The present Index of Sanskrit Terms applies to the single volume unabridged edition 978 1541294714 of the Vedas Rig White and Black Yajur Sama and Atharva Dictionary definitions are drawn from A Sanskrit English Dictionary by M Monier Williams 1899 Four of the translations in the main volume are from Ralph Griffith with the remaining black yajur from Arthur Keith The texts have been proofed and all Sanskrit terms updated and synced between versions From the foreword to the main volume The Vedas from the root vid to know or divine knowledge are the most ancient of all the Hindu scriptures There were originally three Vedas the Laws of Manu always speaks of the three as do the oldest Mukhya Upanishads but a later work called the Atharvaveda has been added to these to now constitute the fourth The name Rigveda signifies Veda of verses from rig a spoken stanza Samaveda the Veda of chants from saman a song or chant Yajurveda the Veda of sacrificial formulas from yajus a sacrificial text The Atharvaveda derives its name from the sage Atharvan who is represented as a Prajapati the edlest son of Brahma and who is said to have been the first to institute the fire sacrifices The complex nature of the Vedas and the array of texts associated with them may be briefly outlined as follows The Rig Veda is the original work the Yajur Veda and Sama Veda in their mantric portions are different arrangements of its hymns for special purposes The Vedas are divided into two parts the Mantra and Brahmana The Mantra part is composed of suktas hymns in verse the Brahmana part consists of liturgical ritualistic exegetical and mystic treatises in prose The Mantra or verse portion is considered more ancient than the prose works and the books in which the hymns are collected are called samhitas collections More or less closely connected with the Brahmanans and in a few exceptional cases with the Mantra part are two classes of treatises in prose and verse called Aranyaka and Upanishad The Vedic writings are again divided into two great divisions exoteric and esoteric the former called the karma kanda the section of works and the latter the jnana kanda section of wisdom Encyclopedic Theosophical Glossary The great antiquity of the Vedas is sufficiently proven by the fact that they are written in such an ancient form of Sanskrit so different from the Sanskrit now used that there is no other work like them in the literature of this eldest sister of all the known languages as Prof Max Muller calls it Only the most learned of the Brahman Pundits can read the Vedas in their original Furthermore the Vedas cannot be viewed as singular works by singular authors but rather as compilations assembled over a great and unknown period of time Almost every hymn or division of a Veda is ascribed to various authors It is generally believed that these subdivisions were revealed orally to the rishis or sages whose respective names they bear hence the body of the Veda is known as sruti what was heard or divine revelation The very names of these Vedic sages such as Vasishtha Visvamitra and Narada all of which belong to men born in far distant ages shows that millennia must have elapsed between the different dates of their composition Encyclopedic Theosophical Glossary It is generally agreed that the Vedas were finally arranged and compiled around fourteen centuries before our era but this

interferes in no way with their great antiquity as they are acknowledged to have been long taught and passed down orally perhaps for thousands of years perhaps for far longer before being finally compiled and recorded the latter is traditionally said to have occurred on the shores of Lake Manasarovara beyond the Himalayas *The Vedas* Roshen Dalal,2014-04-15 Your essential guide to the Vedas When were the Vedas written and why Who were the people who composed them Where did they come from how did they live Questions conjectures and debates go hand in hand with the Vedas the sacred keystone texts of Hinduism Now noted historian Roshen Dalal sifts through centuries of information and research to present in a straightforward and succinct manner an account of the Vedas that is authoritative yet accessible thus appealing to both scholars and lay readers In this book key insights into the Vedas are complemented by a celebration of the poetry that lies within the texts Using socio economic data and archaeological and linguistic research the author introduces us to the Vedic era enabling us to understand the culture and philosophy that produced these ancient and sublime texts Based on original research and numerous authoritative sources including auxiliary texts and early commentaries Appendices featuring selected hymns from all four Vedas and listing all the hymns that make up the Rig Veda Conveniently cross referenced with a wealth of information [The Secret of The Veda](#) Sri Aurobindo,2016-04-11 The Secret of The Veda by Sri Aurobindo This book is collection of Sri Aurobindo s various writings on the Veda and his translations of some of the hymns originally published in the monthly review Arya between August 1914 and 1920 This book contains few scripts in Sanskrit language If you are unable to read Sanskrit script don t worry all scripts are translated in English and with proper Sanskrit pronunciation in Roman character **The Vedas** Arlo Griffiths,Jan E. The Vedic Experience Raimundo Panikkar, 1994 One of the most stupendous manifestations of the Spirit is undoubtedly that which has been handed down to us under the generic name of the Vedas The Vedas are still too much neglected not only in the world at large but also in their country of origin this Vedic anthology will make direct and fruitful knowledge of the Vedas available to a wider range of people than the small elite of pandits and Indologists This anthology collects the most crucial texts of the Indian Sacred Scriptures in all more than 500 newly translated into contemporary English Dr Panikkar's principle has been to select and place together texts so as to offer a selection of texts that cover the full range of The Vedic Experience and at the same time to show how they manifest the

