Bomber Command 1939 1945:

The Bomber Command War Diaries Martin Middlebrook, Chris Everitt, 2014-04-02 The essential WWII historical reference detailing RAF Bomber Command's extensive campaign of strategic bombings across occupied Europe. The Royal Air Force Bomber Command's strategic bombing campaign started on the first day of the Second World War and ended five and a half years later with the final victory in Europe. It was a campaign of such enormous scale that historians have only recently begun to piece together the finer details of the individual raids. Aviation historian Martin Middlebrook and his research colleague Chris Everitt were the first to compile a complete review of all the raids and their background stories. *The Bomber Command War Diaries* not only documents every Bomber Command operation but also details their effects on the ground, drawing on local archives from Germany, Italy, and the occupied countries. It is a groundbreaking work on historical research bringing together the two sides of Bomber Command's war. This edition includes retrospective observations and a new appendix.

Bombers Command R. J. Overy, 2000 *Beskrivelse af den rolle det britiske flyvevåbens Royal Air Force Bomber Command spillede under 2. Verdenskrig både på de udenlandske krigsskuepladser og på den britiske hjemmefront*. Bogen er forsynet med oversigter over togter, tab m.v.

[A Dictionary of Bomber Command, 1939-1945](#) Geoff Simpson, 2011 During the Second World War Bomber Command destroyed a significant proportion of Nazi Germany's industries and many cities, although at great loss. Here is a book that provides a useful background to the principal aspects of the conflict: a dictionary by journalist and historian Geoff Simpson comprising alphabetical entries covering everything from Airborne Cigar to Women's Auxiliary Air Force.

Bomber Command Max Hastings, 2012-03-22 A brilliant tour de force. *Times Literary Supplement*. Bomber Command is acclaimed historian Sir Max Hastings' compelling account of one of the most controversial struggles of the Second World War. RAF Bomber Command's offensive against the cities of Germany was one of the epic campaigns of the Second World War. More than 56,000 British and Commonwealth aircrew and 600,000 Germans died in the course of the RAF's attempt to win the war by bombing. The struggle began in 1939 with a few primitive Whitleys, Hampdens, and Wellingtons and ended six years later with 1,600 Lancasters, Halifaxes, and Mosquitoes razing whole cities in a single night. Max Hastings traced the developments of area bombing using a wealth of documents, letters, diaries, and interviews with key surviving witnesses. Bomber Command is in turn a fascinating, meticulously researched and vivid assessment of the RAF's integral role in the Second World War.

Night after night through six long years of war, RAF Bomber Command's squadrons pounded away at the cities of Nazi Germany in a determined effort to bring the Third Reich to its knees. Pitted against Bomber Harris's aircrews and aircraft were some of the most effective and deadly defences the world has ever seen. For Bomber Command to launch a maximum effort raid on the Ruhr by night or a low level strike on an enemy target in occupied Europe by day, it involved a huge amount

of planning Who decided the policy Why when and where were the airfields built How was the overall command structure organized from the Air Council down to individual squadron level How did the RAF train its bomber crews What aircraft did they fly and what weapons did they use Who were their commanders and who were the men that made up the rank and file of the Command How was a raid planned and once it was launched what happened This is a comprehensive overview of Bomber Command s wartime organization and operations fully illustrated with a selection of archive photographs

