Bomber Battle For Berlin:

The Berlin Raids Martin Middlebrook, 2010-07-12 A meticulously documented account that covers the RAF's controversial attempt to end World War II by the aerial bombing of Berlin. Kirkus Reviews: The Battle of Berlin was the longest and most sustained bombing offensive against one target in the Second World War. Bomber Command's Commander in Chief Sir Arthur Harris hoped to wreck Berlin from end to end and produce a state of devastation in which German surrender was inevitable. He dispatched nineteen major raids between August 1943 and March 1944; more than ten thousand aircraft sorties dropped over thirty thousand tons of bombs on Berlin. It was the RAF's supreme effort to end the war by aerial bombing. But Berlin was not destroyed and the RAF lost more than six hundred aircraft and their crews. The controversy over whether the Battle of Berlin was a success or failure has continued ever since. Martin Middlebrook brings to this subject considerable experience as a military historian. In preparing his material, he collected documents from both sides; many of the German ones never before used. He has also interviewed and corresponded with over four hundred of the people involved in the battle and has made trips to Germany to interview the people of Berlin and Luftwaffe aircrews. He has achieved the difficult task of bringing together both sides of the Battle of Berlin: the bombing force and the people on the ground to tell a coherent single story. His straightforward narrative covers the 19 major raids with a detailed description of three in particular and includes recollections by British and German airmen as well as German civilians who weathered the storm. Bomber Battle for Berlin Martin Middlebrook, 2010 The Battle of Berlin was the longest and most sustained bombing offensive against one target in the Second World War. Bomber Command's Commander in Chief Sir Arthur Harris hoped to wreck Berlin from end to end and produce a state of devastation in which German surrender is inevitable. He dispatched nineteen major raids between August 1943 and March 1944; more than 10 000 aircraft sorties dropped over 30 000 tons of bombs on Berlin. It was the RAF's supreme effort to end the war by aerial bombing. But Berlin was not destroyed and the RAF lost more than 600 aircraft and their crews. The controversy over whether the Battle of Berlin was a success or failure has continued ever since. Martin Middlebrook brings to this subject considerable experience as a military historian. In preparing his material, he collected documents from both sides; many of the German ones never before used. He has also interviewed and corresponded with over 400 of the people involved in the battle and has made trips to Germany to interview the people of Berlin and Luftwaffe aircrews. He has achieved the difficult task of bringing together both sides of the Battle of Berlin: the bombing force and the people on the ground to tell a coherent single story. The author describes the battle month by month as the bombers waited for the dark nights with no moon to resume their effort to destroy Berlin and end the war. He recounts the ebb and flow of fortunes, identifying the tactical factors that helped first the bombers then the night fighters to gain the upper hand. Through the words of the participants, he brings to the reader the hopes, fears and bravery of the young bomber aircrews in the desperate air battles that were waged as the Luftwaffe attempted to protect their capital city. And he includes

that element so often omitted from books about the bombing war the experiences of ordinary people in the target city showing how the bombing destroyed homes killed families affected morale and reduced the German war effort Martin Middlebrook's meticulous attention to detail makes *The Bomber Battle of Berlin* one of his most accomplished book to date

Battle of Berlin 1943-44 Richard Worrall, 2019-09-19 This illustrated study explores in detail the controversial Battle of Berlin RAF Bomber Command's costly brutal attempt to prove that strategic bombing alone could bring an end to World War II Throughout late 1943 into early 1944 an epic struggle raged over the skies of Germany between RAF Bomber Command and the Luftwaffe This campaign had been undertaken by the Commander in Chief Bomber Command Air Chief Marshal Sir Arthur Harris and was baptized The Battle of Berlin The Berlin campaign was a hard desperate slog Struggling against

dreadful and bitter winter weather Bomber Command went to Berlin a total of sixteen times suffering increasingly severe losses throughout the winter of 1943-44 in the face of a revitalized German air defence The campaign remains controversial and the jury even today is ultimately undecided as to what it realistically achieved Illustrated throughout with full colour artwork depicting the enormous scale of the campaign this is the story of the RAF's much debated attempt to win the war through bombing alone