universal rhythms of nature history and Man Excerpts are taken from the oldest hymns such as the Rig Veda from the Brahmanas the Aranyakas or Forest Treatises and finally the Upanishads which represent the mystical and philosophical culmination of the Vedas This is a book for meditation for reading public and private as well as for thorough study at this wellspring of human wisdom It should moreover facilitate that meeting of East and West so long desired and delayed and now so imperative

In Quest of the Dates of the Vedas Premendra Priyadarshi,2014-09-02 The dates of the four Vedas as well as the homeland of the Indo European speaking people have been two unresolved issues in the Indian history This book uses the robust information recently emerging from archaeo botanical studies particularly palinology as well as that originating from the researches in geology archaeology and genetics The information generated from these scientific studies provides a vivid picture of the last ten thousand years of Europe and Asia This picture has been matched against the information about the plants animals and climate contained in the four Vedic Samhitas as well as that emerging from the philological studies The final picture emerges that the Rig Veda was composed between 8000 BC and 6000 BC Sama Veda between 6000 BC and 5500 BC Yajur Veda between 5500 BC and 2500 BC or perhaps 2000 BC and the Atharva Veda

between 1500BC and 1300 BC The investigation also reveals that the Indo European words for lion kesari singh camel ustra ostrich opium lotus etc characteristically Indian animals and plants have existed in the Indo European vocabulary although not noticed so far That exercise fixes the location of the Indo European homeland in Northwest India at about 10 000 8 000 BC

The Vedas - The scripture of the Hindus Raja Ram Mohan Roy, 1977-02 The Vedas the sacred books of the Hindus constitute thousands of hymns or songs of lyrical character These hymns are mainly addressed to the deities Indra Varuna Ashvins Vishnu Rudra and others who are invoked to receive oblations The collection of hymns has a four fold division viz Rk Yajus Saman and Atharva The Rgveda the first and foremost of the Vedas is assigned to hotr who invokes the deities the Yajurveda to Adhvaryu who directs the Samaveda to Udgatr who sings songs of praise the Atharva to Brahma who supervises the ritual Thus the Vedas primarily center round the religious activities of the Indo Aryans In this little work all the researches on the ancient Vedic literature have been arranged in such an order as will enable everyone to have an idea of their contents without going through the voluminous works published on the subject In analyzing the four Vedas a considerable help has been taken from Colebrook s splendid essay and works of other oriental scholars of the West the foremost of which is the Oriental Sanskrit Text of Dr Muir In the interpretation of the various texts for ascertaining the religious faith of the Vedic Aryans the views of the Indian scholars have been followed as much as possible It is not at all possible to do justice to all the most important questions connected with the study of the Veda which is absolutely necessary to students of religion in such a little work as this But it has however slightly touched upon the important questions and tried to put in a nut shell the opinions of various scholars regarding them