Bomber Command 1939-1945 C. T. Eriksen,196? Bomber Command 1939-45 Ian Carter,2000 For most of the early years of World War II RAF Bomber Command represented the only British force capable of striking back at the Germans While criticized since the war for its bombing of populated areas Bomber Command itself suffered by far the highest percentage of casualties of any British unit in World War II The author covers in detail the organization of Bomber Command its aircraft personnel and active operations Ian Carter has an extensive knowledge of the photo archives of the Imperial War Museum and has personally selected 250 pictures most never before published to accompany his detailed narrative **RAF Bomber Command at War, 1939-1945** Craig Armstrong,2021-04-28 The Royal Air Force had placed a great deal of faith in its force of bombers Bomber Command in the event of a future war The belief in the ability of formations of bombers flying in daylight and unescorted protecting themselves from enemy fighter attack informed early tactics but led to bloody losses Hampered by government restrictions on targets by late 1941 Bomber Command was in crisis As a result and coupled the growing dire war situation a new and forceful commander Sir Arthur Harris was appointed and new strategies allowed Bomber Command to broaden its attacks despite some opposition The result was the area bombing strategy which focussed attacks upon enemy held towns and cities This Main Offensive period lasted throughout 1943 1944 and saw both victories and defeats It was also the period that saw a limited number of precision attacks on Augsburg Peenemunde and most famously the Ruhr dams Bomber Command also aided in tactical and strategic support for the invasion of Europe and the subsequent fight to push inland New technological developments allowed Bomber Command to hit V Weapons sites and to focus more on precision bombing but Harris remained determined to hit German towns and cities whenever possible while the Command s growing power allowed it to rain devastation upon its targets culminating at Dresden Much has been written about Bomber Command but this book focusses largely on those who took part in the raids and on public attitudes towards the campaign in Britain Using accounts from national and local archives newspapers and existing historiography the book seeks to shed light on untold stories from Bomber Command s war *So Many* Bill Gunston,1995 *The Strategic Air Offensive Against Germany* Sir Charles Kingsley Webster,Noble Frankland,1961 *The Relentless Offensive* Roy Irons,2009-06-25 During the years before World War II the Royal Air Force created amid the bloodshed of the Great War saw salvation in the doctrine of a relentless offensive by a bomber force which would sail over trenches and then on to the enemy cities and annihilate the ability of the enemy to wage war This book gives a view of how that doctrine driven by courage and

coldly sharpened by scientists brought those visions to reality This is a fresh analysis of Bomber Command its tactics and technology It discusses exactly how well organised Bomber Command was to exploit the rapidly evolving new science and technology of new type of warfare How much did the concept of Allied and German morale influenced the Commands operational plans What was the influence of the Research and Experiments Dept of the Ministry of Home Security and of university scientists such as Tizard and Cherwell This book delves into the research into high explosives and firebombing techniques newly designed bombs and their devastating effect on the enemy Why in the early war days was the RAF bombers armament so ineffective the navigation so imprecise and the bombing accuracy so poor This book also discusses the many varying moral issues that even to this day still rage between those who feel guilt for the destruction of so many German cities and those who see moral justification in the eventual Allied victory

of the leadership of the force in those crucial years *Lost in the Flames* Christopher Jory, 2012 There have been many factual accounts of the bombing of Germany yet the myths that surround it still remain *Lost in the Flames* brings to life the experiences of an RAF Bomber Command airman and his family within the story of a love that endures for 70 years It is also a story of great courage and betrayal exposing the personal dilemmas and moral controversies that have swirled around the Bomber Command crews and their families from WW2 to the present day Summer 2012 finally sees the unveiling of an official memorial to Bomber Command that has been 70 years in coming making this a very timely novel The war must be finished They must do their bit Rural England the 1930s Jacob grows up dreaming of being a pilot Rose grows up dreaming of being with Jacob But by 1940 the country is on its knees and annihilation looms The war and RAF Bomber Command steals Jacob away Jacob and his crew are thrown together in the bitter struggle in the night skies over Germany They can expect to survive for only six weeks but somehow they survive six months Sixty percent of those who joined up when they did are already dead but they start a second tour all the same the war must be finished and they must do their bit And all the while Rose the reason Jacob has to get through this war must wait to see what is left of him for her to spend a life with when it's all over Can Jacob and his crew survive And how will the nation remember them as heroes or war criminals or something in between No. 5 Group Bomber Command Royal Air Force Roll of Honour 1939-1945, 1950 **Before the Storm** Robert Jackson, 2001
