The Blessed Sacrament: Or, The Works and Ways of God Frederick William Faber, 1856      The Blessed Sacrament Rev. Fr. Frederick Faber, 2003-09 Fr Faber inspires here a reverential awe and love for God's greatest work the compendium of all miracles and Queen of the Sacraments Affirms that the Blessed Sacrament is the picture of God the Magnet of souls and the very life of the Church Includes great insights into the theology of Transubstantiation a doctrine often denied today and describes Our Lord's Five Eucharistic Sufferings and the reparation we should make As usual Fr Faber ranges over the entire Catholic Faith in this work enlightening our minds and inflaming our souls with a more deeply Catholic outlook on life ...

**Sermons on the Blessed Sacrament ... New Edition** John Mason Neale, 1900      **The Blessed Sacrament** Frederick Faber, 2013-10-12 This treatise is an attempt to popularize certain portions of the science of theology in the same way as handbooks and manuals have popularized astronomy geology and other physical sciences It seemed as if in these times devotion might be the better for a more than common infusion of theology It has not been an easy task for those who have been accustomed to the many definitions and abundant authorities of the treatises on the Incarnation and Grace find the treatise of the Holy Eucharist a region of another sort where authority does less for them and consequently they are left to do more for themselves The reason is obvious In the matter of the Holy Eucharist heresy has for the most part limited itself to simple negations rather than abounded in false teachings while the latter was the case with Grace and the Incarnation As my object is not controversy but piety I have not argued out the conclusions to which I have come nor loaded my pages with erudite references to books I have made my choice among the various opinions of the schools and I have put none forward that I know of which are not supported by approved writers and at the same time I must not be understood by preferring one to another to have qualified with any note of censure what the Church has left untouched and free Many should censure me

for writing another book on a subject on which so many have been already written I would say in self defence that I have not written with a view either of superseding the works of others or of teaching anything new but I plead as my excuse the words of St Austin Utile est plures a pluribus fieri libros diverso stylo non diversa fide etiam de quæstionibus eisdem ut ad plurimos res ipsa perveniat ad alios sic ad alios autem sic I submit my work with all diffidence to the public and with entire submission to my superiors My desire has been to lay it at the feet of the Blessed Sacrament as a little thank offering for the gift of faith in that transcending mystery A gift given to me out of season and with a mysterious stretch of pardoning love and which is to me the dear light of life for whose abounding joy and unclouded surety no loss can be other than a priceless gain
