## **Blake Kierkegaard And The Spectre Of Dialectic:**

*Blake, Kierkegaard, and the Spectre of Dialectic* Lorraine Clark, 2009-05-07 This study traces affinities between the late prophetic poems of William Blake and the work of the philosopher Soren Kierkegaard Both feature concepts the Spectre fought by Blake's poet prophet Los and Kierkegaard's idea of dread embodying a spirit of philosophical negation skepticism and dialectic which the writers sought to resist Lorraine Clark uses Kierkegaard's philosophy to illuminate Blake's prophecies showing that both offer the basis for a profound critique of romanticism while themselves partaking of some of the ideals and tensions central to our understanding of the romantic movement **Blake, Kierkegaard and the Spectre of Dialectic**

Lorraine Joan Clark, 1989 **Blake and Kierkegaard** James Rovira, 2010-06-22 Volume 19, Tome VI: Kierkegaard Bibliography Peter Šajda, Jon Stewart, 2017-03-16 The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies **Blake's Nostos** Kathryn S. Freeman, 1997-01-01 Establishes Blake's controversial unfinished epic *The Four Zoas* as the culmination of his mythos **Romanticism and Philosophy** Sophie

Laniel-Musitelli, Thomas Constantinesco, 2015-05-22 This volume brings together a wide range of scholars to offer new perspectives on the relationship between Romanticism and philosophy The entanglement of Romantic literature with philosophy is increasingly recognized just as Romanticism is increasingly viewed as European and Transatlantic yet few studies combine these coordinates and consider the philosophical significance of distinctly literary questions in British and American Romantic writings The essays in this book are concerned with literary writing as a form of thinking investigating the many ways in which Romantic literature across the Atlantic engages with European thought from 18th and 19th century philosophy to contemporary theory The contributors read Romantic texts both as critical responses to the major debates that have shaped the history of philosophy and as thought experiments in their own right This volume thus examines anew the poetic philosophy of Wordsworth Coleridge Blake Shelley and Clare also extending beyond poetry to consider other literary genres as philosophically significant such as Jane Austen's novels De Quincey's autofiction Edgar Allan Poe's tales or Emerson's essays Grounded in complementary theoretical backgrounds and reading practices the various contributions draw on an impressive array of writers and thinkers and challenge our understanding not only of Romanticism but also of what we have come to think of as literature and philosophy *Romanticism, Memory, and Mourning* Mark Sandy, 2016-04-08 The subject of Romanticism Memory and Mourning could not be timelier with Žižek's recent proclamation that we are living in

the end times and in an era which is preoccupied with the process and consequences of ageing We mourn both for our pasts and futures as we now recognise that history is a continuation and record of loss Mark Sandy explores the treatment of grief loss and death across a variety of Romantic poetic forms including the ballad sonnet epic elegy fragment romance and ode in the works of poets as diverse as Smith Hemans Blake Wordsworth Coleridge Byron Shelley Keats and Clare Romantic meditations on grief however varied in form and content are self consciously aware of the complexity and strength of feelings surrounding the consolation or disconsolation that their structures of poetic memory afford those who survive the imaginary and actual dead Romantic mourning Sandy shows finds expression in disparate poetic forms and how it manifests itself both as the spirit of its age rooted in precise historical conditions and as a proleptic power of lasting transhistorical significance Romantic meditations on grief and loss speak to our contemporary anxieties about the inevitable but unthinkable event of death itself

**Blake in the Nineties** Steve Clark, David Worrall, 2016-07-27 The 1990s have witnessed a major reassessment of Blake initiated by a new and more rigorous comprehension of his modes of production which in turn has led to re evaluation of other literary and cultural contexts for his work Blake in the Nineties grapples with the implications of the new bibliography for Blake studies in its editorial interpretative and historical dimensions As well as providing an international overview of recent Blake criticism the collection contributes to current debates in a variety of disciplines dealing with the Romantic period including art history counter Enlightenment scholarship theology and hermeneutic theory

