A Companion to the Roman Army Paul Erdkamp,2011-03-31

This companion provides an extensive account of the Roman army exploring its role in Roman politics and society as well as the reasons for its effectiveness as a fighting force An extensive account of the Roman army from its beginnings to its transformation in the later Roman Empire Examines the army as a military machine its recruitment training organization tactics and weaponry Explores the relationship of the army to Roman politics economics and society more broadly Considers the geography and climate of the lands in which the Romans fought Each chapter is written by a leading expert in a particular subfield and takes account of the latest scholarly and archaeological research in that area *The Nations of the World: Ancient history from the remotest times to the overthrow of the western empire, A.D. 476*,1898 Greek and Roman Networks in the Mediterranean Irad Malkin,Christy Constantakopoulou,Katerina Panagopoulou,2013-09-13 How useful is the concept of network for historical studies and the ancient world in particular Using theoretical models of social network analysis this book illuminates aspects of the economic social religious and political history of the ancient Greek and Roman worlds Bringing together some of the most active and prominent researchers in ancient history this book moves beyond political institutions ethnic and geographical boundaries in order to observe the ancient Mediterranean through a perspective of network interaction It employs a wide range of approaches and to examine relationships and interactions among various social entities in the Mediterranean Chronologically the book extends from the early Iron Age to the late Antique world covering the Mediterranean between Antioch in the east to Massalia Marseilles in the west This book was published as two special issues in Mediterranean Historical Review *From Flood to Fallen Kingdoms* Jarno Moilanen,2025-05-13 From Flood to Fallen Kingdoms FFFK is the first truly authoritative detailed and coherent young earth creationist overview of the post flood history of the ancient Near East and the land of Israel for laypersons and scholars alike It is a unique work which does not have serious rivals in the biblical creationist book market The lack of a good and comprehensive introductory book was the main reason why I started to write the book in the first place I have made use of the best available scholarly literature Christian as well as secular The book contains a lot of my own research but it is also in very good agreement with the archaeological articles written by A J M Osgood can be read at creation com and the books of David Down Unwrapping the Pharaohs and Unveiling the Kings of Israel for example FFFK follows the absolute chronology of Floyd Nolen Jones The Chronology of the Old Testament As a Bible faithful narrative introduction to the history and archaeology of the ancient Near East From Flood to Fallen Kingdoms is far better than the existing apologetic works that come towards the genre of FFFK Evidence for the Bible by Clive Anderson and Brian Edwards Ancient Post Flood History by Ken Johnson The World s Story 1 The Ancients by Angela O Dell for example From Flood to Fallen Kingdoms will strengthen the faith of numerous believing readers who take the Holy Scriptures seriously They will also be surprised to see how well

the first five post flood centuries from Ararat to Abraham which until now have been in great darkness can be elucidated through proper interpretation of biblical and archaeological evidence **Ancient History** Leonhard Schmitz,1898

Nations of the World: Schmitz, L. Ancient history from the remotest times to the overthrow of the Western empire, A.D. 476 ,1898 A Manual of Ancient Geography Heinrich Kiepert,1881 **Teos and Abdera** Mustafa Adak,Peter

Thonemann,2022 This volume examines the important new Greek inscription discovered at Teos in Ionia in 2017 which records the relationship between Teos and its daughter city Abdera in Thrace The text is published here for the first time alongside major new editions of other texts from Teos and Abdera **The Straits from Troy to Constantinople** John D. Grainger,2022-01-31 In ancient times the series of waterways now known as the Turkish Straits comprising the Dardanelles or Hellespont Sea of Marmara and the Bosphorus formed both a divide and a bridge between Europe and Asia Its western and eastern entrances were guarded at different times by two of the most fabled cities of all time respectively Troy in Asia and Byzantion or Byzantium on the European coast The narrow crossing points at the Hellespont and Bosphorus were strategically important invasion routes while the waters themselves were vital routes of travel and commerce particularly the supply of grain from the hinterland of the Black Sea to the Greek cities This made them sought after prizes and sources of friction between successive empires Persians Macedonians and Romans among them and ensured they were associated with some of the great names of history from Odysseus to Xerxes Alexander to Constantine the Great John D Grainger relates the fascinating history of this pivotal region from the Trojan War to Byzantion s refounding as the new capital of the Roman Empire Renamed Constantinople it dominated the straits for a thousand years **Further Studies in the Ancient Greek Polis** Pernille Flensted-Jensen,2000 A collection of 12 essays that explore the identity of Ancient Greece as a nation of very different communities The volume begins with a study of the continuity of Greek culture and society as shown by the ease with which Greeks identified their local deities with those in Hesiod and Homer Other topics include the relationship between population size and political strength in the Arkadian Poleis the reasons for the shifting location of the city of Miletos whether Ancient Sparta was a Polis the political organisation of East Locris in the Classical period the Chalcidic Peninsula and Thrace the use of the word Polis in the works of Xenophon historians Attic orators inscriptions and in other Archaic and Classical sources This useful history concludes with an index of literary sources inscriptions and names

