## **Animals Around The Year:**

**Report of the Commissioner of Agriculture for the Year ...** United States. Department of Agriculture, 1862

Annual Report of the Bureau of Animal Industry for the Year ... United States. Bureau of Animal Industry, 1905

**Report of the Commissioner of Patents for the Year ...** United States. Patent Office, 1862     *Animals, Biopolitics,*

*Law* Irus Braverman, 2015-12-22 Typically the legal investigation of nonhuman life and of animal life in particular is conducted through the discourse of animal rights Within this discourse legal rights are extended to certain nonhuman animals through the same liberal framework that has afforded human rights before it *Animals Biopolitics* Law envisions the possibility of lively legalities that move beyond the humanist perspective Drawing on an array of expertise from law geography and anthropology through animal studies and posthumanism to science and technology studies this interdisciplinary collection asks what in legal terms it means to be human and nonhuman what it means to govern and to be governed and what are the ethical and political concerns that emerge in the project of governing not only human but also more than human life     Animals Through Chinese History Roel Sterckx, Martina Siebert, Dagmar Schäfer, 2019 This innovative collection opens a door into the rich history of animals in China This title is also available as Open Access

**Animal Ethics** Bob Fischer, 2021-05-05 There are many introductions to the animal ethics literature There aren't many introductions to the practice of doing animal ethics Bob Fischer's *Animal Ethics: A Contemporary Introduction* fills that gap offering an accessible model of how animal ethics can be done today The book takes up classic issues such as the ethics of eating meat and experimenting on animals but tackles them in an empirically informed and nuanced way It also covers a range of relatively neglected issues in animal ethics such as the possibility of insect sentience and the ethics of dealing with pests Finally the book doesn't assess every current practice using standard ethical theories but tries to evaluate some of them using the moral frameworks endorsed by those involved So for instance there is a chapter on the way that animal care and use committees try to justify some of the educational uses of animals and the chapter on zoos considers the way that international zoological societies justify compromising animal welfare The book wraps up with a discussion of the future of animal ethics Each chapter opens with a helpful initial overview of the chapter and ends with a list of suggested readings to help students go further on their own **Key Features** Covers animal ethics from an empirically informed perspective bringing philosophy into conversation with key issues in animal science conservation biology economics ethology and legal studies among other fields Provides ample coverage of the most salient current topics including for example Debates about which animals are sentient The suffering of wild animals Research ethics The boundaries of activism Avoids suggesting that animal ethics is simply the practice of applying the right general theory to a problem instead allowing readers to first work out the specific costs and benefits of making ethical decisions Impresses upon the reader the need for her to work out for herself the best way forward with difficult ethical issues suggesting that progress can indeed be made Includes summaries and

recommended readings at the end of each chapter

**Congressional Presentation** United States. Agency for International Development, **Archaeology and Environment in the Scoresby Sund Fjord** Hanne Tuborg Sandell, Birger Sandell, 1991 In 1983 during archaeological investigations of Jameson Land in Northeast Greenland Kalaallit Nunaata Katersugaasivia Greenland's Landsmuseum excavated a winter dwelling from the last Thule Eskimo settlement in that area The results of the excavation are the subject of this book where they are analysed and presented from an ethno archaeological point of view The introductory section describes the natural conditions and living resources of the area and is followed by a short historical archaeological review of Northeast Greenland Next the results of the excavation are presented with a description of the finds and the archaeological data is evaluated in relation to previous material from Northeast Greenland This is followed by a section on the material and cultural development and adjustments made by the present population of the Scoresby Sund area as regards ecology and resources An ethno archaeological analysis is undertaken on the basis of the ethnological material presented and theories put forward to describe patterns of resource exploitation mobility seasonal movements etc for the people living in the last Thule culture in the Scoresby Sund area Opportunities for contact with European Whalers and other cultural developments are also discussed
