Of Popular Science Volume 14:

The Magazine of Popular Science and Journal of the Useful Arts ,1836 **Magazine of Popular Science, and Journal of the Useful Arts** ,1837 *Popular Science* ,1886-11 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better *Popular Science* ,1972-06 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better *Popular Science* ,1970-01 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better Bulletin ,1913 **Annual Report of the Receipts and Expenditures of the City of Manchester..., Together with Other Annual Reports and Papers Relating to the Affairs of the City** Manchester (N.H.),1868 **Bibliography of North American Geology** ,1909 **Religion in Victorian Britain: Traditions** Gerald Parsons,1988 This book is about science in theatre and performance It explores how theatre and performance engage with emerging scientific themes from artificial intelligence to genetics and climate change The book covers a wide range of performance forms from Broadway musicals to educational theatre from Somali drama to grime videos It features work by pioneering companies including Gob Squad Headlong Theatre and Theatre of Debate as well as offering fresh analysis of global blockbusters such as Wicked and Urinetown The book offers detailed description and analysis of theatre and performance practices as well as broader commentary on the politics of theatre as public engagement with science Science in performance is essential reading for researchers students and practitioners working between science and the arts within fields such as theatre and performance studies science communication interdisciplinary arts and health humanities Popular Science ,1927-03 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better Congressional Record United States. Congress,1967 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 *The Popular Science Monthly* ,1895 **The Spectator** ,1879 *Bikes and Bloomers* Kat Jungnickel,2018-05-04 An illustrated history of the evolution of British women s cycle wear The bicycle in Victorian Britain is often celebrated as a vehicle of women s liberation Less noted is another critical technology with which women forged new and mobile public lives cycle wear This illustrated account of women s cycle wear

from Goldsmiths Press brings together Victorian engineering and radical feminist invention to supply a missing chapter in the history of feminism. Despite its benefits, cycling was a material and ideological minefield for women. Conventional fashions were unworkable with skirts catching in wheels and tangling in pedals. Yet wearing rational cycle wear could provoke verbal and sometimes physical abuse from those threatened by newly mobile women. Seeking a solution, pioneering women not only imagined, made, and wore radical new forms of cycle wear but also patented their inventive designs. The most remarkable of these were convertible costumes that enabled wearers to transform ordinary clothing into cycle wear. Drawing on in-depth archival research and inventive practice, Kat Jungnickel brings to life in rich detail the little-known stories of six inventors of the 1890s: Alice Bygrave, a dressmaker of Brixton, registered four patents for a skirt with a dual pulley system built into its seams; Julia Gill, a court dressmaker of Haverstock Hill, patented a skirt that drew material up the waist using a mechanism of rings or eyelets; Mary and Sarah Pease, sisters from York, patented a skirt that could be quickly converted into a fashionable high collar cape; Henrietta Moller, a women's rights activist of Maidenhead, patented a three-part cycling suit with a concealed system of loops and buttons to elevate the skirt; and Mary Ann Ward, a gentlewoman of Bristol, patented the Hyde Park Safety Skirt, which gathered fabric at intervals using a series of side buttons on the skirt. Their unique contributions to cycling's past continue to shape urban life for contemporary mobile women.

Biographical Research Ana Caetano, Magda

Nico, 2022-03-30. Studying people's lives requires acknowledging the multiple entanglements between individual singularity and processes of social patterning. This book testifies how challenging and creative the study of these connections can be. It gathers international contributions that show in imaginative ways how a person's life or specific domains of existence can be observed, tackled, and analysed across time. This volume reveals the potential of biographical research in the production of social theory, in the development of methodological innovation, in giving voice and protagonism to people, and in the understanding of the social unfolding of their lives. It is a testimony of a vibrant and youthful field with a long tradition in social sciences and with numerous connections with other study areas, namely the life course approach. The different chapters illustrate how the challenges posed by this type of research, focused on the individual level of analysis, are particular and what creative responses are required to continue analysing the link between biography and society. The chapters in this book were originally published as a special issue of the journal *Contemporary Social Science*.

Forestry Current Literature, 1930

The Publishers' Circular and Booksellers' Record of British and Foreign Literature, 1900 REDEMPTION OF

THE DAMNED: VOL. 1 AERIAL PHENOMENA Martin Shough, 2019-06-28. UNRAVELLING AERIAL MYSTERIES OF THE PAST Charles Fort published his first and most influential book *The Book of the Damned* a century ago in 1919, collecting together many historical reports of strange aerial phenomena. Since the birth of the UFO controversy in 1947, Fort's writings have been cited in countless books and web pages. Yet this is the first time in a hundred years that researchers have systematically verified the sources and content of every one of these oft-recycled stories, correcting many errors, placing each

case in its historical context and submitting it to a careful scientific investigation in an attempt to find a conventional answer. What were these reported phenomena? Is it possible to find non-exotic explanations? With the advantage of modern knowledge, methods, and resources, in most cases the answer proves to be yes. Some of the solutions found may shock the general reader and surprise even specialists. Yet in the end, a few well-documented events remain unexplained.

Minerals, Lands, and Geology for the Common Defence and General Welfare Mary C. Rabbitt, 1979 *Minerals, Lands and Geology for the Common Defence and General Welfare: 1879-1904* Mary C. Rabbitt, 1979
