Face to Face with Animals Peter Atterton, Tamra Wright, 2019-04-16 This is the first volume of primary and secondary source material dedicated solely to the animal question in Levinas Drawing on previously unpublished material including the recent discovery and digitization of the original French recording of an interview with Levinas that took place in 1986 it seeks to give fresh impetus to the debate surrounding the moral status of animals in Levinas's work The book offers ten essays by leading scholars along with a general introduction that places Levinas's philosophy in the context of the growing field of animal ethics The aim of the volume is to encourage dialogue on how we can extend Levinas's ethics beyond its traditional human confines and to spur further research on the opportunities and challenges it raises

Le Vacuome de la Cellule Végétale: Morphologie. Le Vacuome Animal. Contractile Vacuoles of Protozoa. Food Vacuoles Pierre Dangeard, Raymond Hovasse, J.A. Kitching, 2012-12-06 It is also possible that contractile vacuoles originate by some form of phase separation not yet understood and possibly involving the contractile properties of proteins and it is possible that this process continues to operate in the walls of the vacuoles or feeder canals This secretory process may be the function of that part of the vacuolar apparatus which blackens on impregnation with osmic acid and which seems to possess some degree of permanence from vacuole to vacuole and in some cases from parent to daughter cell Remarkably little is known about the mechanism of systole General body turgor may contribute but it is not essential In ciliates the main force is local and probably comes from a tension in the wall of the vacuole itself but it is not known whether or not this is an active contraction of an oriented protein layer The critical process for the initiation of systole is probably the opening of the pore It is possible that in ciliates there is a rhythmically operating independent timing mechanism by which the vacuolar cycle is controlled but its existence has not been demonstrated

Animal Subjects Jodey Castricano, 2008-05-20 Although Cultural Studies has directed sustained attacks against sexism and racism the question of the animal has lagged behind developments in broader society with regard to animal suffering in factory farming product testing and laboratory experimentation as well in zoos rodeos circuses and public aquariums The contributors to *Animal Subjects* are scholars and writers from diverse perspectives whose work calls into question the boundaries that divide the animal kingdom from humanity focusing on the medical biological cultural philosophical and ethical concerns between non human animals and ourselves The first of its kind to feature the

work of Canadian scholars and writers in this emergent field this collection aims to include the non human animal question as part of the ethical purview of Cultural Studies and to explore the question in interdisciplinary terms

The Political Animal Chris Danta,Dimitris Vardoulakis,2010-09-01 In the variegated history of the philosophical definitions of man one has survived since it has been given the status of the self evident The definition in question comes from Aristotle s Politics the human is a political animal 1253a3 There is something indisputable about this characterization humans are indeed the most social of animals they are denizens of the polis with its institutions and laws its rulers judges and generals It would be difficult to contend that any other animal has recourse to the political as much as the human Aristotle s Politics need not be surrendered to the strictures of humanism It remains amenable to the new schema for the political animal that we are sketching here Each article collected in this issue responds in its own way and by establishing its own protocols to the exigency of the animal as it was formulated in Aristotle s Politics Each article is an act of response a moment of interruption