**The Necessary Unity of Opposites** Brian Russell Graham, 2011-01-01 For Frye the history of ideas is characterized by sets of opposing views which result in repeated cyclical movements in that history In this study Brian Russell Graham argues that Frye s own thinking transcends the ordinary history of ideas and offers what might be thought of as a dialectical and suprahistorical alternative As Graham points out much of Frye s thought is focused on secular concerns and within that context his dialectical and suprahistorical thinking is post partisan a feature which also signifies and explains Frye s appeal Graham contends it is the thinking of William Blake specifically his conceptions of innocence and experience which provides the inspiration for Frye s dialectical thinking Graham systematically addresses the main areas of Frye s work Blake s poetry secular literature education and work politics and Scripture In following each of these themes The Necessary Unity of Opposites expertly clarifies Frye s dialectical thinking while drawing attention to its structural connection to Blake Frye s great preceptor

**Works of Love** Robert L. Perkins, 1999 To claim that Works of Love is an important philosophical essay is to assume hazardous burden of proof The book s title is an allusion to the Bible s injunction that we should love our neighbor as we love ourselves a far cry far instance from Diotima s ladder of erotic desire up which we climb from the love of bodies until we catch a vision of that single sea of beauty beauty itself Plato Symposium This contrast given that some of some of our neighbors may not be particularly likable or one may even be a determined enemy suggests immediately to some that a book with such an obviously religious title must be excessively moralistic and at best full of sermon helps for the harried clergy or

at worst laden with rules for the unlearned laity A casual perusal of a few paragraphs however shows these put down views of the book to be unfounded

**The Cambridge History of Literary Criticism: Volume 9, Twentieth-Century Historical, Philosophical and Psychological Perspectives** Christa Knellwolf, Christopher Norris, Jessica Osborn, 1989 This ninth volume in The Cambridge History of Literary Criticism presents a wide ranging survey of developments in literary criticism and theory during the last century Drawing on the combined expertise of a large team of specialist scholars it offers an authoritative account of the various movements of thought that have made the late twentieth century such a richly productive period in the history of criticism The aim has been to cover developments which have had greatest impact on the academic study of literature along with background chapters that place those movements in a broader intellectual national and socio cultural perspective In comparison with Volumes Seven and Eight also devoted to twentieth century developments there is marked emphasis on the rethinking of historical and philosophical approaches which have emerged especially during the past two decades as among the most challenging areas of debate

**"Four Mighty Ones are in Every Man"** Dóra Janzer Csikós, 2003 The dissertation focuses on one of the most debated prophecies of Blake The Four Zoas The approach is basically psychological and before the main thesis is elaborated a brief survey is given about the most frequently studied parallels such as Freud and Jung The dissertation then proceeds to examine a new aspect a parallel is drawn between the hypotheses of Lipot Szondi disciple to Freud and Blake s visionary universe Szondi s System of Drives helps illuminate several questionable passages of Blake s dream vision furthermore as the parallel points out an interesting change is discernible in Blake s concepts about Enlightenment and Rationalism whereby the previously rejected ideas become integrated into a fourfold world of wholeness and intellectual sanity

Larrissy, 2006-08-25 William Blake is one of the most important influences on twentieth century literature This study will ask why he is a figure central to the Modernist re definition of past art He also appears to be an acceptable sage for postmodernists he can be associated with an opposition to authority without imposing one version of his own mythology **The Eighteenth Century** Kevin L Cope, Robert C Leitz, 2003 This reference work provides bibliographic details for

students of 18th century studies      **Imagining Nature** Kevin Hutchings, 2002 In *Imagining Nature* Kevin Hutchings combines insights garnered from literary history poststructuralist theory and the emerging field of ecological literary studies. He considers William Blake's illuminated poetry in the context of the eighteenth century model of nature's economy, a conceptual paradigm that prefigured modern day ecological insights describing all earthly entities as integrated parts of a dynamic interactive system. Hutchings details Blake's sympathy for and important suspicions concerning the burgeoning contemporary fascination with such things as environmental ethics, animal rights, and the various fields of scientific naturalism. By focusing on Blake's concern for the relationship between nature and ideology, including the politics of class, gender, and religion, Hutchings avoids the sentimentalism and misanthropic pitfalls all too often associated with environmental commentary. He articulates a distinctively Blakean perspective on current debates in literary theory and eco-criticism and argues that while Blake's peculiar humanism and profound emphasis upon spiritual concerns have led the majority of his readers to regard his work as patently anti-natural, such a view distorts the central political and aesthetic concerns of Blake's corpus. By showing that Blake's apparent hostility toward the natural world is actually a key aspect of his famous critique of institutionalized authority, Hutchings presents Blake's work as an example of green Romanticism in its most sophisticated and socially responsive form.
