specifically the phenomenon of evangelicals thinking God spoke to me in a still quiet voice The story is complex multifaceted and urgently in need of telling Few Christians know the history of the spiritual expectations heaped upon them Few know the individuals who gave shape to evangelical spirituality spiritual chieftains who were often guided by uniquely ephemeral social and cultural forces There is no towering figure like Martin Luther that stands as the lone front man for the esoterica of evangelical spirituality Instead it's the osmosis of many fascinating people struggling through life in the storm of worldly and cultural momentum This book is the story of those hermits monks reformers heretics politicians

outcasts and preachers who gave shape Failure to tell the story now risks it becoming just another part of historical compost threatening to make evangelicals forever ignorant of what they are tossing into the garden of their soul *A Thinking Reed* Stephen N. Williams,2023-04-28 Blaise Pascal 1623-62 was a provocative and important thinker Both the range and the influence of his work is immense His *Pensées* Thoughts unfinished and composed of fragments is widely regarded as a classic of Christian apologetics In this volume the reader is introduced to this work with a view to both describing what Pascal says and assessing its present value After introducing the man and his life Pascal's views on reason and the heart and on human wretchedness and greatness are discussed before asking in a final chapter Would you bet on God An appendix treats Pascal and modernity Four hundred years on Pascal's voice can still be heard Four hundred years on we still need to heed it Pascal does not simply speak from the mind to the mind He speaks as a person to persons **Reason & the Contours of Faith**

Richard Rice,2013-05-17 Can reason and religion get together Should believers think Can thinking people believe Does religion have to make sense Does careful thinking help or hinder religious experience People have wrestled with such questions for hundreds of years and they are just as perplexing today as ever Reason the Contours of Faith explores the wide ranging issues these questions raise from biblical interpretation and proofs for God's existence to the nature of religious conversion Its central purpose is to find an alternative to both fideism the idea that reason has nothing to do with faith and rationalism the conviction that reason has everything to do with it Part One Reason and the Contents of Faith argues that reason contributes in important but limited ways to our understanding of religion Part Two Reason and the Experience of Faith shows that reason can support religious commitment but never produces it **Unnatural Death** Philip G.

Porter,2025-10-14 In *Unnatural Death* Philip Porter demonstrates sin and death to be intimate with one another because of sin creation is held in thrall by death Demonstrating the intimacy of sin and death matters because Christians should take natural science seriously while also affirming essential doctrinal claims such as The last enemy to be destroyed is death 1 Cor 15:26 Death is not benign and this book provides a robust theological grammar of scriptural interpretation of voluntary and natural evils and of time and eternity which allows Christians to claim that the damage done by death originates in creaturely sin Porter argues that using Augustine's theory of the *rationes seminales* makes available new descriptive possibilities in the theology of creation One way to understand this work is as a speculative picture of creation that accounts for death on evolutionary timescales without attempting to naturalize it It offers this picture by showing how the angelic fall can account for the presence of death in creation This work does not offer a theodicy Instead it provides an analysis of the angelic fall that shows how God works through creaturely freedom to bring about goods that neither justify nor make sense of evil

Pascal's Thoughts on Religion and on Some Other Subjects Blaise Pascal,1895 **Faith and Reason** Donald A. Crosby,2012-01-02 Few words are as widely misconceived as the word faith Faith is often set in stark opposition to reason considered antithetical to scientific thought and heavily identified with religion Donald Crosby's revealing book provides a

more complex picture discussing faith and its connection to the whole of human life and human knowledge Crosby writes about that existential faith that underlies shapes and supports a person's life and its sense of purpose and direction Such faith does not make a person religious and being secular does not mean one rejects all forms of faith Throughout the book Crosby makes the case that faith is fundamentally involved in all processes of reasoning and that reason is an essential part of all dependable forms of faith Crosby elaborates the major components of faith and goes on to look at the mutually dependent relationships between faith and knowledge faith and scientific knowledge and faith and morality The work's final chapters examine crises of faith among several noted thinkers as well as the author's own journey of faith from plans for the ministry to pastor to secular philosopher and religious naturalist

The Heart of the Matter Bob Edwards, 2002-07-24

Psychiatrist and Holocaust survivor Viktor Frankl said Man's search for meaning is the primary motivation in his life Yet some contemporary voices claim that increased knowledge of the material world must diminish our sense of meaning

Physicist Steven Weinberg said The more the universe seems comprehensible the more it also seems pointless Many people hold the material and meaningful perspectives separate in their minds in a state of uneasy truce The Heart of the Matter A Case for Meaning in a Material World tells us that this split vision is not necessary and shows us how the two views can be harmonized to give depth to our picture of the world It looks at current scientific observations from astronomy biology and physics as well as insights from mathematics philosophy psychology and religion We are left with a sense of wonder at both the mechanics and the values of the world the how and the why of events This book will appeal to everyone fascinated by how our world works and especially to those who wonder how such marvelous mechanisms can leave room for the values and purpose that give meaning to our lives and to our world

Within My Heart Michael A. Van Horn, 2017-03-14 This book illustrates how Christianity in the modern era has been shaped in the direction of subjectivity In the Enlightenment after Locke required faith to submit to reason's judgment Kant argued that religion should remain within the bounds of reason only Schleiermacher shifted attention away from belief to devotion to Christ and a feeling of absolute dependence on God Rejecting Hegel's system Kierkegaard summoned his readers to a unique subjective approach to justification by faith Revivalist Evangelicalism has been perceived and portrayed itself as a rejection of modernism This study argues instead that the Evangelical revivalist movement is unmistakably modern in its assumptions regarding the nature of faith The Pietist impulse fueled in part by modern anthropocentrism and subjectivism in religious belief was appropriated by the Evangelical revivalists such as John Wesley George Whitefield Jonathan Edwards and later Charles Finney In short Christianity today is a religion of the heart
