The Other Within Daniel Deardorff, 2022-11-08 Reveals myth and otherness as keys to restoring self, nature and society. Shows how myths contain medicine to restore wholeness amidst trauma, exile, sudden life change, disability, illness, death, or grief. Synthesizes lessons from shamanic practice, quantum physics, alchemy, soul, poetry, wilderness, social justice, and the author's lived experience. Discloses the blessings of outsiderhood and the gifts and insights gained and contributed to culture by those who are marginalized and outcast. There is an other that lives within each of us, an exiled part that carries wisdom needed for ourselves and the culture at large. Having survived disabling polio as an infant, Daniel Deardorff knows the oppressions of exclusion and outsiderhood. He guides readers on an initiatory journey through ancient myth, literature, and personal revelation to discover our own true identity. These 10,000-year-old stories contain sacred

Space Sarah Anne Beattie,2025-01-23 This book is a response to two questions The first concerns how we can do better as human beings in addressing the broken relationships between humankind the environment in which we live and the other species with which we coexist in an increasingly fragile world The second concerns whether secular humanism can provide the answer or if there is an important contribution that Christian faith can offer to an understanding of the human condition that will empower effective transformational action The book explores the possibility of developing an interpretive approach to biblical narrative that allows a biblical perspective of reality to provide an important complementary rather than competing supplement to developing scientific perspectives of reality These are perspectives emerging from quantum mechanics and astrophysics that challenge both our conceptual ability and the limits of language in articulating mystery that in resisting physical explanation appears to demand new or different ways of thinking about ourselves and the world in which we live
