Evers,1993 Survivor s account of the building of the Burma Siam Railway during World War II and subsequent war crimes investigations *The Thailand-Burma Railway, 1942-1946: Documents, post-war accounts, maps, and photographs* Paul H. Kratoska,2006 *The Eichmann Trial Diary* Sergio Minerbi,2011-07-12 Written in 1961 during the trial offers a factual and timely description of a major event of the Holocaust The trial of a major war criminal who cheated justice at Nuremberg Translated for the first time from the original Italian Perfect for the general public as well as schools and colleges 50 years after the trial took place The United States Holocaust Memorial Museum Encyclopedia of Camps and Ghettos, 1933-1945: Volume I Geoffrey P. Megargee,2009-05-22 Winner of the National Jewish Book Award This valuable resource covers an aspect of the Holocaust rarely addressed and never in such detail Library Journal This is the first volume in a monumental seven volume encyclopedia reflecting years of work by the Jack Joseph and Morton Mandel Center for Advanced Holocaust Studies at the United States Holocaust Memorial Museum which will describe the universe of camps and ghettos many thousands more than previously known that the Nazis and their allies operated from Norway to North Africa and from France to Russia For the first time a single reference work will provide detailed information on each individual site This first volume covers three groups of camps the early camps that the Nazis established in the first year of Hitler s rule the major SS concentration camps with their constellations of subcamps and the special camps for Polish and German children and adolescents Overview essays provide context for each category while each camp entry provides basic information about the site s purpose prisoners guards working and living conditions and key events in the camp s history Material from personal testimonies helps convey the character of the site while source citations provide a path to additional information The Deaths of Others John Tirman,2011-07-01 Americans are greatly concerned about the number of our troops killed in battle 33 000 in the Korean War 58 000 in Vietnam 4 500 in Iraq and rightly so But why are we so indifferent often oblivious to the far greater number of casualties suffered by those we fight and those we fight for This is the compelling largely unasked question John Tirman answers in *The Deaths of Others* Between six and seven million people died in Korea Vietnam and Iraq alone the majority of them civilians And yet Americans devote little attention to these deaths Other countries however do pay attention and Tirman argues that if we want to understand why there is so much anti Americanism around the world the first place to look is how we conduct war We understandably strive to protect our own troops but our rules of engagement with the enemy are another

matter From atomic weapons and carpet bombing in World War II to napalm and daisy cutters in Vietnam and beyond our weapons have killed large numbers of civilians and enemy soldiers Americans however are mostly ignorant of these methods believing that American wars are essentially just necessary and good Trenchant and passionate *The Deaths of Others* forces readers to consider the tragic consequences of American military action not just for Americans but especially for those we fight against

Under a Bomber's Moon Stephen Harris, 2011-01-11 They were the best of enemies dedicated skilled and deadly In the night skies above wartime Germany an RAF navigator air bomber from New Zealand and a Luftwaffe pilot seek out their targets testing the gap between success and their own destruction as they cross each other's paths The odds are heavily against either of them making it through the war but as this sobering realisation displaces their initial exuberant sense of adventure both come to see in their youthful sacrifice the survival of all they hold dear UNDER A BOMBER'S MOON reaches across the divide of years of geography of nationality to tell their story largely in their own words describing both the breathtaking clashes in the air and the camaraderie humour patriotism and personal tragedies that became their war

Stephen Harris began his journey of discovery because he wanted to know the truth of his great uncle Colwyn Jones's fate With Col's vividly written letters and diary as a starting point he set out to discover what really happened on the night Col's extraordinary luck ran out Little did he know that his quest would lead him to a meeting with a former Luftwaffe pilot who was pitted against his great uncle in the skies over Germany Otto Heinrich Fries proved to be both engaging and articulate eventually allowing Harris to tell his story in this book The result is a unique and personal account of two highly successful airmen from opposing sides
