Of Art Volume 3:

Chinese Steles Dorothy C. Wong, 2004-09-30 Buddhist steles represent an important subset of early Chinese Buddhist art that flourished during the Northern and Southern Dynasties period 386-581. More than two hundred Chinese Buddhist steles are known to have survived. Their brilliant imagery has long captivated scholars, yet until now the Buddhist stele as a unique art form has received little scholarly attention. Dorothy Wong rectifies that insufficiency by providing in this well illustrated volume the first comprehensive investigation of this group of Buddhist monuments. She traces the ancient roots of the Chinese stele tradition and investigates the process by which Chinese steles were adapted for Buddhist use. She arranges the known corpus of Buddhist steles into broad chronological and regional groupings and analyzes not only their form and content but also the nexus of complex issues surrounding this art form from cultural symbolism to the interrelations between religious doctrine and artistic expression, economic production, patronage, and the synthesis of native and foreign art styles. In her analysis of Buddhism's dialogue with native traditions, Wong demonstrates how the Chinese artistic idiom planted the seeds for major achievements in figural and landscape arts in the ensuing Sui and Tang periods. Black Belt, 1999-11 The oldest and most respected martial arts title in the industry, this popular monthly magazine addresses the needs of martial artists of all levels by providing them with information about every style of self-defense in the world, including techniques and strategies. In addition, Black Belt produces and markets over 75 martial arts oriented books and videos, including many about the works of Bruce Lee, the best known martial arts figure in the world. *The Russian Revolution and Civil War 1917-1921* Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history. It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves. However, until now, historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature. *The Russian Revolution and Civil War 1917-1921* offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history. The Bibliography focuses on the key years of 1917 to 1921, starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921, and covers all the key events of the intervening years. As such, it identifies these crucial years as something more than simply the creation of a communist state. *Art History as Social Praxis* David Craven, 2017-08-21 *Art History as Social Praxis* The Collected Writings of David Craven brings together more than thirty essays that chart the development of Craven's voice as an unorthodox Marxist who applied historical materialism to the study of modern art. This book demonstrates the range and versatility of David Craven's praxis as a democratic socialist art historian who assessed the essential role the visual arts play in imagining more just and equitable societies. The essays collected here reveal Craven's lifelong commitment to exposing interstices between western and non-western cultures by researching the reciprocating influences between First and Third World artists, critics, and historians. *Household Journal of Popular Information*,