Claudius Barbara Levick,2015-05-08 Claudius became emperor after the assassination of Caligula and was deified by his successor Nero in AD 54 Opinions of him have varied greatly over succeeding centuries but he has mostly been caricatured as a reluctant emperor hampered by a speech impediment who preferred reading to ruling Barbara Levick s authoritative study reassesses the reign of Claudius examining his political objectives and activities within the constitutional political social and economic development of Rome Out of Levick s critical scrutiny of the literary archaeological and epigraphic sources emerges a different Claudius an intelligent politician ruthlessly determined to secure his position as ruler Now

updated to take account of recent scholarship Claudius remains essential reading for students and historians of the early Roman Empire *The Orations of Isocrates* Isocrates,1894 **Annals V & VI** Cornelius Tacitus,2001 Books V and VI of Tacitus Annals when complete carried the narrative of Tiberius reign from A D 29 to 37 Unfortunately most of Book V has been lost but Annals VI which resumes the narrative 2 weeks after the execution of Sejanus contains a fascinating variety of incidents *The Arabs in Antiquity* Jan Retso,2013-07-04 The history of the Arabs in antiquity from their earliest appearance around 853 BC until the first century of Islam is described in this book It traces the mention of people called Arabs in all relevant ancient sources and suggests a new interpretation of their history It is suggested that the ancient Arabs were more a religious community than an ethnic group which would explain why the designation Arab could be easily adopted by the early Muslim tribes The Arabs of antiquity thus resemble the early Islamic Arabs more than is usually assumed both being united by common bonds of religious ideology and law *The Archaeology of Cyprus* A. Bernard Knapp,2013-03-18 This book examines the archaeology of Cyprus from the first known human presence during the Late Epipalaeolithic through the end of the Bronze Age **The orations of Isocrates, tr. by J.H. Freese, with intr. and notes** Isocrates,1894

Collected Studies: Studies in Greek literature and history, excluding Epirus and Mace-donia Nicholas Geoffrey Lemprière Hammond,1993 **Mochlos III** Natalia Vogeikoff-Brogan,2014-12-31 This volume presents the first of several Late Hellenistic buildings that were uncovered on the island of Mochlos located off the northeastern coast of Crete during the Greek American excavations of the last 25 years It also provides an introduction to the Hellenistic settlement that flourished on the island for nearly a century before it was abandoned The Hellenistic remains overlay much of the Late Minoan III and Neopalatial settlement Due to the excavation of both the Bronze Age and later phases of the town the publication of this Hellenistic building includes paleoenvironmental material among all the other artifacts which is often neglected in excavations of historical material The role that Mochlos played in East Crete is discussed and conclusions are drawn about its relations with Hierapytna during the Late Hellenistic period *Bridging the Testaments* George Athas,2023-11-14 An accessible introduction to the historical and theological developments between the Old and New Testament Bridging the end of the Old Testament period and the beginning of the New Testament period this book surveys the history and theological developments of four significant eras in Israel's post exilic history the Persian Era 539 331 BC the Hellenistic Era 332 167 BC the Hasmonean Era 167 63 BC and the Roman Era 63 4 BC In doing so it does away with the notion that there were four hundred years of prophetic silence before Jesus Bridging the Testaments outlines the political and social developments of these four periods with particular focus on their impact upon Judeans and Samaritans Using a wide range of biblical and extra biblical sources George Athas reconstructs what can be known about the history of Judah and Samaria in these eras providing the framework for understanding the history of God's covenant people and the theological developments that occurred at the end of the Old Testament period leading into the New Testament In doing so Athas shows that the notion of a

supposed period of four hundred years of prophetic silence is not supported by the biblical or historical evidence Finally an epilogue sketches the historical and theological situation prevailing at the death of Herod in 4 BC providing important context for the New Testament writings In this way the book bridges the Old and New Testaments by providing a historical and theological understanding of the five centuries leading up to the birth of Jesus tracking a biblical theology through them and abolishing the notion of a four century prophetic silence