campaign was a hard desperate slog Struggling against dreadful and bitter winter weather Bomber Command went to Berlin a total of sixteen times suffering increasingly severe losses throughout the winter of 1943 44 in the face of a revitalized German air defence The campaign remains controversial and the jury even today is ultimately undecided as to what it realistically achieved Illustrated throughout with full colour artwork depicting the enormous scale of the campaign this is the story of the RAF s much debated attempt to win the war through bombing alone **RAF Bomber Command at War, 1939-1945** Craig Armstrong, 2021-04-28 The Royal Air Force had placed a great deal of faith in its force of bombers Bomber Command in the event of a future war The belief in the ability of formations of bombers flying in daylight and unescorted protecting themselves from enemy fighter attack informed early tactics but led to bloody losses Hampered by government restrictions on targets by late 1941 Bomber Command was in crisis As a result and coupled the growing dire war situation a new and forceful commander Sir Arthur Harris was appointed and new strategies allowed Bomber Command to broaden its attacks despite some opposition The result was the area bombing strategy which focussed attacks upon enemy held towns and cities This Main Offensive period lasted throughout 1943 1944 and saw both victories and defeats It was also the period that saw a limited number of precision attacks on Augsburg Peenemunde and most famously the Ruhr dams Bomber Command also aided in tactical and strategic support for the invasion of Europe and the subsequent fight to push inland New technological developments allowed Bomber Command to hit V Weapons sites and to focus more on precision bombing but Harris remained determined to hit German towns and cities whenever possible while the Command s growing power allowed it to rain devastation upon its targets culminating at Dresden Much has been written about Bomber Command but this book focusses largely on those who took part in the raids and on public attitudes towards the campaign in Britain Using accounts from national and local archives newspapers and existing historiography the book seeks to shed light on untold stories from Bomber Command s war **Bomber Command's War Against Germany** An Official History, 2020-12-14 The internal RAF analysis of the different phases of the air war and what lessons could be learnt from those campaigns Royal Aeronautical Society website When the RAF s Bomber Command analyzed the results of their precision bombing efforts during the early years of World War II a growing body of evidence indicated that the great knockout blow expected to be delivered from the air was a fantasy It would only be through a prolonged campaign of attrition that the enemy could be worn down to such a degree that morale the means of production and the infrastructure of the enemy would be degraded to the point where its fighting ability was crippled The result of this assessment was a change of policy from precision bombing of carefully identified key installations to area bombing with the declared intent of striking at the homes of the German workers the factories where they worked regardless of the nature of such establishments or of the civilian casualties that would be the inevitable consequence In compiling this official analysis of the effectiveness of the RAF s strategic bombing campaign the author was granted unrestricted access to Air Ministry Cabinet and other relevant departmental documents that were

maintained for internal government use enabling him to gain a complete and unbiased assessment of the contribution made by Bomber Command to the defeat of Germany The conclusion he draws fully justifies the decisions taken by both Britain and the USA to bomb the German people into surrender The RAF's Youngest Bomber Pilot of WW2 Graham

Waterton, 2024-08-30 Having left his grammar school just before his 16th birthday Brian Slade falsified his age to pursue his dream of becoming a pilot Within a few days of his 17th birthday he was awarded his wings It was the start of this teenager's remarkable wartime career Soon after being awarded his pilot's brevet Brian was posted to his first squadron Flying the venerable Vickers Wellington he found himself experimenting with early target marking techniques It was also there that Brian gained the nickname The Boy Slade Though Brian's journey through the wartime RAF mirrored the experiences of tens of thousands of young men what was different if not unique was the fact before he had turned 18 which was the minimum age to begin aircrew training Brian had already completed thirty four operations more than was needed for a tour This tally included the three 1 000 bomber raids against Cologne Essen and Bremen He was awarded a Distinguished Flying Cross for nursing his badly damaged Wellington which sustained flak and night fighter damage home after a raid on Bremen Undaunted Brian soon after volunteered for his second tour of operations It was at this stage that he joined the Lancaster equipped 83 Squadron in the newly formed 8 Group becoming an experienced Pathfinder skipper It was a role in which he marked targets in the Battle of the Ruhr the bombing of Hamburg Operation Gomorrah and the Peenemünde raid The RAF's Youngest Bomber Pilot of WW2 told by his nephew a former officer in the British Army details all of Brian's fifty nine missions and captures his compelling progress with Bomber Command alongside the technological advances in aircraft pathfinder strategy and tactics Sadly Brian's Lancaster was shot down over Berlin in August 1943 The details of its loss remained shrouded in mystery until the puzzle of his aircraft's demise was eventually solved by tracing the family of the only survivor The relentless dangers not just in operations but also in training and the continuous loss of life are drawn into sharp focus But on account of his age Brian's story is unique There may have never been nor will ever be an RAF pilot of 19 years old with his flying and operational experience Complemented with a collection of previously unpublished photographs The RAF's Youngest Bomber Pilot of WW2 is one of the Second World War's most amazing tales **The Bomber Command War**

