Style and Meaning John Gibbs, Douglas Pye, 2005-08-06 With a common focus on the decisions made by filmmakers the essays in this collection explore different aspects of the relationship between textual detail and broader conceptual frameworks These texts reflect not only those areas of film history which have traditionally been explored through mise en scène criticism but also areas such as the avant garde and television drama which have not tended to receive such detailed investigation In these ways the book conducts a series of dialogues with issues in film study which are specifically provoked by close analysis
