*The Magazine of Poetry and Literary Review* Charles Wells Moulton, 1893      A Companion to Victorian Poetry Ciaran Cronin, 2008-04-15 This Companion brings together specially commissioned essays by distinguished international scholars that reflect both the diversity of Victorian poetry and the variety of critical approaches that illuminate it Approaches Victorian poetry by way of genre production and cultural context rather than through individual poets or poems Demonstrates how a particular poet or poem emerges from a number of overlapping cultural contexts Explores the relationships between work by different poets Recalls attention to a considerable body of poetry that has fallen into neglect Essays are informed by recent developments in textual and cultural theory Considers Victorian women poets in every chapter

*The Cambridge Companion to Textual Scholarship* Neil Fraistat, Julia Flanders, 2013-05-09 As more and more of our cultural heritage migrates into digital form and as increasing amounts of literature and art are created within digital environments it becomes more important than ever before for us to understand how the medium affects the text The expert contributors to this volume provide a clear engrossing and accessible insight into how the texts we read and study are created shaped and transmitted to us They outline the theory behind studying texts in many different forms and offer case studies demonstrating key methodologies underlying the vital processes of editing and presenting texts Through their multiple perspectives they demonstrate the centrality of textual scholarship to current literary studies of all kinds and express the sheer intellectual excitement of a crucial scholarly discipline entering a new phase of its existence      *The Writings of John Greenleaf Whittier in Seven Volumes: Personal poems; Occasional poems; The tent on the beach* John Greenleaf Whittier, 1892      *The Magazine of Poetry*, 1893      Spenser's Allegory Isabel Gamble MacCaffrey, 2015-03-08 Isabel MacCaffrey contends that in allegory the mind makes a model of itself and she shows that *The Faerie Queene* mirroring as it does the mind's structure is both a treatise on and an example of the central role that imagination plays in human life Viewing the poem as a model of Spenser's universe the author investigates the poet's theory of knowledge and the role of imagination in the construction of cosmic models She begins with a survey of theories of the imagination and the creation of fictions establishing a context in which allegorical images may be understood throughout the European allegorical tradition to which *The Faerie Queene* belongs Isabel MacCaffrey's new readings show that insofar as Spenser's poem concerns modes of knowledge it offers the reader an anatomy of its own composition an analysis of imagination in its varied relations to the world Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905      **Eclectic Magazine, and**