Diaries Martin Middlebrook, Chris Everitt, 2014-04-02 The essential WWII historical reference detailing RAF Bomber Command's extensive campaign of strategic bombings across occupied Europe The Royal Air Force Bomber Command's strategic bombing campaign started on the first day of the Second World War and ended five and a half years later with the final victory in Europe It was a campaign of such enormous scale that historians have only recently begun to piece together the finer details of the individual raids Aviation historian Martin Middlebrook and his research colleague Chris Everitt were the first to compile a complete review of all the raids and their background stories The Bomber Command War Diaries not only documents every Bomber Command operation but also details their effects on the ground drawing on local archives from

Germany Italy and the occupied countries It is a groundbreaking work on historical research bringing together the two sides of Bomber Command s war This edition includes retrospective observations and a new appendix **The Bomber War** Robin Neillands,2001 In this book Robin Neillands examines every detail of the campaign the strengths and fundamental flaws in doctrine the technical difficulties and developments from night time navigation through bomb aiming to fighter escort and above all the day by day night by night endurance of the crews flying to the limit in discomfort and danger facing flak and enemy fighters and well aware of their likely fate if shot down Oral history plays a key part in this account it is illuminated throughout by the personal experiences not only of British but of American Australian Canadian and other Allied fliers as well and also of German aircrew and civilians BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Dresden and the Heavy Bombers** Frank Musgrove,2005-01-01 This is the story of a young man s entry into the war in 1941 and culminates in his flying on the bombing raid to Dresden in February 1945 This is not a gung ho account of flying with Bomber Command but neither is it a breast beating avowal of guilt These memoirs take the form of a basic narrative of the author s RAF career and pay particular attention to fear morale and as the author explains the myth of leadership Several raids are described in detail and illustrate the variety of experience problems and dangers involved in such hazardous warfare So nearly 60 years after his dramatic experiences how does he view the bombing of factories and cities and the inevitable grave moral issues that have slowly and insidiously crept up on him The answer will surprise many younger and older readers **Bomber Command, 1936-1968** Ken Delve,2005-09-29 This is a comprehensive reference to the structure operation aircraft and men of Bomber Command from its formation on 1936 to 1968 when it became part of Strike Command It includes descriptions of many notable bombing raids the many types of aircraft used weapons and airfields The five main sections of the book include a general historical introduction and overview operations operational groups aircrew training and technical details of each aircraft type Lengthy Annexes cover personnel the squadrons in World War II accuracy of attacks orders of battle for each wartime year maps of airfields locations tonnage of bombs dropped and nuclear weapons carried in the post war years **Through Footless Halls of Air** Floyd Williston,1996 **Under a Bomber's Moon** Stephen Harris,2011-01-11 They were the best of enemies dedicated skilled and deadly In the night skies above wartime Germany an RAF navigator air bomber from New Zealand and a Luftwaffe pilot seek out their targets testing the gap between success and their own destruction as they cross each other s paths The odds are heavily against either of them making it through the war but as this sobering realisation displaces their initial exuberant sense of adventure both come to see in their youthful sacrifice the survival of all they hold dear UNDER A BOMBER S MOON reaches across the divide of years of geography of nationality to tell their story largely in their own words describing both the breathtaking clashes in the air and the camaraderie humour patriotism and personal tragedies that became their war Stephen Harris began his journey of discovery because he wanted to know the truth of his great uncle Colwyn Jones s fate With Col s vividly

written letters and diary as a starting point he set out to discover what really happened on the night Col s extraordinary luck ran out Little did he know that his quest would lead him to a meeting with a former Luftwaffe pilot who was pitted against his great uncle in the skies over Germany Otto Heinrich Fries proved to be both engaging and articulate eventually allowing Harris to tell his story in this book The result is a unique and personal account of two highly successful airmen from opposing sides
