## **Bleak Midwinter 1947:**

The Bleak Midwinter, 1947 Alex J. Robertson, 1987      **Austerity Britain, 1945-1951** David Kynaston, 2010-01-04 This edition collects both volumes of Austerity Britain together for the first time This is a classic buy at least three copies one for yourself and two to give to friends and family Guardian The first book in the groundbreaking series that tells the story of Britain from VE Day in 1945 to the coming of Margaret Thatcher in 1979 as never before Coursing through Austerity Britain is an astonishing variety of voices vivid unselfconscious and unaware of what the future holds A Chingford housewife endures the tribulations of rationing a retired schoolteacher observes during a royal visit how well fed the Queen looks a pernicky civil servant in Bristol is oblivious to anyone's troubles but his own An array of working class witnesses describe how life in post war Britain is with little regard for liberal niceties or the feelings of their betters Many of these voices will stay with the reader in future volumes jostling alongside well known figures like John Arlott here making his first radio broadcast still in police uniform Glenda Jackson taking the 11 and Doris Lessing newly arrived from Africa struck by the levelling poverty of postwar Britain David Kynaston weaves a sophisticated narrative of how the victorious 1945 Labour government shaped the political economic and social landscape for the next three decades Deeply researched often amusing and always intensely entertaining and readable the first volume of David Kynaston's ambitious history offers an entirely fresh perspective on Britain during those six momentous years      Clement Attlee Jerry Hardman Brookshire, 1995 Shows how Attlee middle class and Oxford educated became a committed socialist while a young social worker in London's East End and his rise as Deputy Minister during Churchill's wartime coalition and Prime Minister during Labour's creation of the welfare state from 1945 1951      Churchill's Cold War Klaus Larres, 2002-01-01 En dybtgående veldokumenteret analyse af britisk udenrigspolitik i gennem de første 10 efterkrigsår herunder bl.a. den engelsk-amerikansk-franske manøvre for at afvise Sovjetunionens bedste betingelser for at genforene Tyskland      **The Cyprus Detention Camps** Yitzhak Teutsch, 2019-07-23 Beginning in August 1946 stateless and visaless Jews most of them survivors of the Nazi death camps who sought to immigrate to the Land of Israel were intercepted by the Royal Navy and deported to the nearby island of Cyprus where they were detained in camps surrounded by barbed wire Despite occupying a dramatic and fateful position in modern history this saga has remained largely inaccessible due to the widespread dispersal of the primary sources and the linguistic difficulties presented by them To address these problems this book scrutinizes the scholarly literature consulting hundreds of primary sources many of them previously unknown on three continents bringing together interviews with scores of eyewitnesses and translating foreign language terms into English The result is a comprehensive meticulously footnoted guide that uses such tools as maps a detailed timeline and biographical entries to make this riveting saga accessible to a broad audience of scholars and general readers      *London Couture and the Making of a Fashion Centre* Michelle Jones, 2022-04-12 How design collaboration networks and narratives contributed to the establishment of a recognized English couture industry in the 1930s and 1940s In

the 1930s and 1940s English fashion houses spurred by economic and wartime crises put London on the map as a major fashion city In this book Michelle Jones examines the creation of a London based couture industry during these years exploring how designer collaboration and the construction of specific networks and narratives supported and shaped the English fashion economy Haute couture the practice of creative made to measure womenswear was widely regarded as inherently French Jones shows how an English version emerged during a period of economic turbulence when a group of designers banded together in a collective effort to shift power within the international fashion system Jones considers the establishment of this form of English design practice analyzing the commercial social and political factors that shaped the professional identity of the London couturiers She focuses on collaborative activity that supported this form of elite craft based fashion production from the prewar efforts of the Fashion Group of Great Britain to the wartime establishment of the Incorporated Society of London Fashion Designers modeled loosely after French fashion s governing body the Chambre Syndicale de la Couture Parisienne It was these collective efforts by couturiers that established and sustained London s place as an internationally recognized center for creative fashion     The People's Peace Kenneth O. Morgan,2021 This comprehensive and widely acclaimed study of British history since 1945 has been expanded to include a new chapter looking at the conflict over Brexit This edition contains some further updating     Cataclysms Dan Diner,2008-01-05 Cataclysms is a profoundly original look at the last century Approaching twentieth century history from the periphery rather than the centers of decision making the virtual narrator sits perched on the legendary stairs of Odessa and watches as events between the Baltic and the Aegean pass in review unfolding in space and time between 1917 and 1989 while evoking the nineteenth century as an interpretative backdrop Influenced by continental historical legal and social thought Dan Diner views the totality of world history evolving from an Eastern and Southeastern European angle A work of great synthesis Cataclysms chronicles twentieth century history as a universal civil war between a succession of conflicting dualisms such as freedom and equality race and class capitalism and communism liberalism and fascism East and West Diner s interpretation rotates around cataclysmic events in the transformation from multinational empires into nation states accompanied by social revolution and ethnic cleansing situating the Holocaust at the core of the century s predicament Unlike other Eurocentric interpretations of the last century Diner also highlights the emerging pivotal importance of the United States and the impact of decolonization on the process of European integration     *Never Again* Peter Hennessy,2006-10-05 The first volume of Hennessy s postwar history of Britain concerns an age dominated by the shadow of war With the beginnings of the Cold War the foundations of the new Europe and the granting of independence of former colonies Britain was forced to negotiate a new place in the world It was also a time of rationing and of rebuilding marked by the founding of the NHS and the welfare state This comprehensive history embraces both high politics and everyday experience It recreates the mood of the time and tells us where people lived how they worked and what they wore     **Agriculture in Capitalist Europe, 1945-1960** Carin

Martiin,Juan Pan-Montojo,Paul Brassley,2016-06-17 In the years before the Second World War agriculture in most European states was carried out on peasant or small family farms using technologies that relied mainly on organic inputs and local knowledge and skills supplying products into a market that was partly local or national partly international The war applied a profound shock to this system In some countries farms became battlefields causing the extensive destruction of buildings crops and livestock In others farmers had to respond to calls from the state for increased production to cope with the effects of wartime disruption of international trade By the end of the war food was rationed when it was obtainable at all Only fifteen years later the erstwhile enemies were planning ways of bringing about a single agricultural market across much of continental western Europe as farmers mechanised motorized shed labour invested capital and adopted new technologies to increase output This volume brings together scholars working on this period of dramatic technical commercial and political change in agriculture from the end of the Second World War to the emergence of the Common Agricultural Policy in the early 1960s Their work is structured around four themes the changes in the international political order within which agriculture operated the emergence of a range of different market regulation schemes that preceded the CAP changes in technology and the extent to which they were promoted by state policy and the impact of these political and technical changes on rural societies in western Europe *The Attlee Governments 1945-1951* Kevin Jefferys,2014-01-14 In 1945 the Labour Government set about a major transformation of British society Dr Jefferys s analyses the main changes and relates them to debates within the Labour party on the nature of its aims and how best to achieve them *Paramilitarism and European Society in the 1940s* Gareth Pritchard,Vesna Drapac,2025-01-29 This book explores the social roots character and consequences of paramilitary violence in Europe in the 1940s Paramilitarism had an impact on the lives of millions of Europeans yet knowledge about this important topic is partial and fragmented The general perception of European paramilitary violence in the 1940s derives almost entirely from the resistance collaboration paradigm This dichotomous analytical framework makes a clear distinction between politically motivated violence and social violence such as sexual criminal and structural violence By contrast in this book Gareth Pritchard and Vesna Drapac recognise the mutual dependence of all kinds of violence Their interpretative model the Regimes of Violence paradigm which takes account of the changing relationship between state society and organised violence allows us to observe paramilitarism in the round The Regimes of Violence framework reveals the interconnectedness of paramilitarism with other forms of violence during this period of unprecedented brutality Today paramilitary violence is a global phenomenon It has resulted in the undermining of the rule of law and the erosion of civil society in many different countries on different continents while at the same time traumatising the countless numbers of innocent people who are caught in its crossfire With their compelling and timely study Pritchard and Drapac provide an historical context and present a novel approach for understanding why paramilitarism shows no sign of abating **The Passionate Economist** Sally Sheard,2013-11-28 Brian Abel Smith was one of the most

influential expert advisers of the 20th century in shaping social welfare He was a modern day Thomas Paine driven by a strong socialist mission to improve the lives of the poorest This valuable and accessible book is the first biography of Abel Smith It takes a historical perspective to analyse the development of health and social welfare systems since the 1950s exposing the critical impact of long running debates on poverty and state responsibility especially in Britain This book also provides the first comparative study of how developing countries sought better health and social welfare enabled by the World Health Organization and other agencies for whom Abel Smith regularly worked This book offers an engaging and useful study for students and researchers in health and social policy history politics and economics and interested general readers It will also be essential reading for professionals working in those government ministries and institutions that Brian Abel Smith helped to shape LSE Pioneers in Social Policy Brian Abel Smith Richard Titmuss and Peter Townsend all based at the London School of Economics and Political Science made major contributions to the development of policies on the elderly health care law poverty and welfare in the 20th century This series of biographies tells the stories of these outstanding individuals their backgrounds ideas and work **The NUM and British Politics: 1944-1968** Andrew Taylor, 2003 The NUM and British Politics makes use of union material party and government archives as well as oral testimony much of it highly confidential to present the first overall account of the evolving nature of the tripartite relationship between the mine

The Royal Navy and Nuclear Weapons Richard Moore, 2018-12-07 This work examines British thinking about nuclear weapons in the period up to about 1970 looking at the subject through the eyes of the Royal Navy in the belief that this can offer new insights in this field The author argues that the Navy was always sceptical about nuclear weapons both on practical grounds and because of wartime and pre war experiences He suggests that this scepticism can teach us a good deal about military technological innovation in general **Design and Cultural Politics in Postwar Britain** Patrick
